

TV Stand

assembly guide

introduction

Before starting, please check all components and accessories according to the provided list. If you purchased more than one product, to prevent confusion, be sure that you completed the first product, then start the next one. Please make sure that you select correct numbered part and use specific connector to assemble. We do not recommend any modification or rotation in assembly. Please follow the manual carefully.

Furniture parts are going to several manufacturing procedures. During this process, parts can have little dust or marks. Please clean the parts with damp cloth before assembly to get the best result. Usual cleaning would be suffice.

Valued Customer,

We design and carefully manufacture our products for our customers, We wish that our customers to have fun while they are doing their new furniture

The product you just purchased was subjected to all sorts of tests and controls before sending out to you.

Hope you enjoy your new furniture!!!

Do not use your furniture for out of purposes. If you would like to use it out of purpose or would like to do some modification or rotation, please contact us for more details.

Please do not expose your furniture with excessive heat, cold and humidity because product can be affected negatively.

Although all products are carefully manufactured and packed, sometimes we experience damage during transportation. In such cases, please check the damaged part, note the part number written on the part and do not hesitate to contact us

getting familiar with the main components

*Minifix is the main connection component used in our products. Before starting, please check the below figures

MINIFIX HEAD

MINIFIX SCREW

DOWEL

*Please notice that there is an small arrow on A02 (minifix head). This arrow should show the direction of upper hole.

*A02(minifix head) and A03(minifix screw) help us to attach two wood pieces each other.

*After attaching two pieces please turn the A02 (minifix head) clockwise direction just a half tour with the help of a screwdriver.

*Please do not over screw the A02 (minifix head) since it may be broken if too much power is imposed. Just make sure that it is screwed to the direction “+” do not go any further.
