

FLEXLOK+

FlexLok+ tab system virtually eliminates harmful VOC's, this odorless dry installation system can be used in place of the traditional wet spread adhesives method. This system is performance without compromise and can be installed on any substrate. FlexLok provides a faster install with the flexibility of a floating modular floor with no glue.

PERFORMANCE

- Exceeds all performance expectations without compromise
- FlexLok+ works with all Mohawk modular products with the exception of Walk Off Tile and EcoFlex Air products

SUSTAINABILITY

- HPD and CRI Green Label Certified
- Minimal VOCs for increased indoor air quality

INSTALLATION

- Install a flexible floating floor, no glue on the subfloor
- Install on any substrate (VCT, wood, etc.)
- FlexLok+ adhesive will not dry out so installation can be installed at your own pace
- Can be installed as long as there are no visible signs of moisture

Install Methods – Tile 24x24

Quarter Turn, Monolithic, and Multi-Directional

Lay anchor rows and place a FlexLok+ tab at every joint. Install remaining carpet tiles using a step method, placing FlexLok+ tabs at each joint. Place a FlexLok+ tab at every joint around the perimeter of the room.

Install Methods – Tile 24x24
