INSTRUCTIONS FOR PENDANT LIGHT FIXTURE

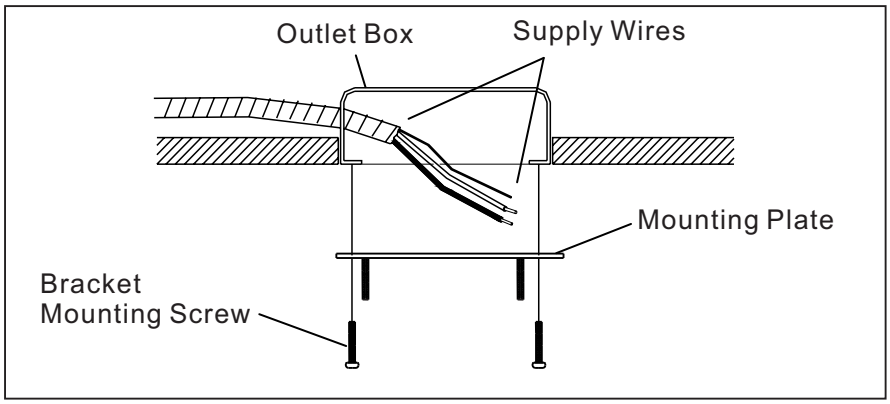
WARNING:

- We suggest a qualified, licensed electrician to perform the installation.
- Before starting installation disconnect the power by turning off the Circuit Breaker or by removing fuse at the fuse box.

NOTE: Just turning the light off at the light switch is not sufficient to prevent electrical shock.

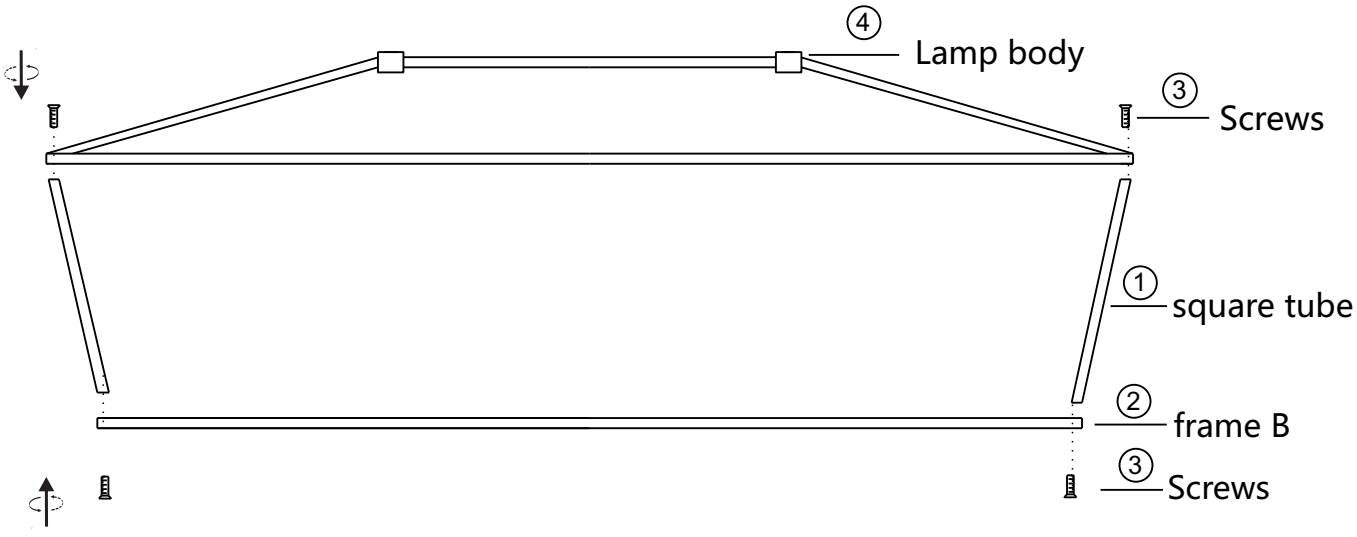
Install Mounting Plate:

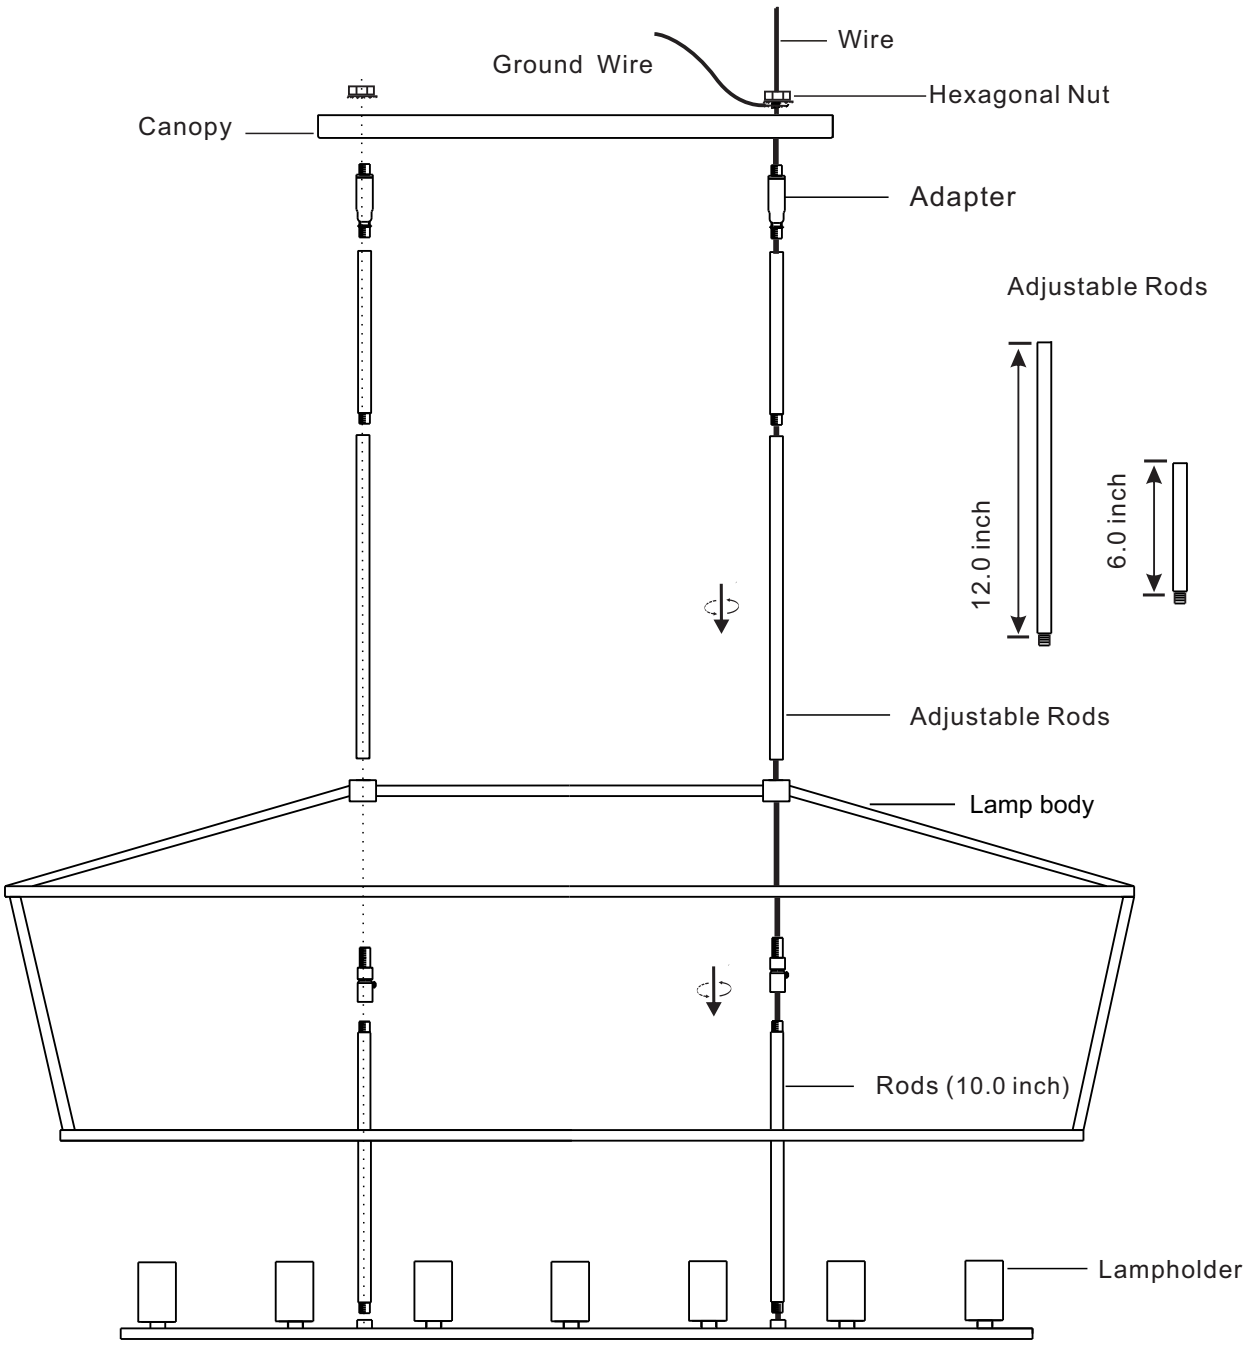
1. Disconnect power at the circuit breaker.
2. Pull the Supply Wires from the Outlet Box.
3. Attach the Mounting Bracket to the Outlet Box using the Bracket Mounting Screws.
4. Hand tighten to secure.



Install Lamp Body Frame:

1.Fix 4 pcs square tube ① onto square tube frame B ② By screws ③
2.Fix Lamp body ④ onto 4 pcs square tube ① By screws ③





Make Wire Connections:

"L" = Hot wire
"N" = Neutral wire
"E" = Ground wire
