IMPORTANT

Please check contents before attempting to construct growhouse.

ARRANGE PARTS INTO GROUPS AS LISTED IN YOUR PACK CONTENTS UNFOLD COVER AND PUT TO ONE SIDE

**STEP
1**

4xD 8xE 8x8 4xZ 6x4 2x1 12x3

Assemble the base with the above parts.

Once base is assembled build upwards using the parts listed in step 2.

**STEP
2**

8xE 4xB 6x4 4xZ 12x3 8x8

This forms the next level.

Once completed build the next level with parts listed in Step 3.

**STEP
3**

2xB 2xD 8xE 8x8 6x4 8x3 4xZ

This forms the next level.

Once completed build the next level with parts listed in Step 4.

**STEP
4**

4xA 2xC 1x1 2x4 4x8 6x5 2xE

This forms the next level.

Once completed build the next level with parts listed in Step 5.

**STEP
5**

2xJ 1xH 1xY 2x8

This forms the next level.

Once completed, place the cover (Y) over the frame and attach.

**STEP
6**

Once assembly is complete you will need to tighten the frame by pushing down on two rods at a time, forcing them closer together. (Repeat from all angles, as shown in the picture below.) This will result in a tighter and smaller frame, enabling the greenhouse cover to slide easily over the frame.

Anchor kit Assembly Instructions

NOTE: Please make sure to unzip the door cover prior to sliding over frame, failure to do so may cause damage to the cover.

Step 1

Hammer the anchors into the soil, placing them on all four sides of the greenhouse.

Step 2

Connect the top end of the rope into the strap on the top of the greenhouse for all 4 sides as image shown.

Step 3

Take the other end of the rope and pass it through the bended side of anchor as shown in figure. Repeat the step for all 4 sides.
