Product Description: With a hunt country flair and pedigreed design details like curved legs with scroll motifs and carved leather inset panels with nail head trim, the Telluride 66-inch Writing Desk offers a stylish and functional work-from-home solution. Crafted of Cherry Veneers with leather and nail head trim, the black paint finish with reddish brown rub-through presents a rich menswear look. There's a center drawer with drop front for the keyboard, and two utility drawers with removable dividers.

Collection Features: Telluride's black paint finish with reddish brown rub-through, carved leather panels and nail head trim give this collection a rich masculine look.

Status: Active

Finish: Black finish over cherry veneers with reddish brown rub-through. Distressing includes rock and rasping.

Features: Bonded leather inserts on top
Center drawer with drop-front for keyboard
Two utility drawers with removable dividers
Keyboard area: 27 1/8W x 19 1/8D x 2 3/8H
Knee space: 54 1/2W x 24 1/8H

Material: Cherry Veneers with Leather, Nailhead Trim and High Quality Bonded Leather

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish

process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
