In Front of Me1

D2209S44165-3558

In Front of Me draws on a classical figure-drawing technique that features a seated nude female figure from a back view. Values are rendered in various shades of chestnut and fawn with the figure centered on a taupe background. The Belgique-Antwerpen deckle frame fittingly complements the work on textured paper. Further, the title offers a sly question: Is the viewer seeing what is in front of them or does the view belong to what the woman sees in front of her?

Neutral tones combine into a graceful form in this classical figure-drawing. Part of the carefully curated ART by TA Collection, In Front of Me is a unique and exclusive work of art.
