Assembly Notes

- It is recommended that you categorize the accessories before installation to quickly find the required accessories during installation.
- When installing the frame, make sure that the end stoppers of the drawer slots of the three metal frames are in the same direction.

Matters Needing Attention

- Please make sure the weight of the objects you put in the drawers follows the allowed weight standards.
  Max static load capacity of the tabletop: 65lb
  Max static load capacity of each drawer: 7lb
- Washing the entire dresser can be detrimental to its construction. Please clean it gently with a wet cloth instead.
- A smell of wood is present on all new products. Please keep the dresser in a well-ventilated room soon after construction so that the odor can leave.
- Secure the dresser to the wall with our provided anti-tip kit to enable stability and protec-tion for your loved ones.
