INSTRUCTION MANUAL

Hexagonal tent folding sketch--Admission

1. Hold the top of the tent and the inside pole of the tent and raise it up.

2. Press both hands at the same time to the inside of the center bar.

3. After pressing down, the legs are closed.

4. Before collecting the bill, please put the lower joint of the side bar first. The slot is stretched outward to unlock and fold the tent. Do not fold the side bar directly.

5. Fold the legs inward.

6. Roll it up and tie it with rope. Put it in your pocket.

*The emission of the chemicals listed in Prop 65 in this product has been tested to meet the standard of CARB ATCM.

Hexagonal tent folding sketch--build

1. Hold two long poles in both hands and lift them up.

2. Hold two long poles in both hands and lift them up.

3. Press down the spring inner rod with your hand and hold it up. The process is completely effortless.

4. The basic construction of the tent has been completed.

5. Put on tents to support external tents, waterproof and moisture-proof.

6. Fix the tent hexagonally with nails and windbreak ropes.
