

RECLINER CHAIR ASSEMBLY INSTRUCTIONS

Step 1: 3 bases are placed side by side, and 2 protruding cylinders on one side of base are correspondingly inserted into the corresponding notches on the sliding rail on base.

Step 2: Insert the recliner backrests into the seat bases slide rail, make sure to align and push the top part in until you hear "click".

Step 3: Insert the 2 ear backrest slides into the slides on each of the 2 sides of the backrests and push down on the ear backrests slightly to ensure full insertion.

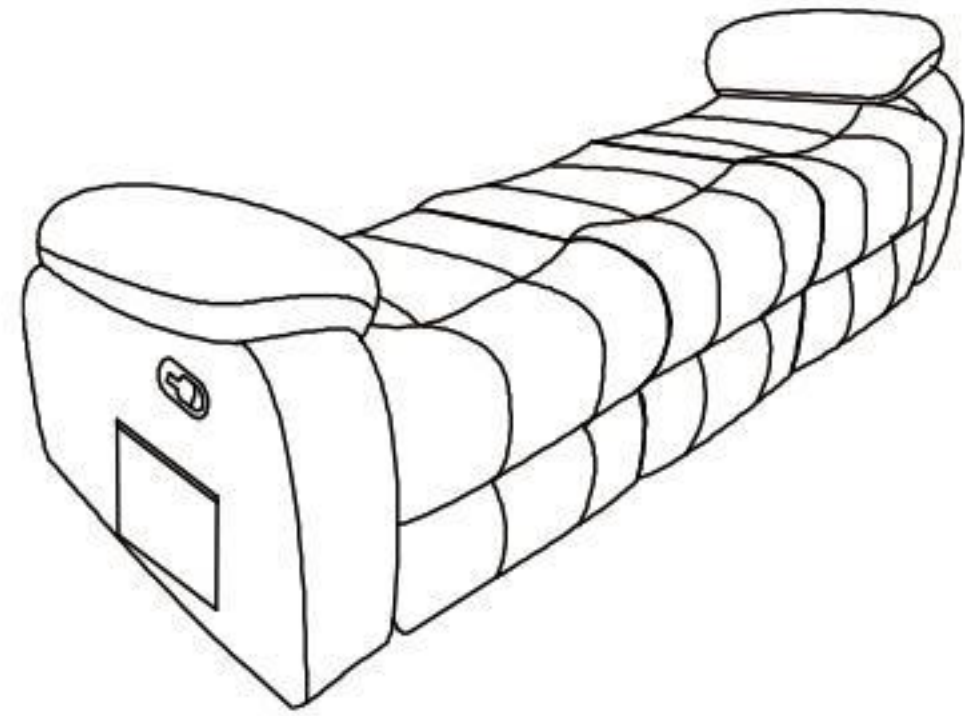

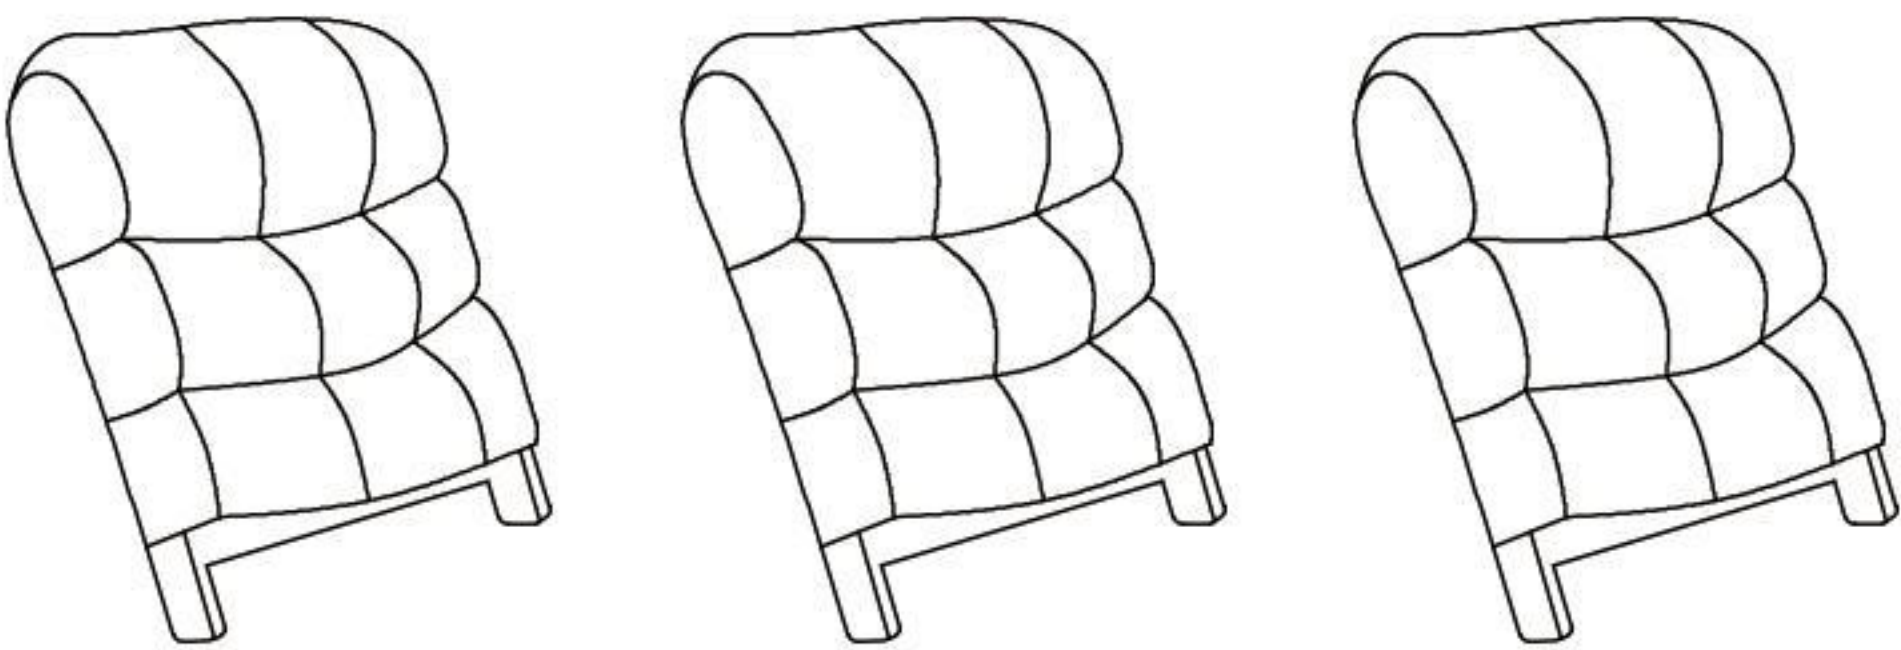

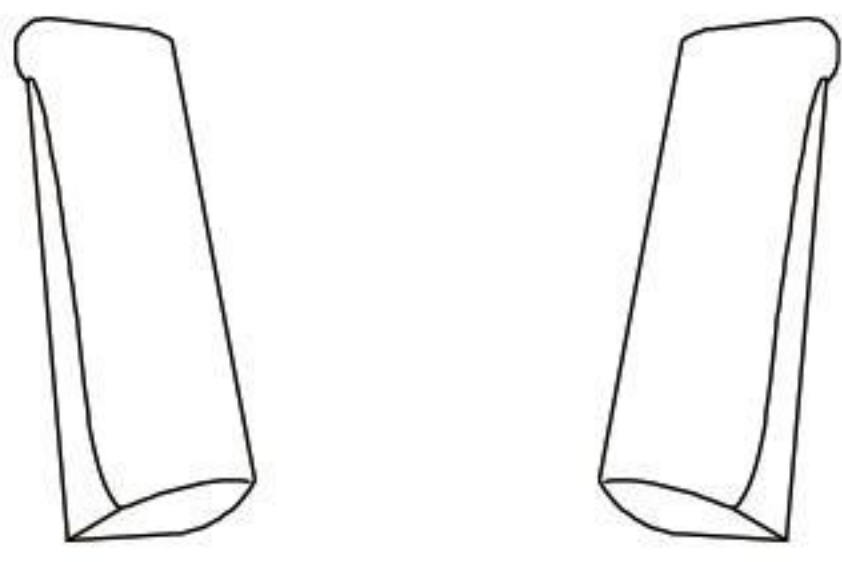

Step 4: Pull the manual switch on the side, the footrest can be unfolded and the angle of the backrest can be adjusted by relying on your body's gravity to recline backward.

Warm tips:

1. If you encounter the footrest of the recliner not opening and closing smoothly when first used, this is a normal phenomenon. Just use it more often to undergo a breaking-in period.
2. Please use the recliner on a flat surface or a carpet to avoid instability in the center of gravity.
3. Please contact our after-sales service team if you have any questions, we will be the first time for you to deal with the problem!

리클라이너 조립 지침

A  1개 베이스	B 	C 	D  3개 등받이	E 	F  2개 귀 등받이
--	---	---	---	---	--

1단계: 베이스 3개를 나란히 배치하고 베이스 한쪽의 돌출된 실린더 2개를 베이스의 슬라이딩 레일에 있는 해당 홈에 각각 삽입합니다.

2단계: 리클라이너 등받이를 시트 베이스 슬라이드 레일에 삽입하고 "딸깍" 소리가 날 때까지 상단 부분을 정렬한 후 밀어 넣습니다.

3단계: 이어백레스트 양쪽 슬라이드에 2개의 이어백레스트 슬라이드를 각각 삽입하고 이어백레스트가 완전히 삽입되도록 이어백레스트를 살짝 아래로 누릅니다.

4단계: 측면의 수동 스위치를 당기면 발 받침대가 펼쳐지고 몸의 중력에 따라 등받이 각도를 조절하여 뒤로 젖힐 수 있습니다.

따뜻한 팁:

1. 처음 사용할 때 리클라이너의 발판이 부드럽게 열리고 닫히지 않는 경우 이는 정상적인 현상이며, 더 자주 사용하여 침입 기간을 거치기 만하면됩니다.
2. 무게 중심이 불안정하지 않도록 평평한 표면이나 카펫 위에서 리클라이너를 사용하세요.
