6

put three bolts and nuts to hold them in place

7

Pay attention to the installation direction of the back

Place component 5 in place according to the diagram

8

As shown in the picture, there are four positions, each position needs to install three screws, there are eight positions, each position needs to install one screw

9

Fix with screws A according to the diagram

10

After inserting part 4 into the cabinet, please ensure that it is perpendicular to top of part 1. Then, horizontally tap the four snap positions in the picture to fully engage it.

11

Insert the tabs at the bottom of the drawer faces 11 into the drawer body 10 and bend the tabs

12

Put six screws to hold them in place

13

Make sure that the little bits protruding from part 12 are all inserted.
Note that the slots on the back wall of the drawer should face up.

14

The installation steps are consistent with Figure 11

The installation steps are consistent with Figure 12

The installation steps are consistent with Figure 13

15

1. pull out the small rails in the slide rails on the side walls completely. with two people lifting each side of the drawer, align the four divots on the bottom with the two rail clips on the rails on each side and insert them into the rail clips.

16

2. After placing the drawer on the rail, press the drawer base down hard enough, paying attention to check the position of the four clips inside until you hear a click four times, which means the drawer is in place

17

Please follow steps 15-16 to sequentially assemble the three drawers onto the cabinet body

18
