

INSTRUCTION GUIDE

Preparation of the surface

Prepare the surface before applying sticker. Durability and the finishing quality are highly depending on the quality of surface, therefore we will prefer to prepare the surface as clean and even as possible.

Stick it on!

1. Measure the size that needed to be covered on furniture
2. Trim the sticker with back paper
3. Peel off the sticker from back paper and spray water on the glue side of sticker
4. Apply the sticker on the surface with a plastic scraper or squeegee
5. Pierce the bobble on the surface with sharp cutter/pin
6. Remove the air pocket with plastic scraper
