

Silver Aluminum Branch Tray

This tray captures the organic design of the bird's nest it was inspired by. Organically shaped free flowing metal work intertwines to create the intricate open work design. The handwork of soldering all of the aluminum pieces together takes a very precise skill set. It is finished in a bright, raw silver. Also available in bronze.

Dimensions: 20.1/2"w x 11.1/4"d x 2.1/2"h

Material: Aluminum
