

## Faucet Installation

1. Remove the faucet cover, place the seat cushion at the bottom of the faucet, then place the faucet into the faucet hole.

2. Place a small washer under the bottom and then tighten the tap with a nut.

3. Connect the water inlet pipe, you can use a spanner to tighten the water inlet pipe.

4. Connect the other end of the water pipe to the tap, the single tap installation is complete.
