ASTOR SIDE TABLE WITH STONE TOP

Hartwood Casegoods Collection

HC783-80S

W 22.25in D 22.25in H 28in

The Astor Table draws inspiration from early 18th century Spanish and Portuguese metalwork. The table's open base is connected by slender Wrought Iron posts accentuated with turning-inspired accents. Alluding to the scattering of stars, the accented metal posts create a light, column-like form. Designed as a side table, center table, or small dining table, the Astor's base has a Wrought Iron finish with a San Giorgio Limestone honed top.
