

Assembly Instructions

1. Tools:

one spanner, eight long screws, eight screw gaskets, four legs, as shown in the below picture;

2. Steps:

Step 1:

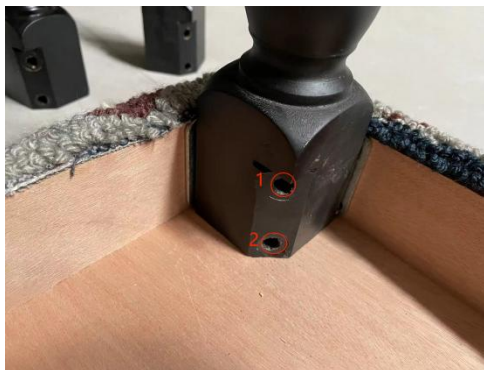

Put the screw gasket on the screw, as shown in the below picture;

(If you receive the upgraded version of the screws, there is no gaskets, so you can ignore the step1!)

Step 2:

Put the leg on the corner, the hole 1 and hole 2 on the leg should match the hole on the metal plate, aimed at the hole, and put two screws into the hole, as shown in the below pictures;

Step 3:

Tighten these two screws with the spanner, then one stool leg is installed, as shown in the below pictures;

For the other three legs, please repeat the above steps!
