## Application

It is mainly used to make potato towers in homes, western restaurants, snack bars, fast food restaurants, hotels, apartments, booths, school entrances, shopping malls, streets, markets, food courts, milk tea shops, etc.

## Notes

1. Please note that this product is primarily intended for use in the preparation of potato towers and is not suitable for peeling, coring, or slicing.
2. Be careful not to put your fingers on the blades during operation to avoid scratches.
3. Please read the instructions carefully and take note of the safety matters contained therein.
4. Please allow slight color difference due to shooting light, and 1-3mm error due to manual measurement, please make sure you don't mind before ordering.
