

LED EDGELIT RECESSED

Slim, low profile recessed downlight combines innovative technology, aesthetics, functionality and affordability. No more housing or J-Box required for installation and wet location listed provides the ultimate flexibility. The low profile downlight is ideal for many residential, multi-family, commercial and hospitality applications. Featuring a detachable driver box, which can be mounted remotely for shallow ceiling installations. Energy efficient design provides up to a 75% energy savings and up 50,000 hours of LED life. Flicker free dimming down to 10% with many Forward Phase (Triac) and Electronic Low Voltage (ELV) dimmers.

EDGELIT RECESSED ACCESSORIES

Progress lighting has released two new accessories for the Edgelit Recessed fixtures. P860040-028 - 18" extender cable allows for the junction box to be remote and mounted further away from the fixture. P860044 - rough in accessory allows for Edge Lit recessed fixtures to be used in new construction installations. This accessory ensures a mounting location after the dry wall is installed and can be used when building codes require that the luminaire is supported from the building structure
