

# User Manual

Guest bed with Memory Foam Mattress

Please read this user manual carefully and follow it step by step.

# Fittings

Short Screw x 4

Long Screw x 4

Retainer x 2

Strap With Buckle x 1

Wheel x 4

## PRIOR TO ASSEMBLY

Remove the mattress from the center of the bed frame and allow it to fully expand for 48 hours, reaching its original size and shape. Align the two separate top and bottom sections of this mattress, then zip up the zipper along the edge to assemble and secure the two pieces together.

## STEPS TO ASSEMBLE

1. Place the bed frame down, attach the wheels to the bottom, and then raise it upright. Securely lock the wheels to facilitate easy assembly.

2. Unfold both sides of the bed frame upwards, ensuring it remains vertical, and proceed to install the 4 short screws.

Short Screw x4

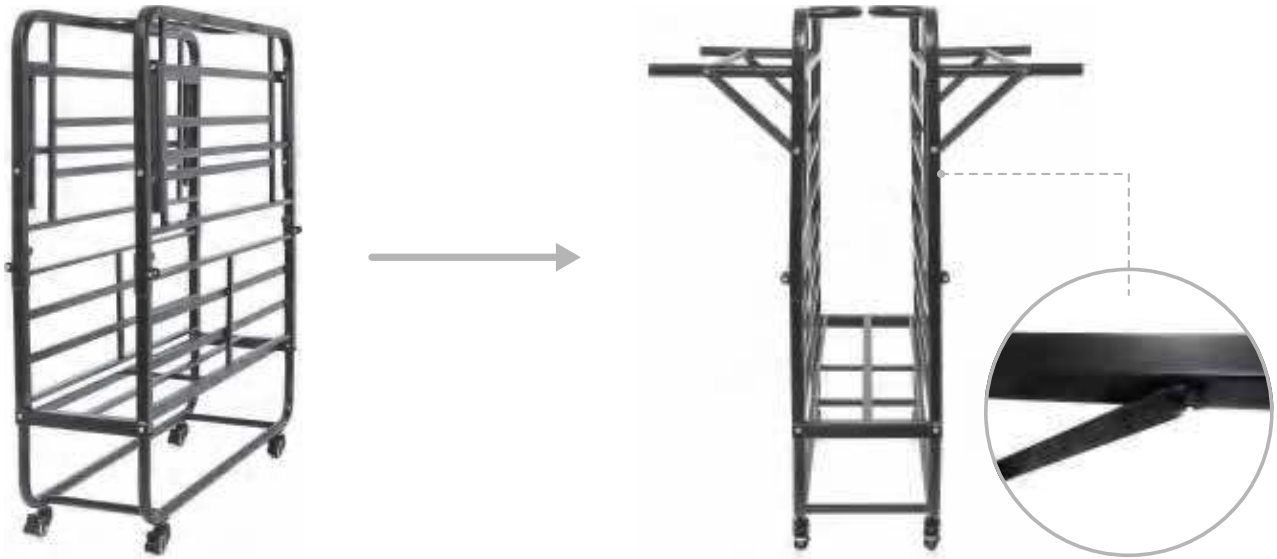

3. Install the retainers on the top of the bed frame with 4 long screws.

NOTE: Two of the retainers should be positioned opposite each other, pointing towards the middle.

Long Screw x4

4. Extend the bed legs and attach the hooks to the side of the bed frame.

5. Lower both sides of the bed frame.

6. Securely fasten the strap with buckle on the end of the bed frame beneath the retainer.

7. To move the bed, lift the wheel holder; otherwise, press firmly to lock.

Unlocked

Locked

## STORAGE

1. Lift both the left and right side frames and close them using the buckle to maximize space-saving.

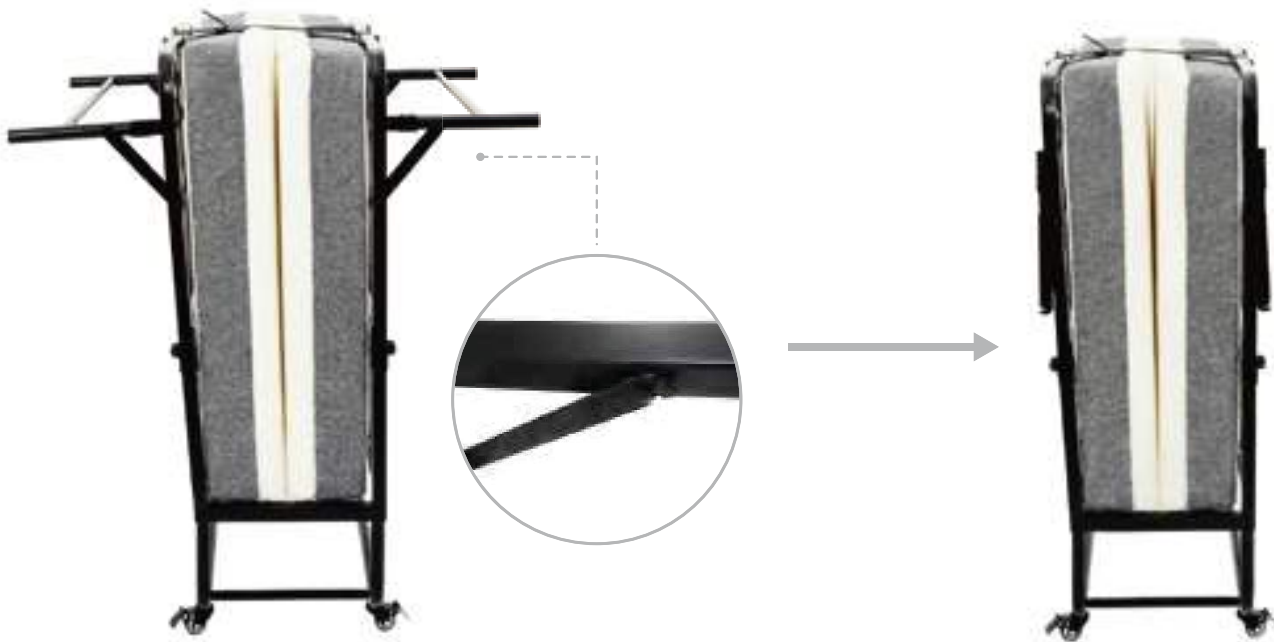

2. Securely fasten with the adjustable buckle.

NOTE: It is advisable not to disassemble the buckle.

3. Detach the hook, fold it, and then fold the legs of the bed frame.

## **Warranty:**

### **30-Day Money-Back Guarantee**

We provide a 30-day satisfaction guarantee. If you are unhappy with your purchase for quality-related reason, please contact us promptly for a full refund.

Please note that for non-quality-related issues, you will be responsible for covering the return shipping expenses.
