

# ASSEMBLY AND INSTALLATION INSTRUCTIONS

**WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.**

## Hardware Package (included):

- NOTE:** 1. Before installing, consult local electrical codes for wiring and grounding requirements.
2. Please allow a little color difference due to different monitor and 1-2 inches error due to manual measurement.
3. To enjoy the product's full dimming capabilities, you will need a dimmable bulb and a dimmer switch. (dimmer switch and bulbs are not included)

## Installation Steps

### Turn off the power at fuse or circuit box

- 1-3. Adjust the wire height, put the wire through the canopy, use the "8" buckle to fix the excess wire, and lock the screws.
4. Attach the mounting bracket to the outlet box using the mounting screws.
5. Pull out the source wires from the canopy. Make wire connections using wire nuts as follows:
  - Connect the black wire from the fixture to the black wire from the power source.
  - Connect the white wire from the fixture to the white wire from the power source.
  - Attach the fixture grounding wire to the mounting strap with the green grounding screw, and then connect it to the house grounding wire with a wire nut.
- 6-7. Attach the canopy onto the outlet and tighten it with two ball nuts.
- 8-11. Drill holes and will use screws to fix the position of the other end of the fixture, and then the wire line of the fixture with screws fixed at the other end, then tighten the screws.
- 12-13. Install the bulb (not included) and attach the lampshade.
