

Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

1. Select a hanging rod of suitable length, feed the fixture wires through the rod, then install the rod onto the threaded connector at the top of the fixture body.
 2. Feed the wires through the ceiling canopy with sloped ceiling compatible, then secure the canopy onto the hanging rod.
 3. Secure the 4.33" bottom metal tube to the fixture body.
 4. Spread and adjust the decorative metal wires evenly, then install them onto the metal rod at the bottom of the fixture body.
 5. Secure the mounting plate to the junction box using mounting plate screws.
 6. Connect the wires using the wire caps as follows:
Connect the fixture's **BLACK** wire to the home **LIVE/HOT** wire.
Connect the fixture's **WHITE** wire to the home **NEUTRAL** wire.
Connect the fixture's **GROUND** wire to the home **GROUND** wire to the mounting plate with the green screw.
 - *Note: Ensure no wire strands are exposed.
 7. Secure the ceiling canopy to the mounting plate with knurled nuts.
 8. Install the bulb (Bulb not included).
 9. Turn on the power to check if the bulb works properly.
- Installation complete.
