PIDESTALL FLOWERPOT

DESIGNED BY EMILIE STAHL CARLSEN

ENGLISH

Pidestall is a series of simple flowerpots created for indoor use. With its minimalistic design combined with the vivid expression of the plants, Pidestall creates an elegant harmony. The designer, Emilie Stahl Carlsen, was inspired by her grandmother's old woven basket filled with green plants and wanted to develop a design to bring nature inside. The Pidestall makes it possible to create a green oasis in your home. Use it for greenery, colourful flowers or home-grown herbs. Available in three sizes.

Designed by Emilie Stahl Carlsen

A young Norwegian designer who recently graduated from Oslo and Akershus University College of Applied Sciences in Product Design. With great attention to functionality and minimalism in her design process, she creates designs with meaning, purpose and function. Her designs are characterised by simplicity and a drive to develop perfection.

DANISH

Pidestall er en serie af enkle plantekasser designet til indendørsbrug. Det minimalistiske design kombineret med planter levende udtryk skaber en elegant harmoni. Designer, Emilie Stahl Carlsen, var inspireret af sin bedstemors store fletkurv fyldt af grønne, frodige planter. Hun ville udvikle et design, der kunne bringe naturen indenfor. Pidestall gør det muligt at skabe en grøn oase i dit hjem. Brug dem til planter, farverige blomster eller hjemmevoksede urter. Fås i tre størrelser.

Designet af Emilie Stahl Carlsen
