BEFORE YOU START THE ASSEMBLY, PLEASE READ THE FOLLOWING TIPS AND WARNINGS.

- Do not discard this manual or any of the packaging material until the unit has been completely assembled.

- If during assembly you find an issue or need clarification, please contact our Customer Service for assistance. Please refer to the last pages on this manual.

- On each step read the instructions thoroughly and analyze the illustrations before proceeding to do the assembly.
- Follow the instructions step by step and do not skip any unless our Customer Service advises it is OK to do so.

- Make sure you understand which hardware will be used on each step. Using the wrong size of screw, bolt or pin might strip the threads or cause damage to the part in which it is being used.

- To avoid misalignments, always leave the screws loose and tighten them until all pieces are positioned correctly.

- Do not overtighten or force the screws as they might break, strip, damage the threads of the holes or get stuck inside the part.

- If the hole seems too small for the screw, make sure you are using the correct size of screw and/or that you are installing it in the correct hole.

- Sometimes the fabric or material might cover partially or entirely the screw hole, making the hole appear to be too small.

CHAIR'S FUNCTIONS

- ❶ To raise or lower the chair's height, pull UP the lever that is under the seat on the right side. The chair goes down while sitting on it, or up if you lift your body.
- ❷ To make the backrest recline freely, pull UP the lever that is under the seat on the left side. To lock the reclining in a desired angle, push the lever DOWN. To unlock and recline again, pull the lever UP and push back on the backrest.
- ❸ To adjust the tension for the reclining function, turn the mechanism's knob in either direction to apply more or less tension. With less tension, the reclining will feel easier.
- ❹ To adjust the armrest height, press the button that is on the outside of the armrest and release it once the desired height is reached.
- ❺ Turn the knob on the backrest on either direction to adjust the depth of the lumbar support.
- ❻ The headrest can be adjusted up and down and pivots back and forward.
