

MAINTAINING YOUR PUSH BROOMS

Routine for cleaning and storing

REMOVE dirt and hair after day's use.
Comb out fibers regularly to extract
debris left behind.

STORE brooms upright either on a holder or on the floor. For wall mounting, try ClosetMaid's Heavy-Duty Hook (model# 3536) or Metal Broom and Mop Holder (model# 3462).

Fibers resting on the floor may flatten over time and reduce cleaning effectiveness of the broom.
