

#1

Shade Assembly Instructions

A:Panel 1PC	B:Ring 1PC	C:Ring 1PC
		

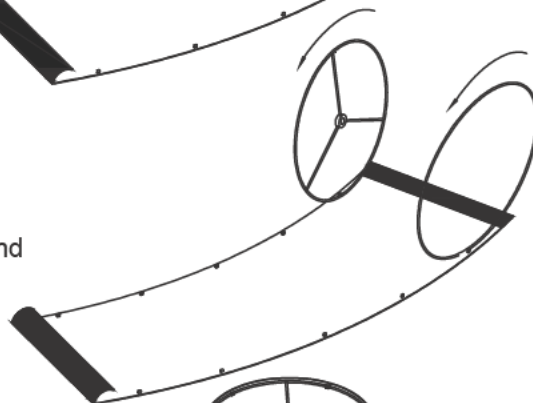

Step1

Please note that the bottom of the shade is longer than the top. Align the shade's longer side with Ring C and the shorter side with Ring B. Stick the pieces on the bottom and top of the shade to both Rings.

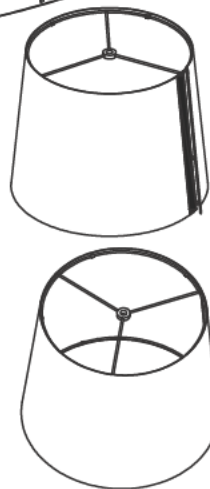

Step2

Roll both rings all the way around and make sure all the metal hook on the shade are secure onto both Rings.

Step3

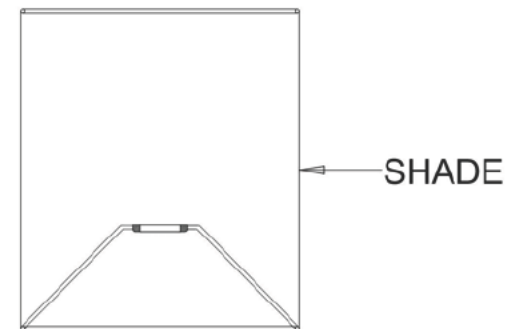

Secure the shade by pressing along the velcro.

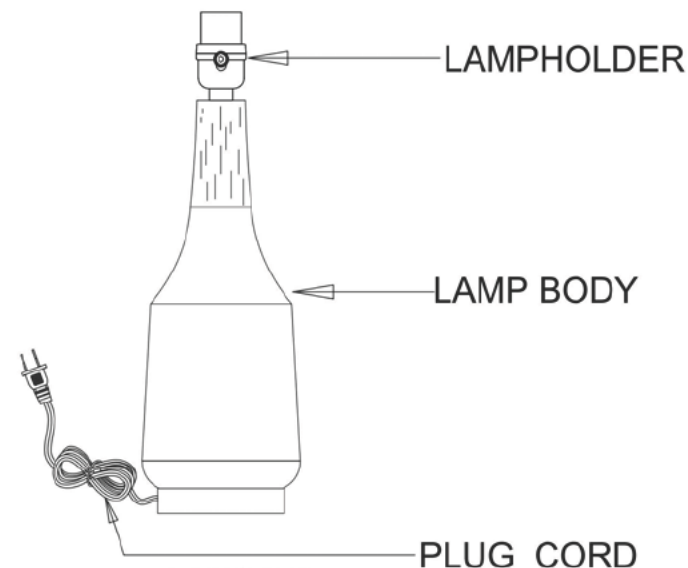

Step4

Finished as above picture.

#2

SHADE

LAMP HOLDER

LAMP BODY

PLUG CORD

1. Place SHADE onto LAMP HOLDER and adjust SHADE to correct posture.
2. Install 1 X E26 110V Bulb (NOT Included) onto the LAMP HOLDER according to the wattage label on LAMP HOLDER

TIP: You can grasp the FINIAL and FASTENER together to adjust the SHADE to correct position if it is skew.

The FASTENER is slightly rotatable by external force.
