

Hanging instructions for your metal wall art.

Tools, simple steps, and reference diagrams.

HANGING INSTRUCTIONS

Please follow the steps below to hang your metal wall art.

WHAT YOU'LL NEED

You
will
need :

Screw Driver

Measuring Tape

Screws
(included in your order)

Hooks

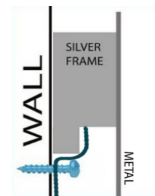

- STEP 1.** Choose the wall location. Each frame has a built-in wall bracket; the lip on top hangs over the screws.
- STEP 2.** For multi-panel art use 2 screws per panel; for a single panel use 4–6 screws depending on size.
- STEP 3.** Measure the distance between sets of screws and repeat to ensure even spacing across all panels.

WARNING / DISCLAIMER

Metal artwork has sharp edges. If hung over a bed, sofa, or seating area, leave at least 8 inches between the artwork and any furniture. We inspect every piece and use high-grade materials, but household conditions and handling may affect adhesives over time. Defective items will be replaced; use of this metal artwork is at your sole risk, and all other warranties are expressly disclaimed.
