

Installation Steps:

Please check all of the accessories when you received the parcel, thanks.

1. Drill holes in the ceiling and fill expansion screw pipes at the same time, use the mounting screws to install mounting bracket on ceiling.
- 2-3. Install all of 6 lamp arms and tightening the inner side screws on the centre canopy.
4. Connect the same color wires together with one end of lead wire, tightening red wire nuts.
- 5-6. Hide all of connecting wires in the center canopy, covering the bottom piece and tightening the ball nut.
7. Put the lead wire through the lamp rod and tightening the rod on the top and centre canopy.
8. Use the connecting terminal to connect the power cord with another end of lead wire. (Please note black for "L", white for "N", copper wire for "Ground" in USA standard. Brown for "L", blue for "N", yellow mix green for "Ground" in Europe standard.)
- 9-10. Hide all of connecting wires and lift whole light to install on the mounting bracket, tightening the ball nuts under the canopy.
11. Chose the available bulbs to install and test the light source.

Note:

1. Please make sure power-off before installation. (WE SUGGEST INSTALLATION BY A LICENSED ELECTRICIAN.)
2. Due to differences between monitor displays, actual color may vary slightly from image.
3. Because of the different measurement methods, please allow 0-1/2inch difference due to manual measurement.
4. If you have any questions or any missing parts, please do not hesitate to contact us, we will try our best to help.
