Base rack loading system

- Unloaded adjustable upper rack
- 2 adjustable mug shelves
- Sliding cutlery basket
- Fixed lower rack tines

Color

- DW 25502 W: White
- DW 25502 B: Black
- DW 25502 SS: Stainless steel

FEATURES

14 Place settings

Blomberg dishwashers can perfectly clean dishes upto 14 place settings without leaving any piece of cutlery out.

Rapid Clean

The dishwasher increases the washing temperature and adjust the water pressure to provide up to 2 times faster cleaning performance.

Auto Tablet

Sensors detects rinse aid and automaticly sets drying cycle duration. This provides the best drying results without any concern.

Brushless DC™ motor

Variable speed circulation motor allows to use optimum necessary amount of water and energy. Due to magnetic design the motor has no persistent low frequency sound, and creates less vibration.

Digital display

The electronic display is a quick and easy way to select your programs. Additionally, models with top control panel with numerical display offer a noise level adjustable "end of cycle audible signal". Hidden control panel prevents your children from changing programs and playing with your dishwasher.

Double motion float system

All Blomberg dishwashers have a double motion float system (DMFS) that provides maximum security against water damage and a bottom tray to prevent flooding.
