Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Place the Chair Seat(A) on a clean, non-marring surface with the bottom facing you, as shown in the picture above.
Carefully unzip the Dust Cover at the bottom, and remove the Legs.
Zip up the Dust Cover.

Step 2

Install the Wooden Leg(B) into the Chair Seat(A) by putting a Gasket(①) on the threaded stem of the Leg.

Then insert the threaded stem of the Wooden Leg(B) into the Top Corner mounting positions of the bottom of the Chair Seat(A).

Affix the Leg by turning it clockwise by hand until secure.

Repeat this process with the remaining three Wooden Legs.

Note: The use of the Gaskets are OPTIONAL and are especially useful to help alleviate slight wobbles. Some Legs may need more than one whilst some Legs may not need any.

Step 3

Position the Chair right side up and test for stability.

Add or remove Gaskets(①) where needed to achieve stability.

Step 4

Front Profile
