

Installation & Assembly

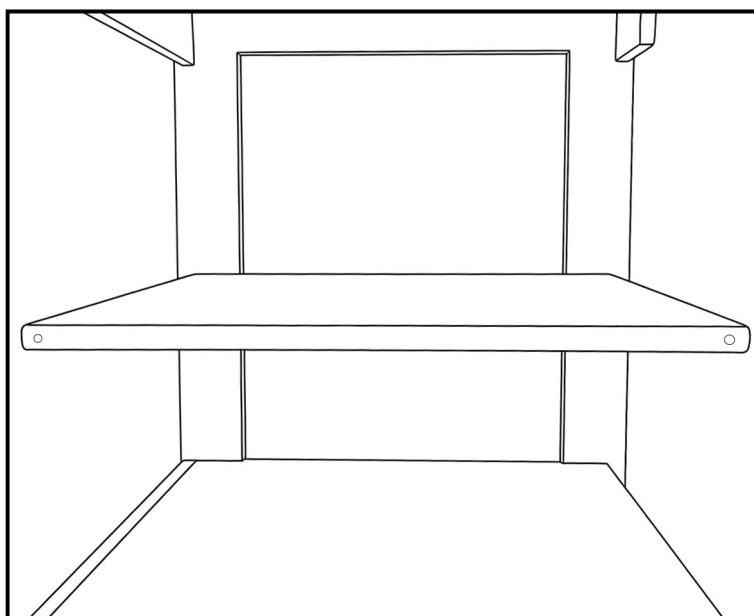

Step 1: Install Side Panels

- (1) Locate the side panel with rattan weave texture.
- (2) Align the screw holes of the panels to be installed with the holes on the side panel according to the diagram.

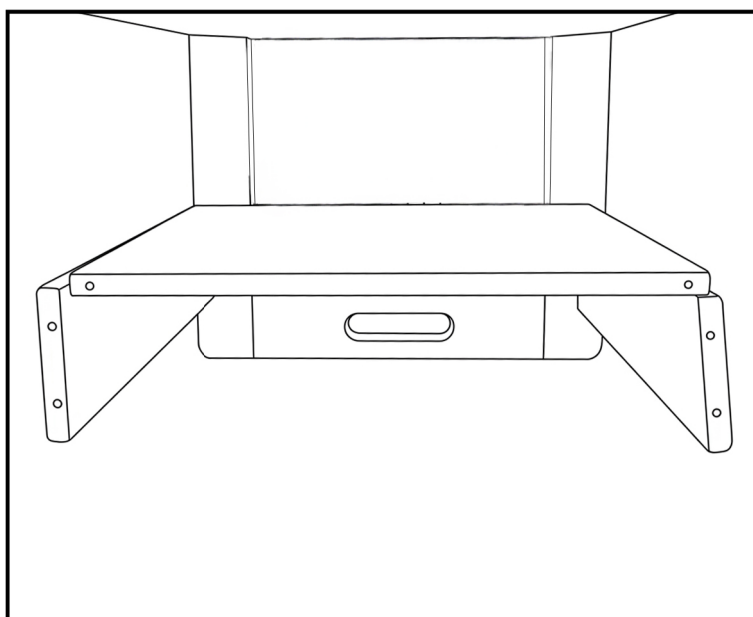

2

The first layer

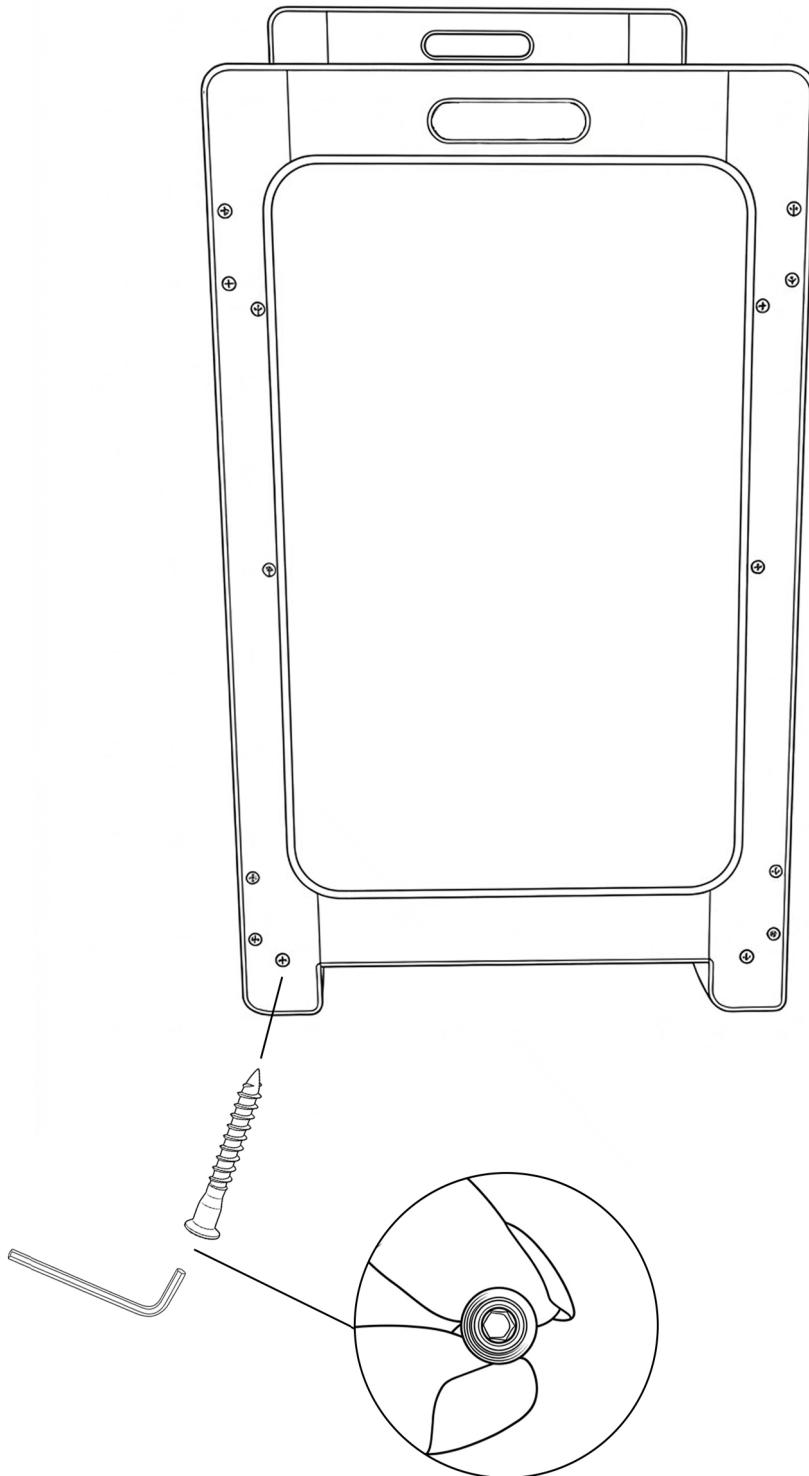

The Second layer

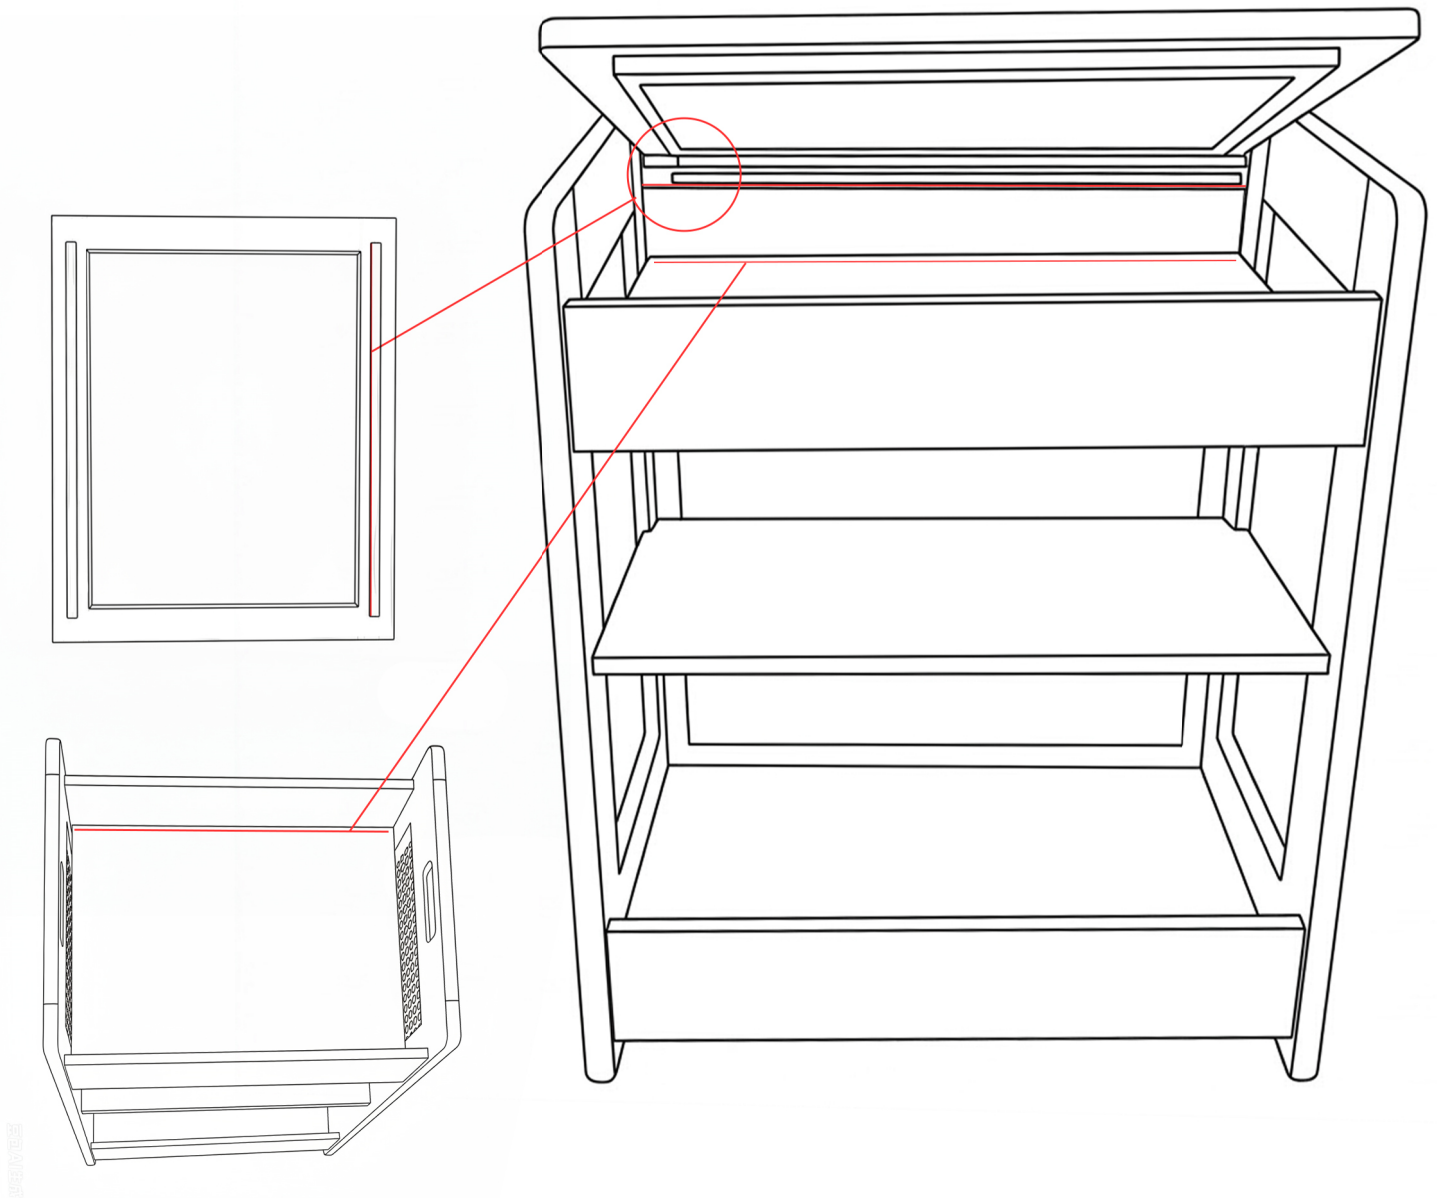

The Third layer

3

- (3) Insert the screws one by one and loosely tighten them to temporarily secure the panel.**
- (4) After all panels are installed, firmly and evenly tighten all screws.**

Step 2: Install the Top Panel

- (1) Locate the rattan weave top panel.
- (2) Align the bottom crossbars of the top panel with the first layer crossbars that have already been installed.
- (3) Once aligned, place the top panel down and press firmly to ensure a secure fit.
