Other Accessories

## Application

It is suitable for thick duvet covers, bed sheets, thick school uniforms, thick coats, jumpers, jeans, thick sweatshirts, shirts, padded trousers, thick pajamas, bath towels, and underwear. It is also suitable for camping, traveling, student residence, and hotel use.

## Notes

1. It is recommended that you practice with thick clothes (not included) for the first time, the thicker and wetter the clothes, the easier it is to get the balance right.
2. Please do not slowly and gently pull, if there is not enough driving force barrel will be shaking left and right.
3. If the inner shakes violently after pulling the rope, the clothes are not placed in a balanced manner, so you need to re-adjust the clothes(not included) before the operation.
4. Smaller users can assist with classmates, two people step on the base at the same time, and one person pulls one side of the rope, more energy-saving and easy to operate.
5. Please note that clothing is not included in this product.
6. Please remember to close the water outlet after draining the water.
7. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
