

Installation steps:

- 1-2. Align the side teeth of the square tube with the holes on the iron ring, and then tighten the screws to secure it
- 3-4. Align the teeth on the top of the square tube with the holes on the lamp body, and then tighten the screws to secure it
5. Fix the installation bracket to the junction box with screws
6. Connect the main and ground wires of the lamp body to the reserved wires on the junction box
- 7-8. Cover the lamp body on the mounting bracket and tighten the spherical nut to secure the lamp body
9. Install the bulbs. (Bulb not included)
10. Hang the pendant on the lamp body

Safety Instructions:

- To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
 2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
 3. Make certain no bare wires are exposed outside the wire connectors.
 4. All wiring must conform to national and local electrical codes.
 5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
