Please use hollow wall anchors (not included) for installation on hollow brick wall.

Please make sure the stud locations by stud finder first.It's recommended to drill holes in stud center.

Step 1

Attach the level to the mounting bracket to make sure of the proper position. Use a pencil to mark holes for drilling. (Recommended the longer mantel, the more screws to be installed).

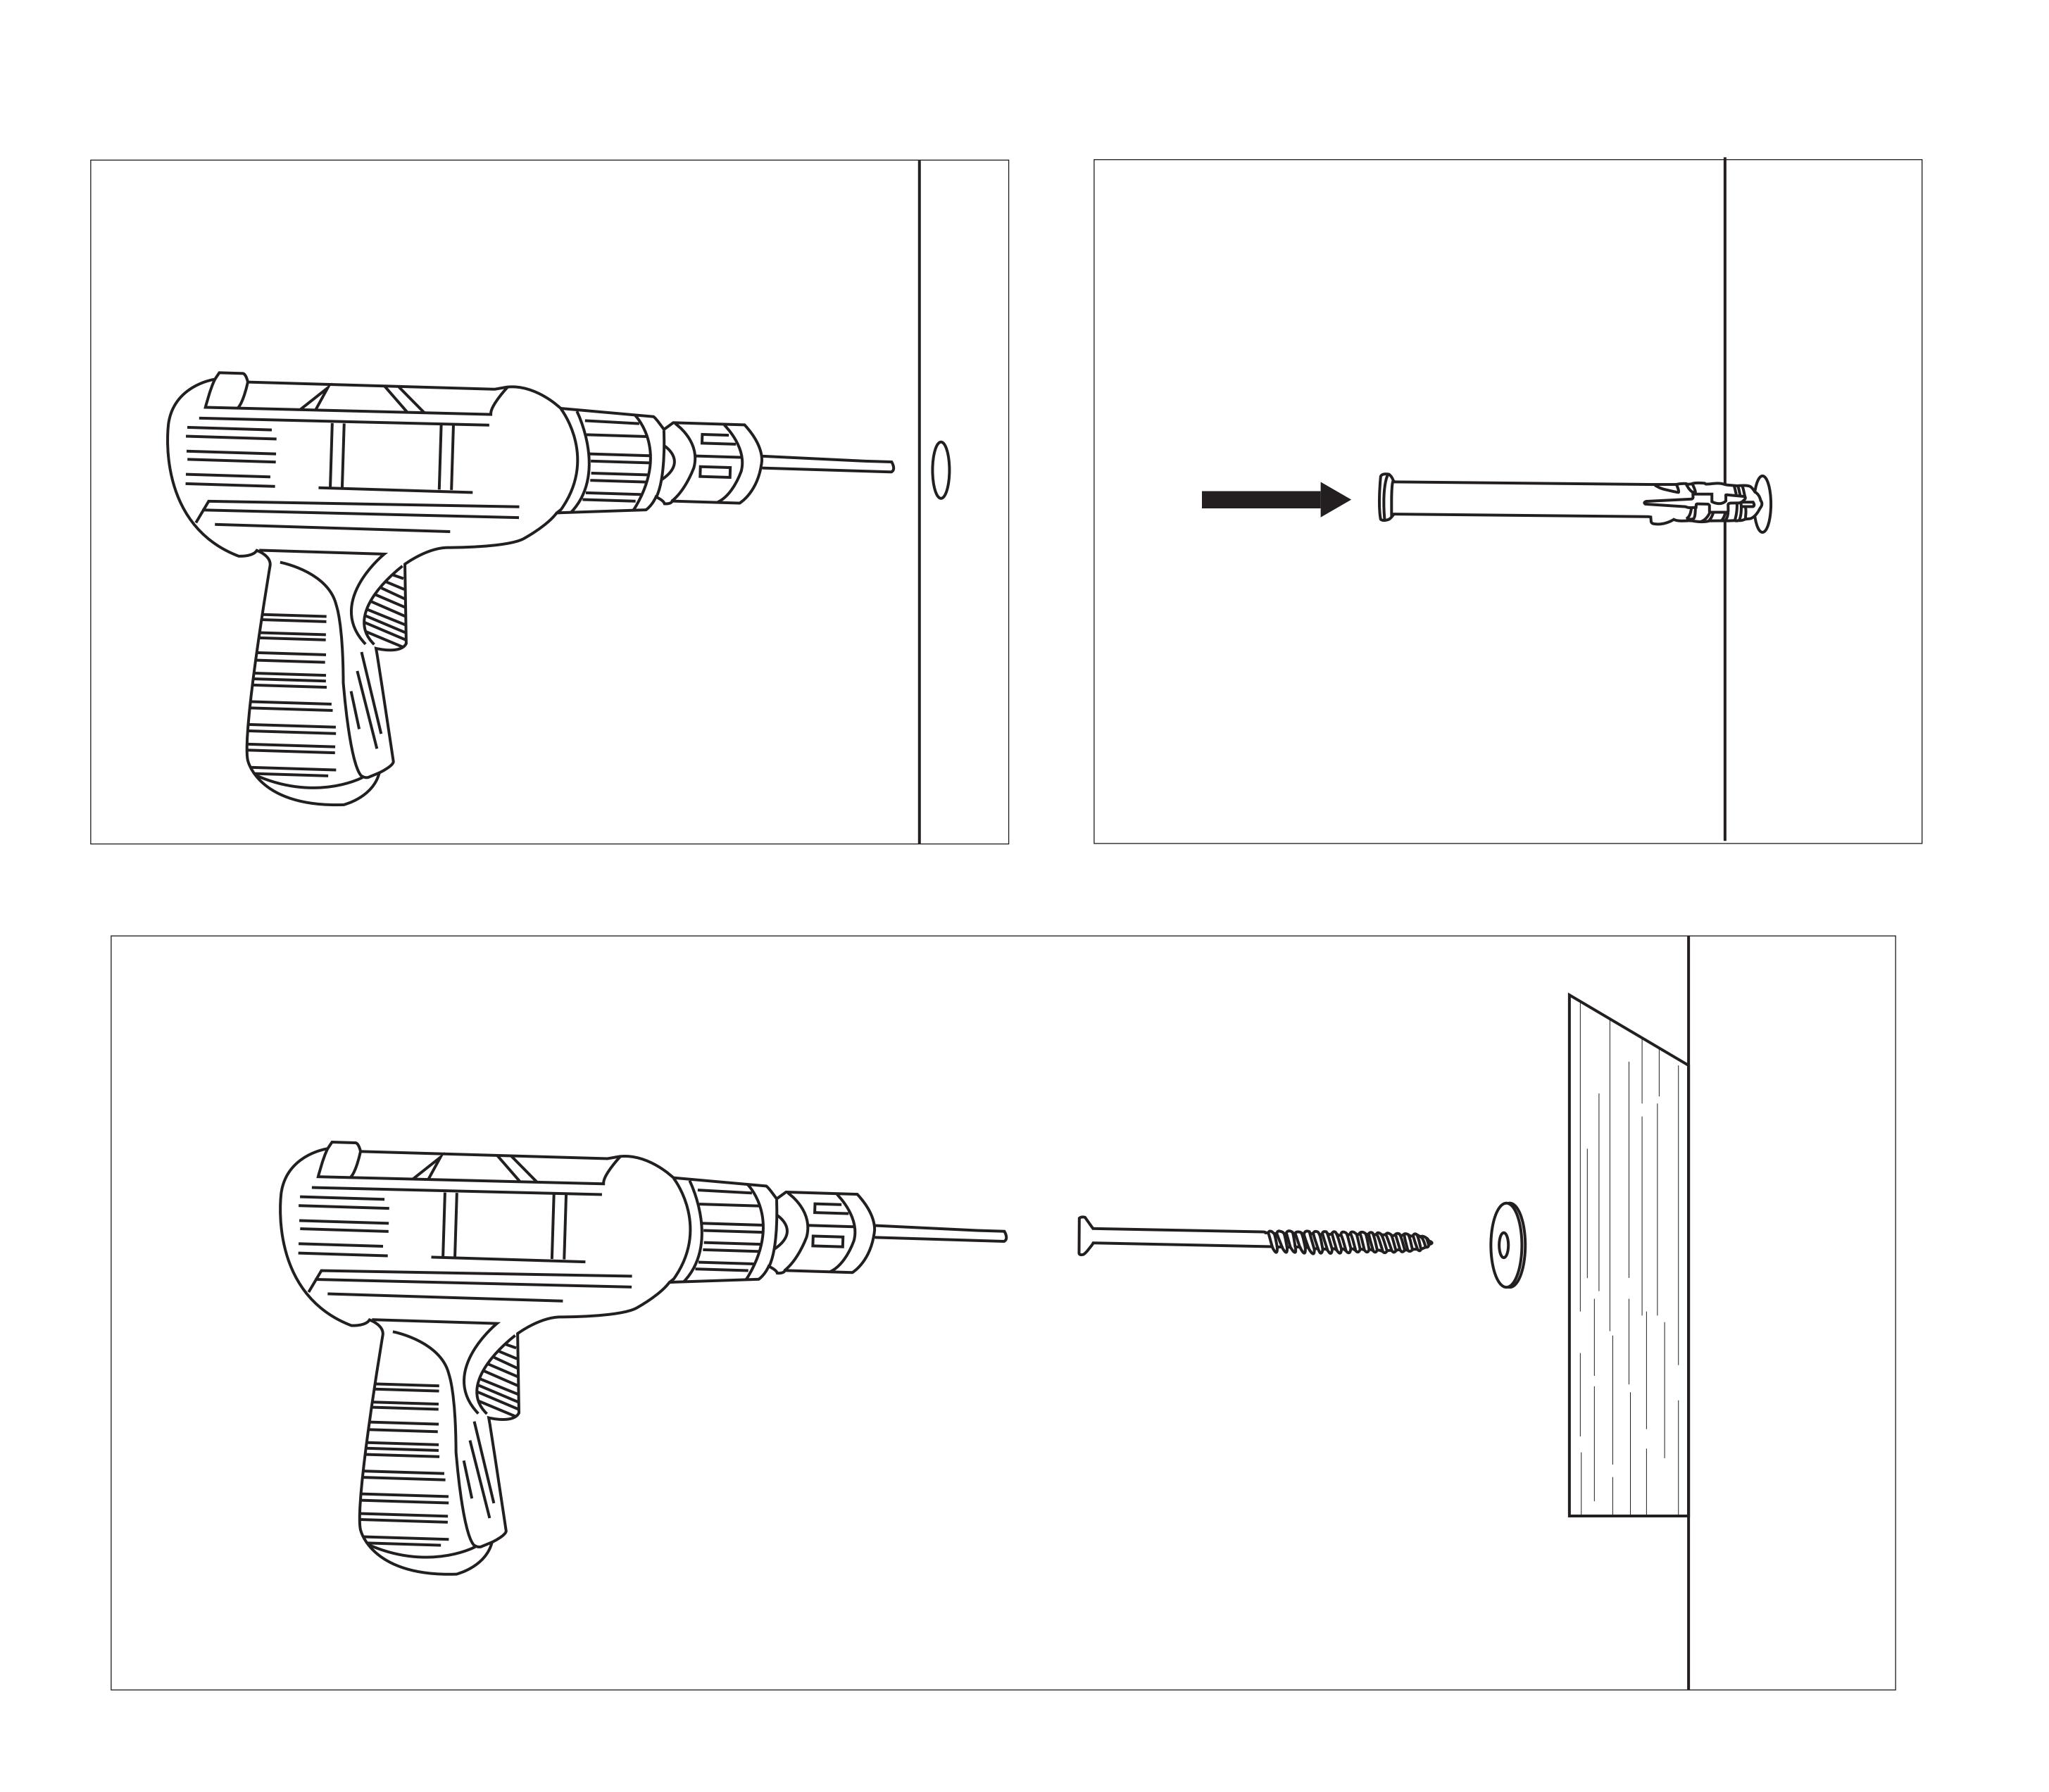

Step 2

Drill holes according to the marks. Fix the mounting bracket to the wall with wall anchor kit. (part D & part E & part G)

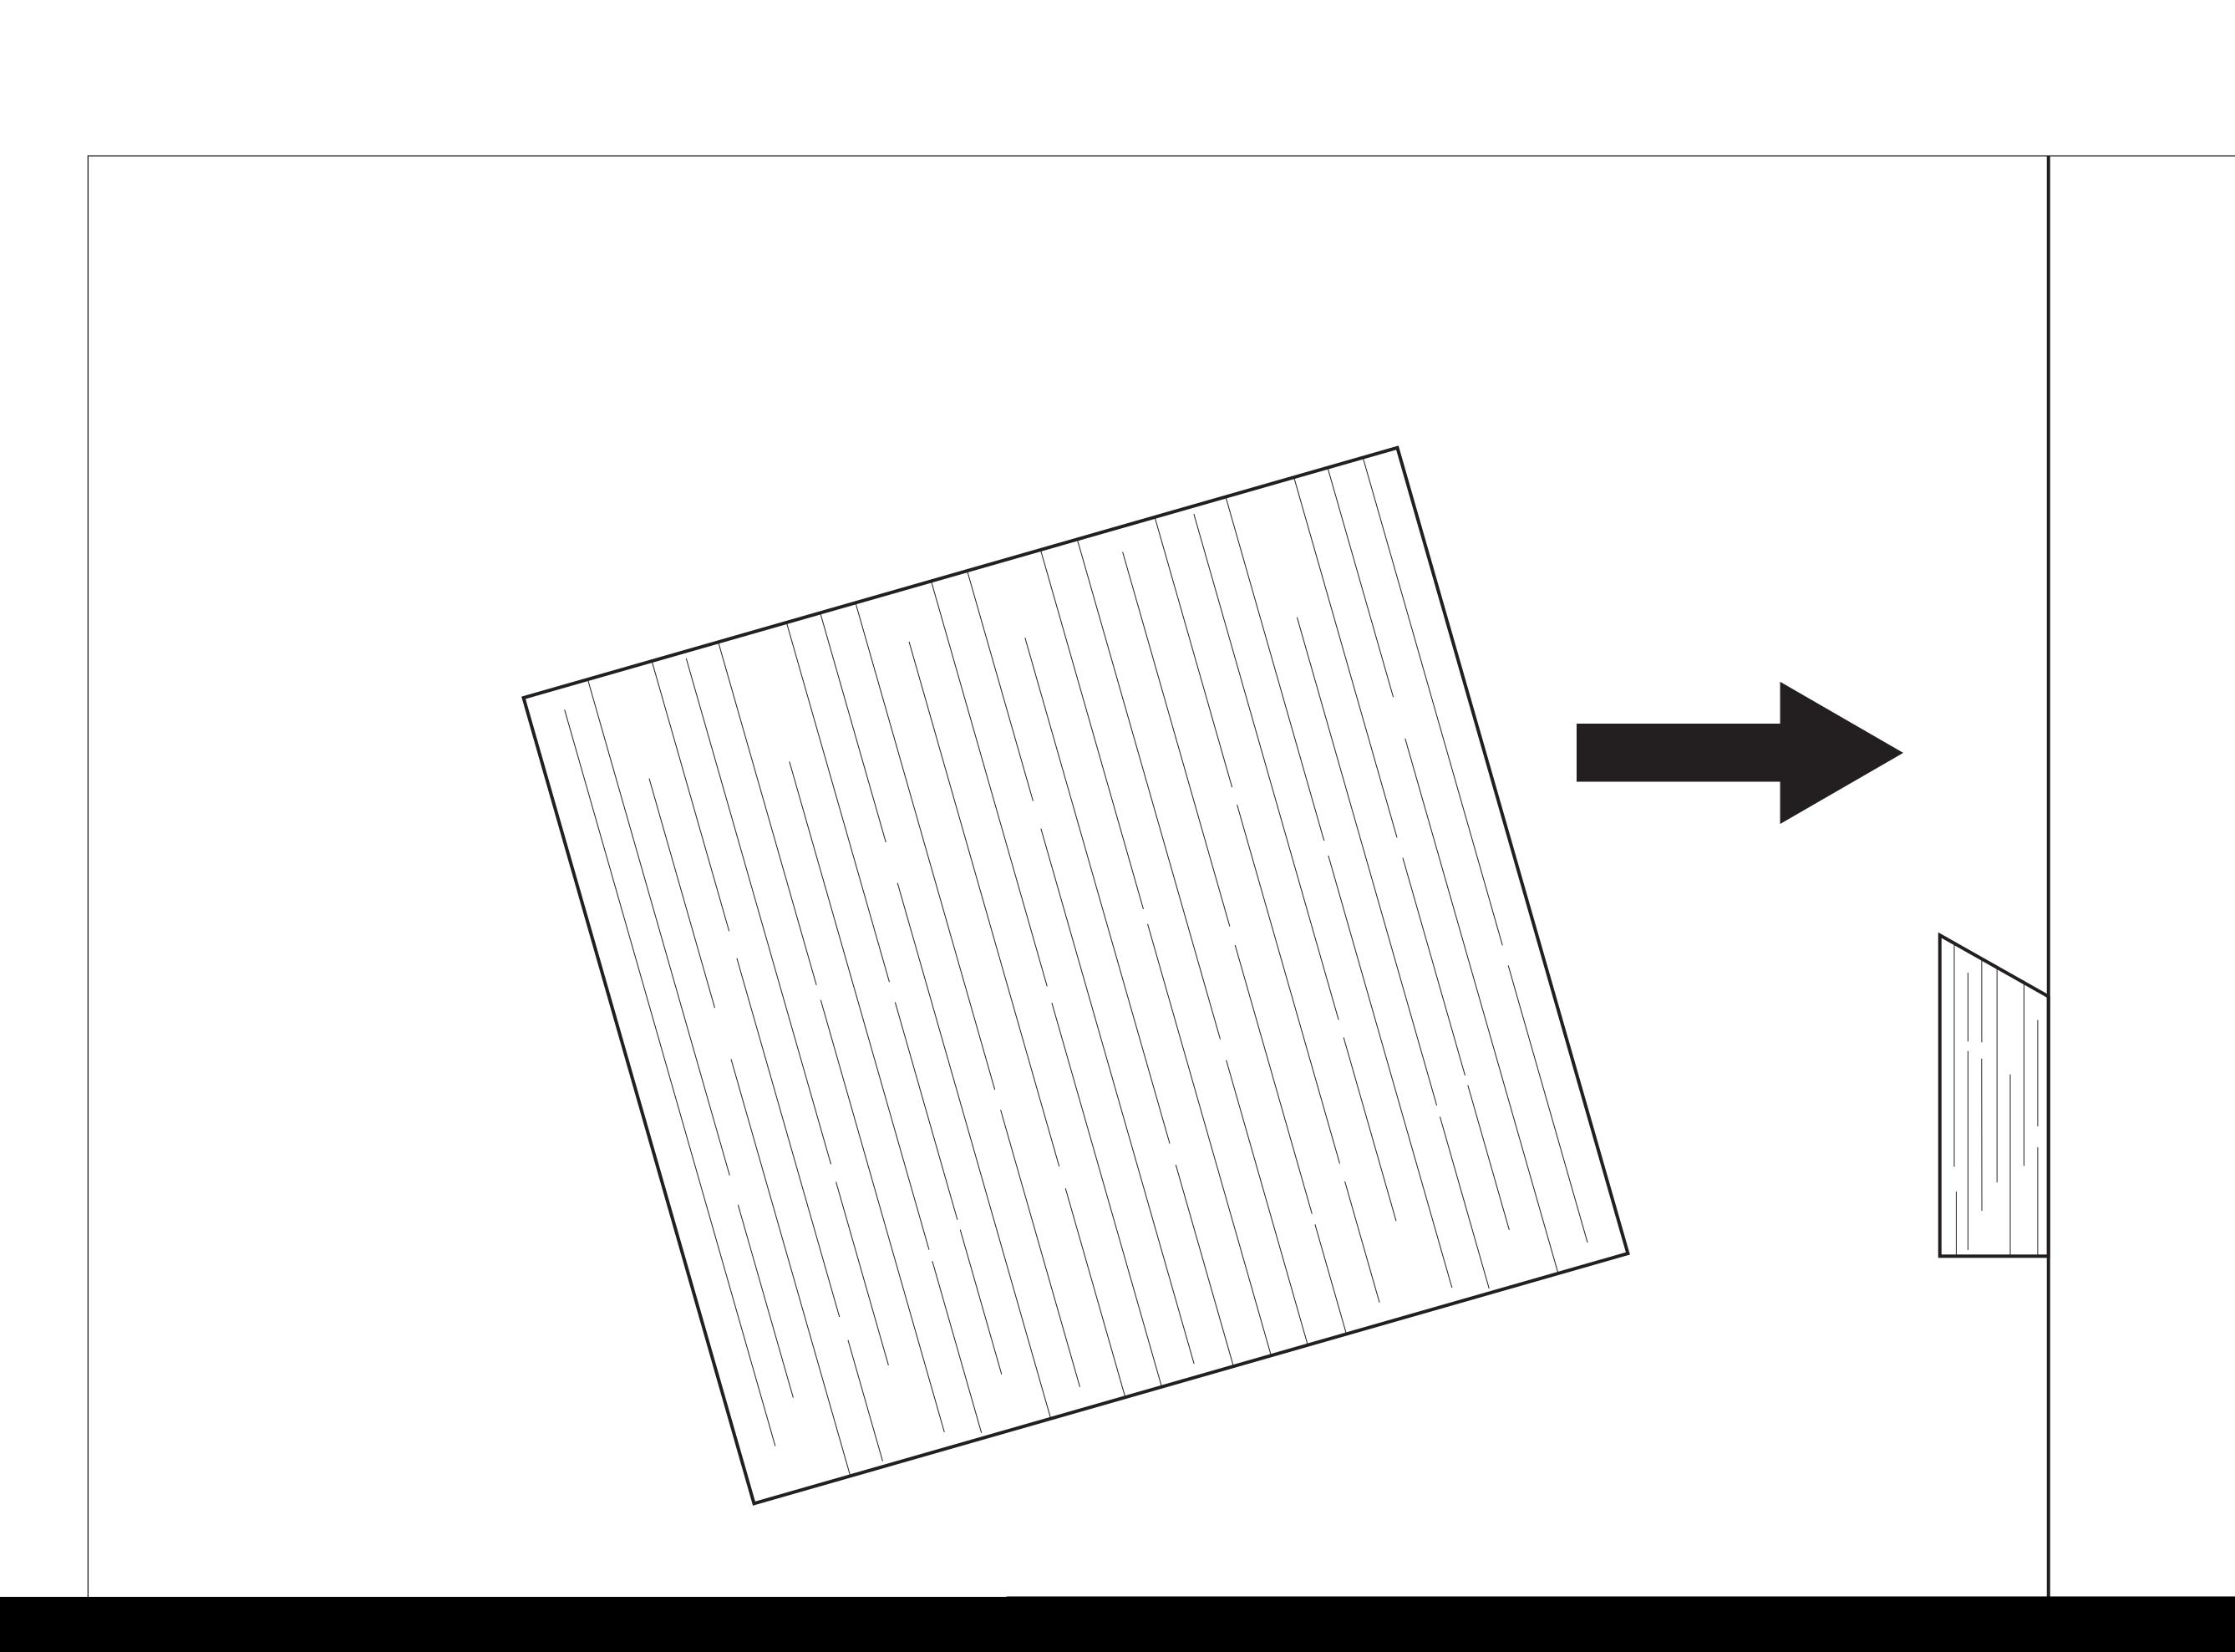

Drill bit diameter: 5/16-in

Pre-drilled hole dimensions: 5/16-in * 3 in

Step 3

Place the shelf on the mounting bracket at an angle for easy installation. Fix the mantel to the bracket with screws from below.

Bring ideal decor and storage to your space!
