## ⚠ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal. Do not subject glass parts to any shock while in operation or shattering may result.

## ⚠ Care of Tiffany Style Shade

A new tiffany lamp shade has an oil film applied to the shade that protects the tiffany shade from scratches during shipment. If the oil applied is too heavy you can remove the excess oil film with a paper towel. Gently wipe away the excess oil.

For general cleaning of tiffany shades use a gentle lemon oil-based furniture polish applied to a soft cloth and wipe gently.

If a white powder appears on the soldered joints of the tiffany shade this is a normal oxidation process. Use a small amount of lemon oil or mineral oil applied directly to oxidized areas and the soldered area will return to like new.

- A. Pass the Flat Washer over the nipple on the Hex Nut with Nipple and then pass the nipple through the center hole of the Shade and secure with the Finial. Hand tighten until snug. Place the Shade over the Base, attach onto the Arms.

- B. This fixture uses standard bulb with medium base . Maximum 75 watts. Insert bulb and screw snugly into place.

Your fixture is now assembled and ready to use. Enjoy!
