MAINTAINING YOUR PUSH BROOMS

Routine for cleaning and storing

- 1 REMOVE** dirt and hair after day's use. Comb out fibers regularly to extract debris left behind.

- 2 STORE** brooms upright either on a holder or on the floor. For wall mounting, try ClosetMaid's Heavy-Duty Hook (model# 3536) or Metal Broom and Mop Holder (model# 3462).

Model# 3536

Model# 3462

Fibers resting on the floor may flatten over time and reduce cleaning effectiveness of the broom.
