

Installation steps:

1. Fix the down rod on the light fixture.
2. Fix the mounting bracket on the junction box with screws.
3. Connect the the main and ground wires of the light fixture to the wire reserved on the junction box.
4. Use green screw to lock the ground wire on the mounting bracket.
- 5-6. Cover the canopy on the mounting bracket, and then fix it with nuts.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.

5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
