Parts

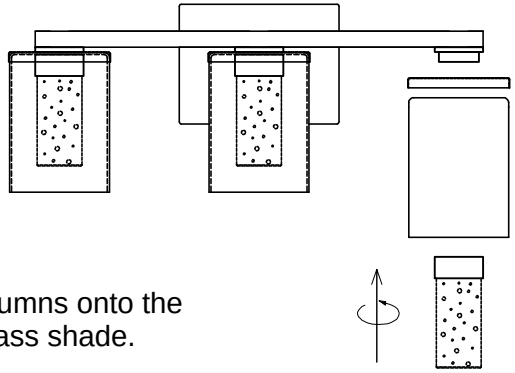

All parts

Steps 1

Install glass

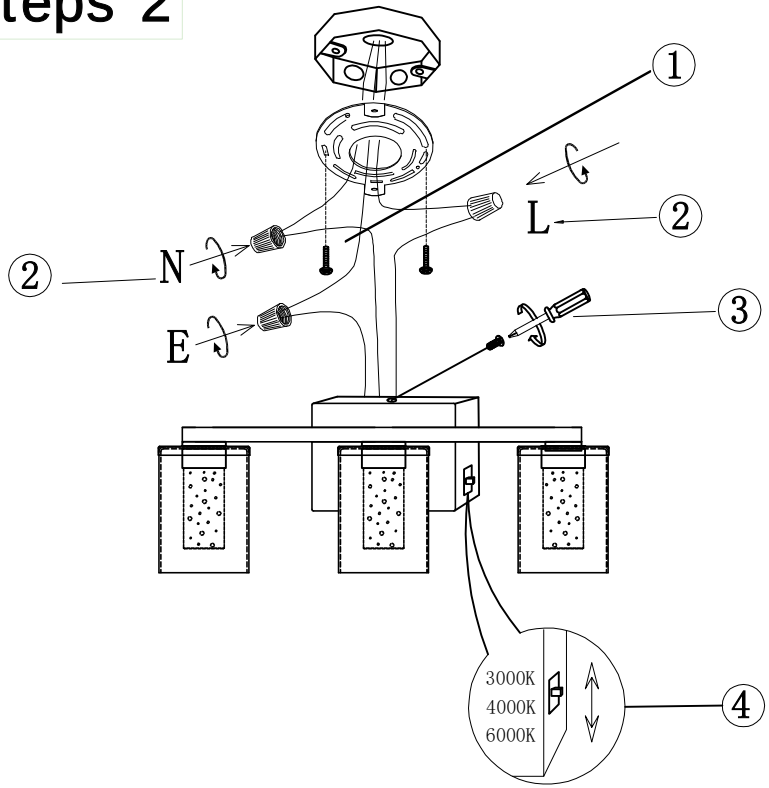

1.Mount the crystal columns onto the light base inside the glass shade.

CAUTION:
1. Check Parts & Keep Packaging. Verify all parts against the package list before assembly. Do not discard the packaging until installation is complete to avoid losing small parts.
2. Unpack Glass Components Carefully. Handle all glass parts with care when opening the box and removing the fixture.
3. Install Glass Shade Without Force. Avoid excessive force and do not use hard tools during glass installation. Use soft materials to protect it.

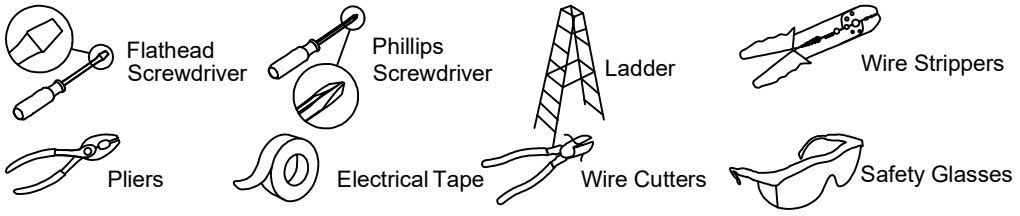

Steps 2

Install lighting fixtures

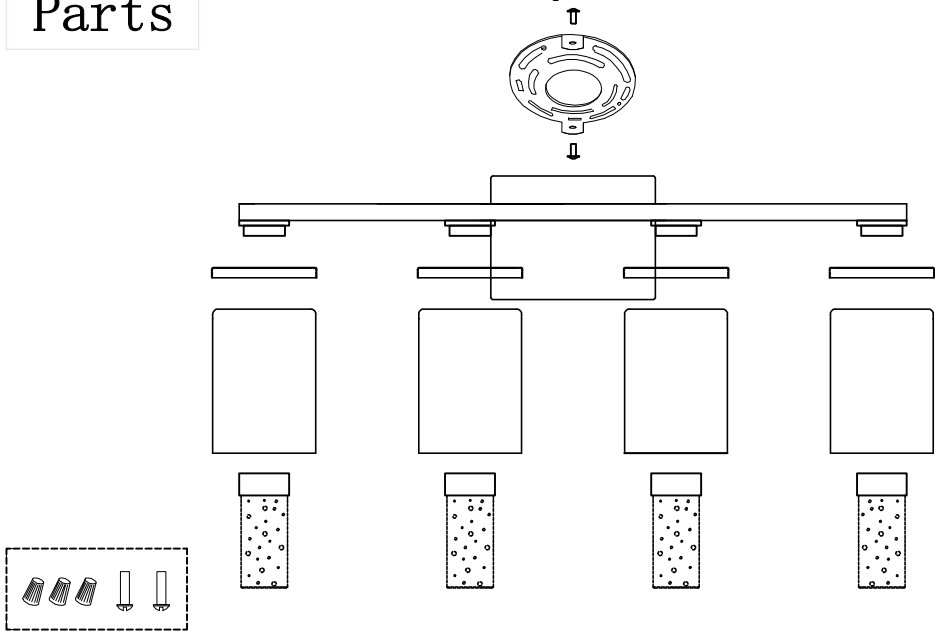

2.Secure the mounting bracket to the wall outlet box using the screws.
3.Connect the wires from the wall junction box to the lamp wires using the wire nuts, matching the colors.(U.S. standard: black for Live/L, white for Neutral/N,and bare copper or green for Ground/E).
4.Secure the light to the mounting bracket with screws.
5.Turn the switch up and down to adjust the color temperature of the light according to your preference.
