

THEODORE ALEXANDER

I See Home 1

D2524S50473-4066

I See Home 1 is an accomplished abstract work on canvas that calls to mind the work of the influential American Abstract Expressionist Robert Rauschenberg. The focus of this composition is on the elements of texture, shape, and emphasis. The viewer's eye is immediately drawn to objects situated at the center of the work, thus providing it with an emphasis point. Half-ovoid shapes appear along the edges of the picture plane while a faint geometric grid appears in the background. Texture is rendered by applying hand-drawn marks throughout the work. An all-over wash of dusky peach with a pop of mustard yellow, burgundy, and moss green complements the artistic elements found in this work.

Using abstract geometric forms and delicate texturing to create an appearance of a three-dimensional space, I See Home 1 is a captivating work of art on canvas. Part of the carefully curated ART by TA Collection.
