

Instructions

Thank you for purchasing this bird cage. The following will be a detailed and photographed set of instructions of assembly for your convenience. Prepare to assemble your product in 6 easy steps.

Step 1 – Check Materials

Please make sure you have the following:

- Base bottom tray grill (1)
- Cage frame (1)
- Cage roof/top (2)
- Perch (2)
- Feeding cup (2)
- Cage handle
- Bottom tray (1)

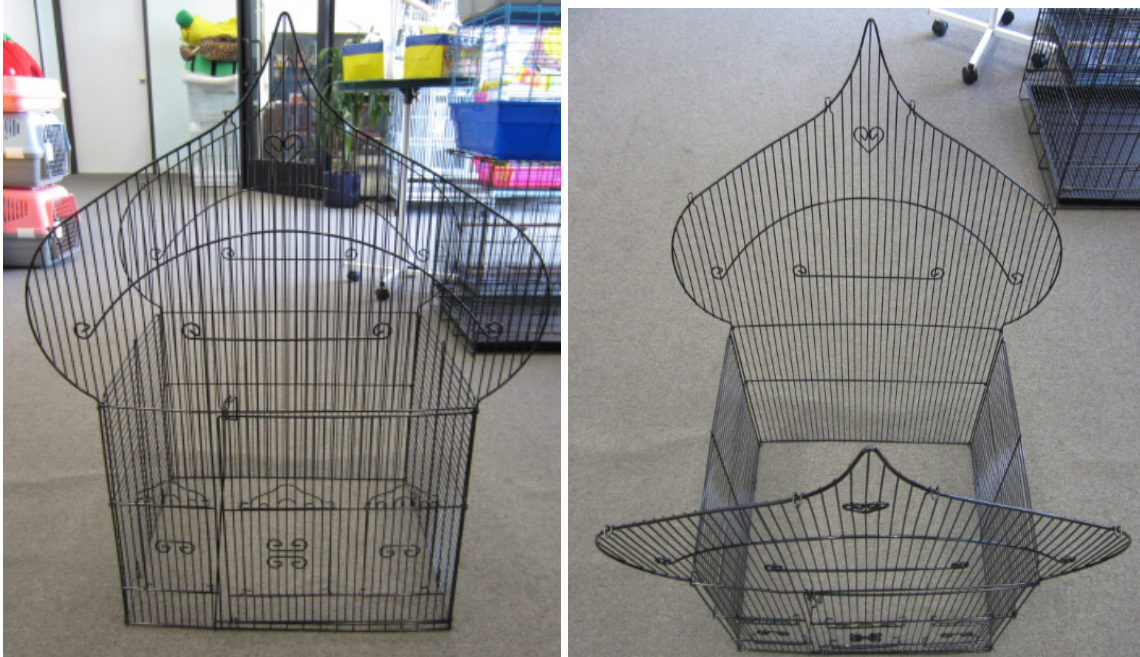

Step 2 – Attach the bottom grill to tray

Simply place the grill within the tray like so:

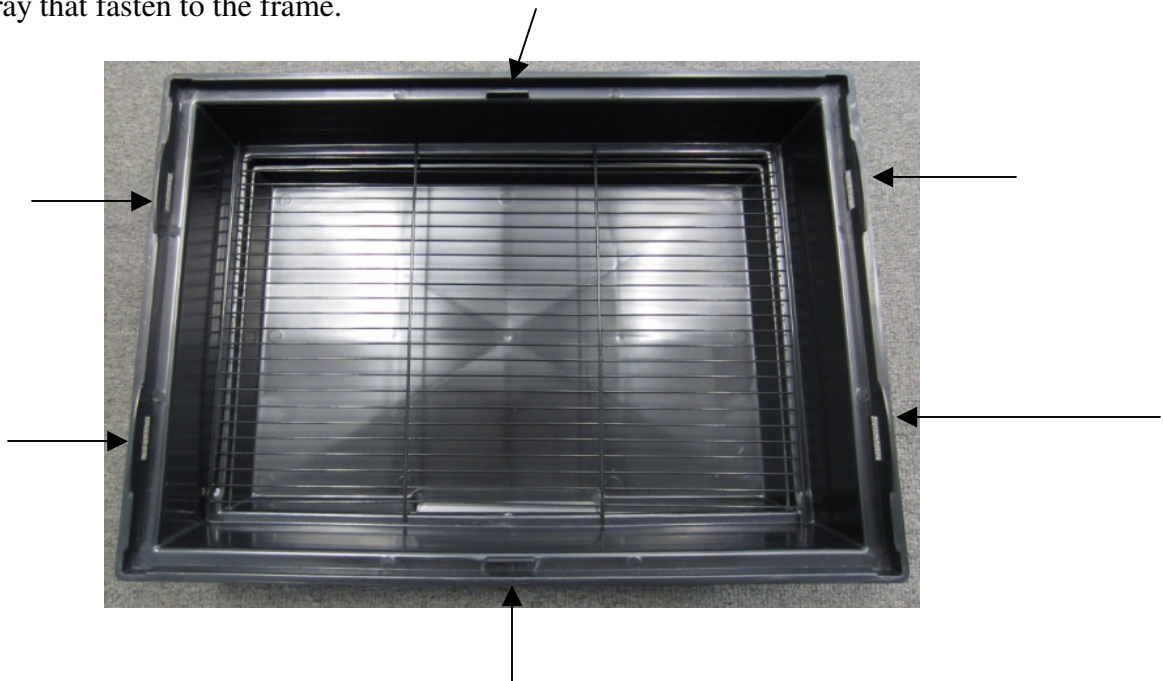

Step 3 – Attach frame to tray

The frame is packaged flat. Please proceed to open the frame to its appropriate square shape as seen below:

Next, prepare to attach the frame to the tray, make sure to locate the grooves and slots of the tray that fasten to the frame.

Proceed to attach the frame appropriately within the portions marked by the arrows:

The cage so far should look like this:

Step 4 – Attach Accessories

With the two perches, proceed to attach them within the cage to your desired locations. The two ends of each perch is used for attachment to the cage bars.

Now, proceed to attach the feeding cups. The cups attach through the sliding door on the bottom portion of the cage:

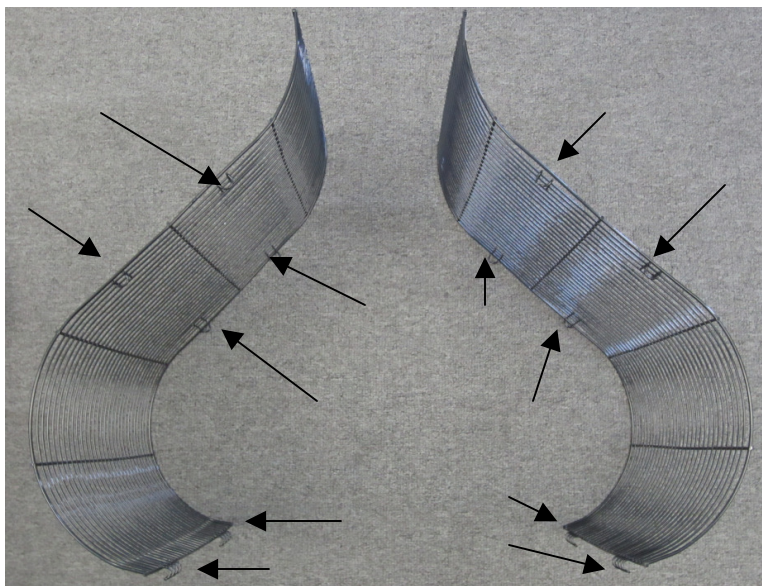

Done correctly, your cage should hold the cups like so:

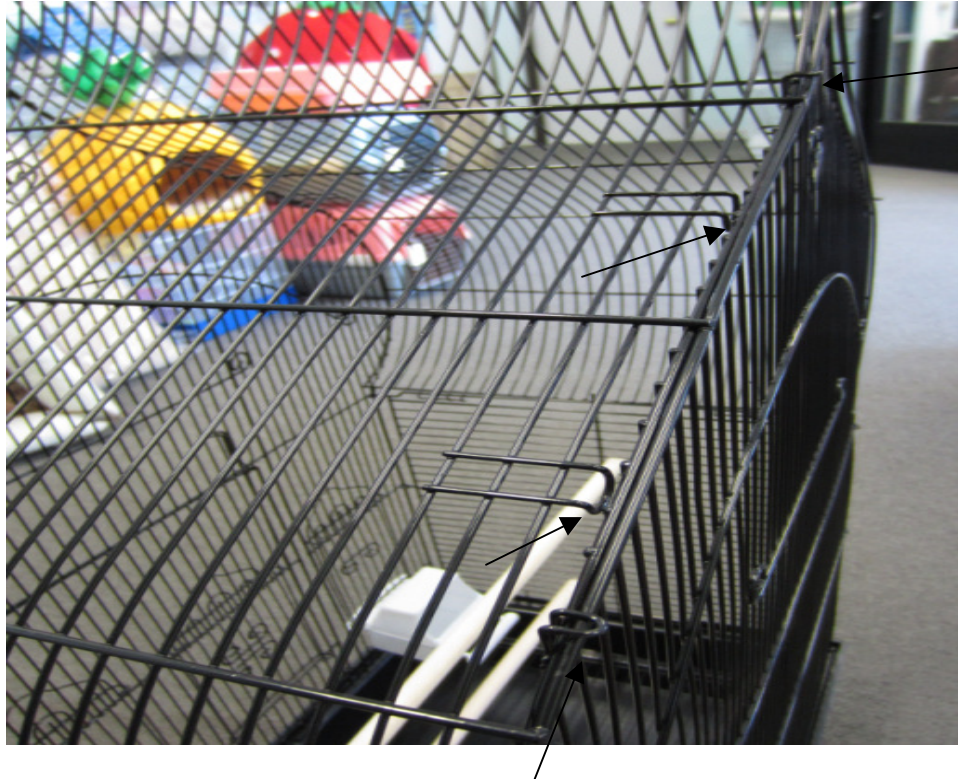

Step 5 – Attach the roof/top

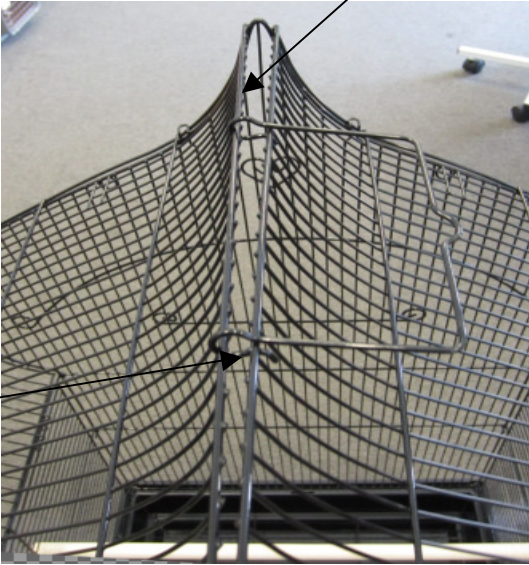

First, notice the small hooks on the top portion of the, cage hooked ends will be used to fasten the top to the bottom of the cage:

Now, simply place the roof of the cage and push it in the appropriate hooks to attach it, do this to end side until complete:

Step 6 – Attach the handle

Now, the cage should be completed and look like this:

Congratulations, you have successfully assembled your cage! For any questions or concern please contact us
