USING SPECIFICATION

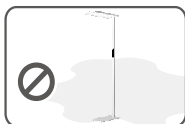

WARNING

Because this lamp's size and weight are significantly larger than those of a typical lamp, it is essential to ensure safety when using it. It should be placed near a wall, desk, or other sturdy object, with the base placed under the desk or secured with a heavy object to prevent it from being knocked over and causing injury or property damage. This lamp can not be used on a surface with an angle greater than 6 degrees! The light source within this lamp should be replaced by the manufacturer, its service agent, or someone with similar qualifications! If any abnormalities occur, please quickly turn off the power and contact the manufacturer immediately. If the product malfunctions, please have a professional inspect and repair it. To prevent the risk of electric shock, this lamp uses a three-pronged power cord, and the user should confirm that the power outlet is properly grounded.

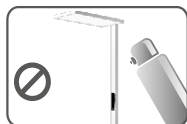

INSTALLATION ATTENTIONS

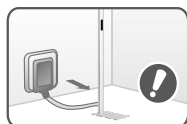

This lamp is using indoor only

Don't use in a humid environment

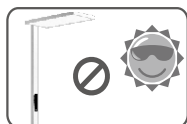

Don't scrub with acidic or alkaline cleaners

Remove the power adapter if it is not used for a long time

Don't disassemble and repair yourself

Don't place lamps in direct sunlight or near heat sources

Keep away from flammable objects

Don't touch the plug with wet hands

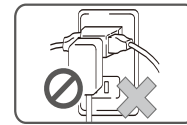

Don't store in a soft or flammable place

Cause fire, electric shock

When an exception occurs during use (such as smoke or odor), unplug the plug immediately

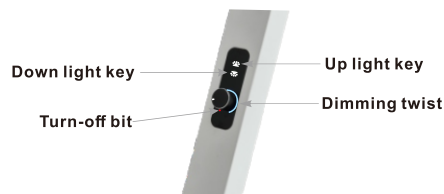

Don't use the multi-function adapter socket

The output wire can't be knotted in the process of use, bundled into a ball, etc., must let the wire naturally stretch out, and don't use the multi-function adapter socket
