LED Semi Flush Mount

START FROM HERE

• Make sure **POWER** is **COMPLETELY OFF** at the fuse box
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area
• Wear gloves at all time during this installation
• Read instructions carefully before you start assembly
• Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
• This Kuzco LED fixtures come with pre-wired LED module(s)
• Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
• Use ELV (Electronic Low Voltage) or TRIAC type of dimmer for dimming application

1. Remove fixture from its original package

2. Mark location and drill hole with 2" hole saw **(see Illustration 1)**

3. Pull mains supply wires through hole

4. Remove driver box cover **(5a)** by loosening screws **(5b)**

5. Make proper electrical connections (black to hot "L", white to neutral "N", ground to "GND") with wire nuts **(1b)** provided in hardware package, and then close driver box cover **(5a)**

6. After insert driver box **(5c)** into ceiling, fold springs **(2k)** on trim **(2a)** all the way back, and then insert into ceiling
