

Specifications

Material: PP
Process: Injection Molding
Color: White
Style: Modern
Mount Type: Freestanding, Floor Mount
Assembly Required: Yes
Plug Type: US Standard
Power Supply: Corded Electric
Number of Tiers: 7
Number of Planting Locations: 35
Adapter Input Voltage: 110-240V
Pump DC Voltage: 5-12V
Pump Max. Head: 0.4-1.5m/1.31-4.92ft
Pump Power: 1-3W
Protection Level: IPX8
Max. Permitted Fluid Temperature: 35°C/95°F
Pump Max. Flow Rate: 200L/52.83gal/H
Water Tank Capacity: 10L/2.64gal
Overall Product Size: 25*25*100cm/9.8*9.8*39.4in
Outer Frame Size: 39*39*98cm/15.4*15.4*38.6in
Each Tier Height: 13cm/5.1in
Middle Cylinder Diameter: 11cm/4.3in
Funnel Diameter: 6.2cm/2.4in
Each Planting Pod Width: 3.5cm/1.4in
Package Size: 73*31*27cm/28.74*12.2*10.63in
Gross Weight: 5.4kg/11.9lbs
Net Weight: 5.13kg/11.31lbs

Package Included

1* Hydroponic Growing Tower
1* Power Adapter
2* English Manuals
1* Water Level Gauge
1* Funnel
Other Accessories for Assembly

Notes

1. Please read the operating manual completely before use. And pay particular attention to the safety instructions included.
2. Please note that seeds and nutrient solutions are not included.
3. Please do not turn on the pump until it is in water.
4. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
