   ---Connect the hot wire (black insulation) from the fixture to the black wire from the power source.
   ---Connect the neutral wire (white insulation) from the fixture to the white wire from the power source.
   ---Attach the fixture ground wire (bare wire) to the mounting plate unit (A) with the green ground screw, then connect it to the house ground wire with the wire connectors (C).
   Carefully put the wires back into the outlet box.

3. Attach the backplate to the mounting plate unit (A) by aligning and inserting the two fixture mounting screws from the mounting plate unit (A) into the open holes on the backplate, then screw it with the two bolt nuts (D).

4. Rotate the glass shade onto the glass holder. Install 4 X 60W medium base bulbs (not included). See relamping label at socket area or packaging for maximum wattage allowed.
