

Propane(LP) 360° Tank Top Heater

Model #: TT-360

Heater Type: **Workspace Heater** **Tank Top Heaters**

A new design in tank tops. This DuraHeat tank top heater provides 360° of heat in a small and portable design. With variable heat output (30K/35K/40K), this versatile tank top heater is a good low cost solution for extra heat in many outdoor situations. Quiet infrared heat, no electricity, and tough construction.

FEATURES:

- 360° of instant radiant, infrared heat in a small and portable design
- High efficiency stainless steel heat reflector
- Rust resistant chrome emitter guard
- CSA approved mercury free tip over shut-off
- Operates up to 14 hours on a 20 lb. propane(LP) tank
- Quick connect P.O.L. tank connection
- Accidental shut-off
- Match light ignition
- Approved for outdoor use in Canada
- Ideal for sportsmen, construction, job site, garage, or workshop
- Outdoor use only
