

FIXTURE ASSEMBLY

INSTALLATION

IMPORTANT: Read all instructions before installing fixture. Retain for future reference.

SAFETY

Turn the power off at main fuse/breaker panel before attempting any electrical work.
This luminaire must be wired in accordance with local electrical codes and ordinances.
Grounding connections should be done in the detachable junction box.

WARNING

Make sure the power is OFF from the electrical panel before starting installation or attempting any maintenance. Indoor installation only.

INSTALLATION

1. Cutting a mounting hole in the ceiling.
2. Connect supply wires to wires on fixture with wire nuts or push wires into Quick Connector. Connect white to white, black to black, and copper wire to copper wire as grounding connection.
3. Completing the installation by pushing the fixture into the mounting hole and putting the clips in place. For new construction installation, use industry standard mounting plates.
4. Finish the installation, turn on the power.
