

## High-temperature steam cleaner user manual

1. 1500W High-Pressure Hot Steam (248°F/120°C): Powerfully removes 99.9% of dirt and grease, deeply cleaning various hard surfaces (sinks, stoves, countertops, toilets, etc.) and fabrics (carpets, sofas, mattresses, car interiors).
2. 15-second rapid heating & 25-35 minutes of continuous steam: No need to wait—ready to use immediately. The large-capacity water tank supports extended cleaning sessions, saving time and enhancing efficiency.
3. Dual-mode flexible cleaning (gentle/powerful): One machine, multiple uses! Gentle mode safely cleans fabrics (toys, curtains, wallpaper, seats), while powerful mode tackles stubborn grease stains (kitchen, bathroom, grill).
4. 8-piece practical accessory set: Ready to use out of the box! Includes a soft brush, hard brush, metal wire brush, glass scraper, and more, easily tackling various cleaning challenges (crevices, windows, ironing, etc.).
5. Lightweight and easy to use & flexible operation: Compact design with an 1.8-meter steam hose and 1.5-meter power cord, easily reaching corners, and convenient for moving and storing.
