

Assembly Instructions

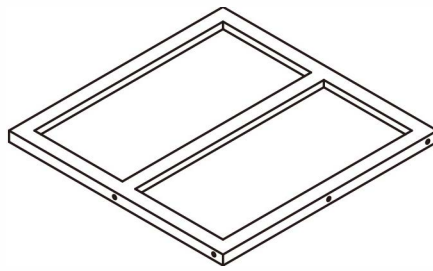

Rotating Organizer

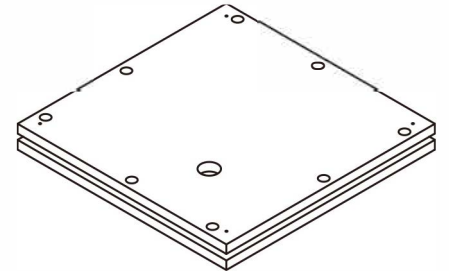

1. The sample shown in the manual is in natural color, but all steps and details apply to other colors as well.

Top Panel A x1

Shelf Panels B x5

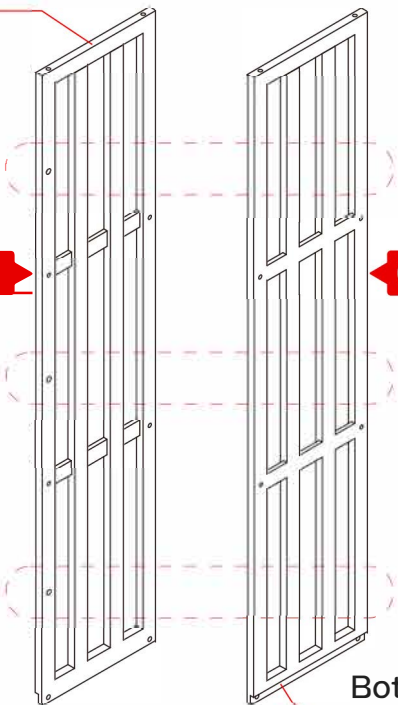

Rotating Base Panel C x1

How to Identify the Correct Orientation of the Upper and Lower Side Panels

Upper Side Panels D1X4

Top Edge
without Groove

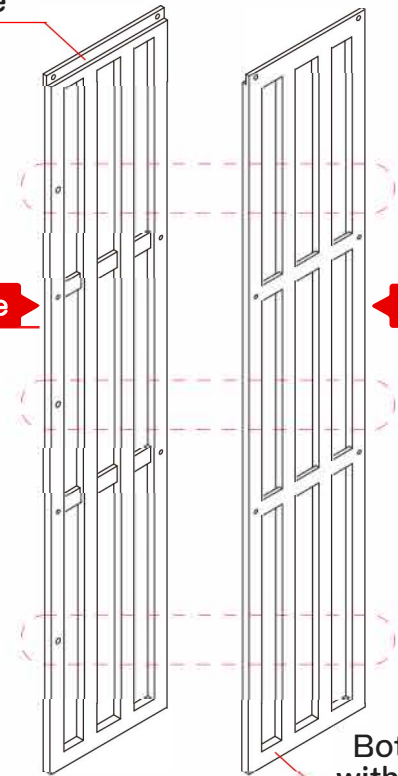

Outer Face

Bottom Edge
with Groove

Lower Side Panels D2 x4

Top Edge
with Groove

Outer Face

Bottom Edge
without Groove

Important: D1 and D2 look similar, but D2 is slightly taller. Please identify each panel before assembly.

Inner Face

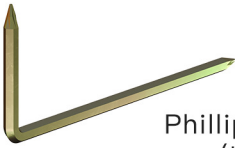

- ✓ The side edge has three additional small holes for Shelf Divider Rods (E).
- ✓ Must face inward during assembly.

Outer Face

- ✓ The side edge does not have the three additional holes for Shelf Divider Rods (E).
- ✓ Must face outward during assembly.

Parts & Hardware List

 Shelf Divider Rods E x12	 Foot Pad & Washer Set Fx4	 Small Screws (for Foot Pads) Gx4	 5 x 25 mm Screws H x40
 5 x 30 mm Screws I x16	 L-Shaped Hex Key J x1	 Phillips Screwdriver (L-Type) x1 K x1	

WARNING: The product should be assembled by an adult as hazardous sharp points on screws.

Assembly Steps

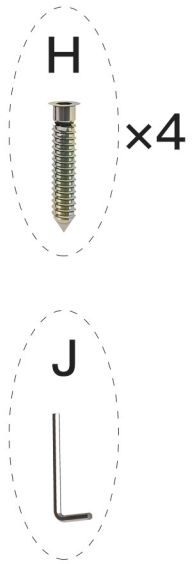

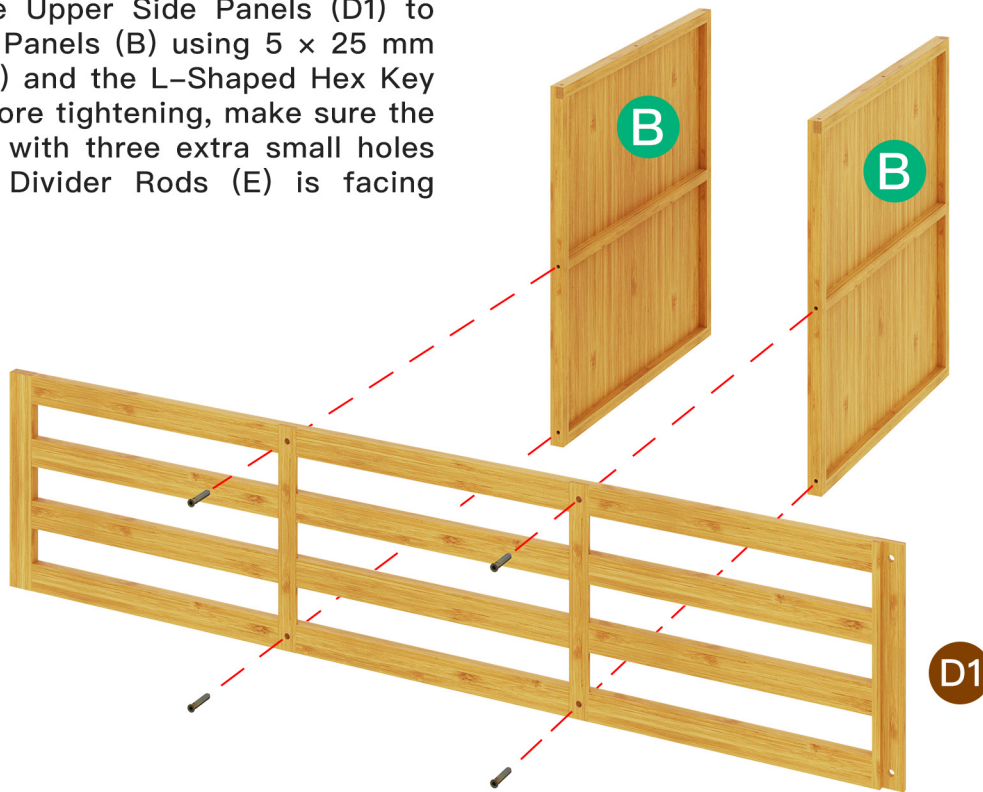

Step 1

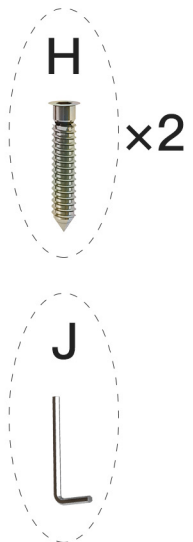

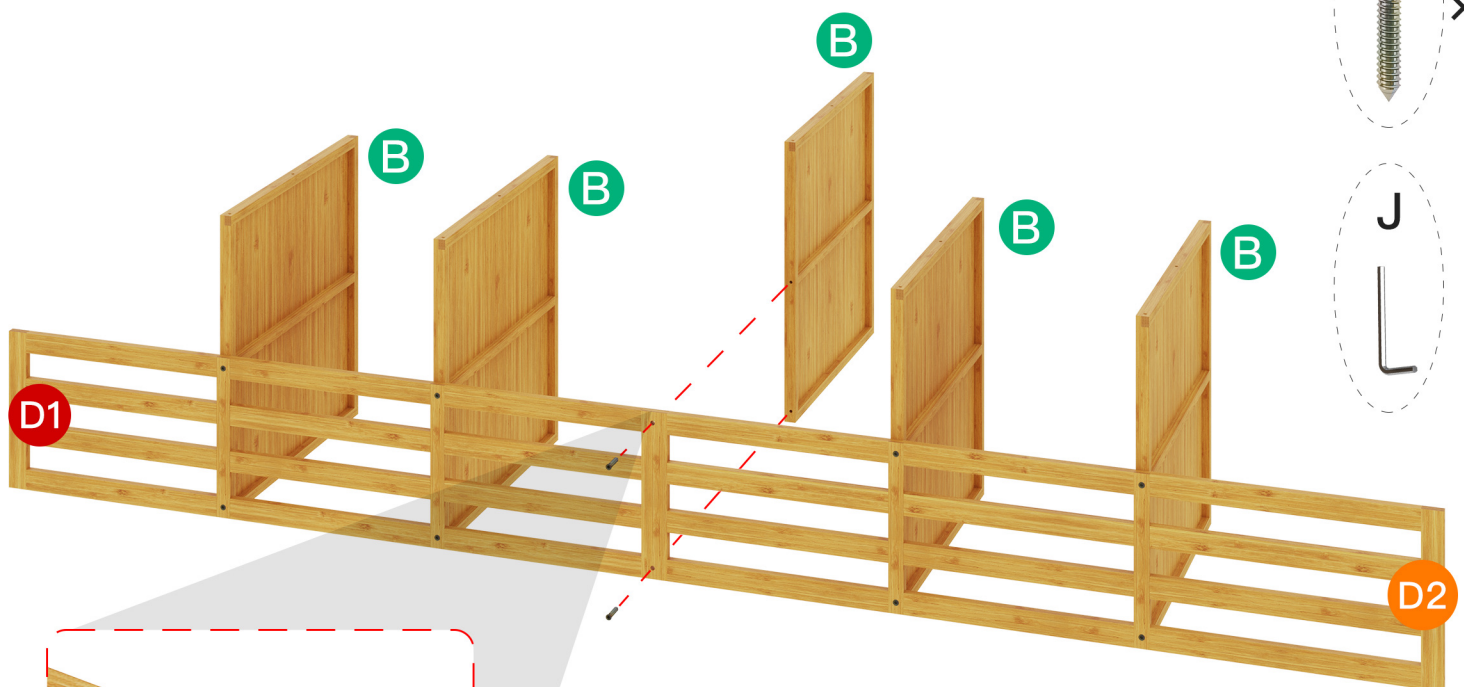

Attach the Lower Side Panels (D2) to two Shelf Panels (B) using 5 x 25 mm Screws (H) and L-Shaped Hex Key (J).
→ Before tightening, make sure the Inner Face is facing inward. The Inner Face has three additional small holes along the side edge for Shelf Divider Rods (E).

Step 2

Attach the Upper Side Panels (D1) to two Shelf Panels (B) using 5 × 25 mm Screws (H) and the L-Shaped Hex Key (J). → Before tightening, make sure the side edge with three extra small holes for Shelf Divider Rods (E) is facing inward.

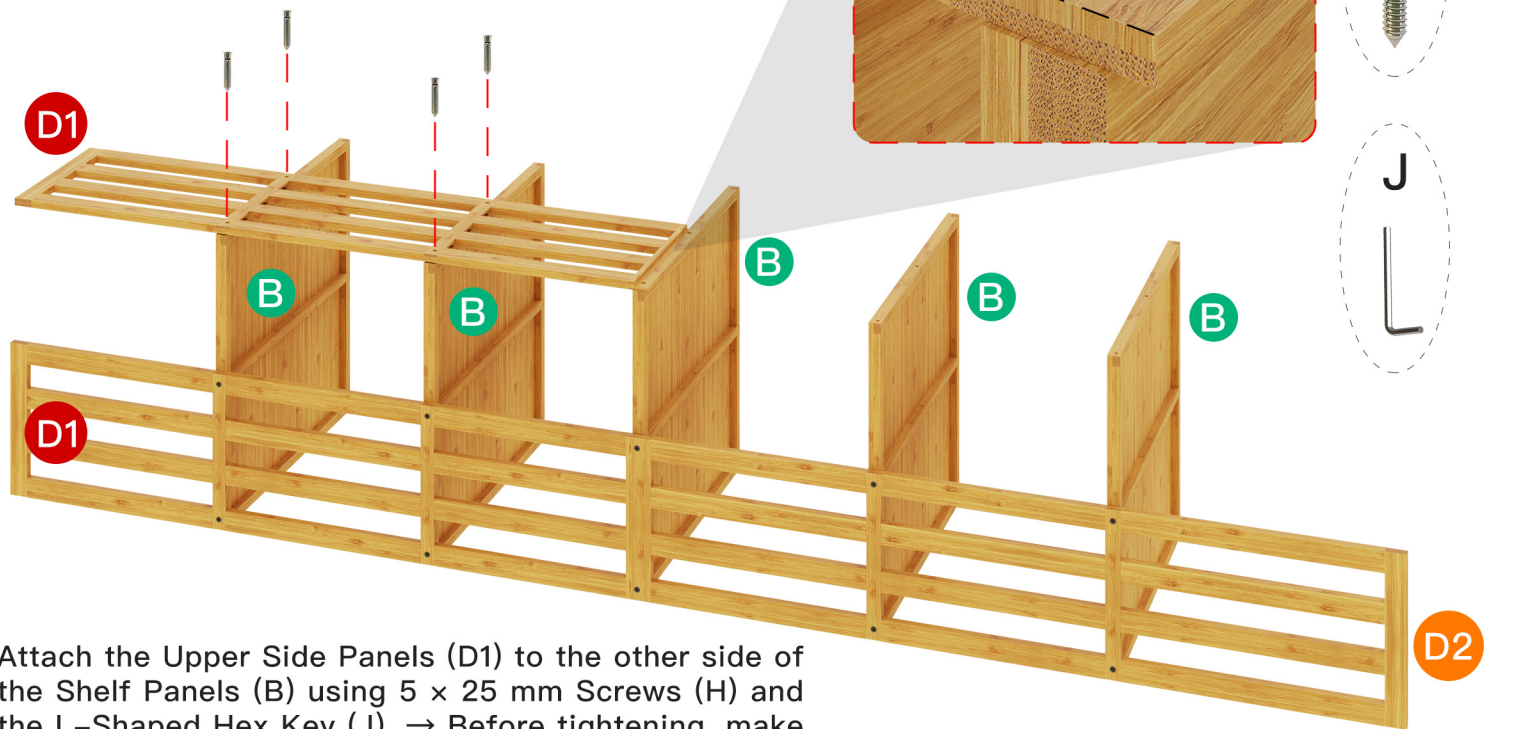

Step 3

Align the interlocking slots of the Upper Side Panels (D1) and Lower Side Panels (D2), then connect them. → After connecting D1 and D2, align the two screw holes formed at the joint with the holes on the Shelf Panel (B). Secure with 5 × 25 mm Screws (H) using the L-Shaped Hex Key (J).

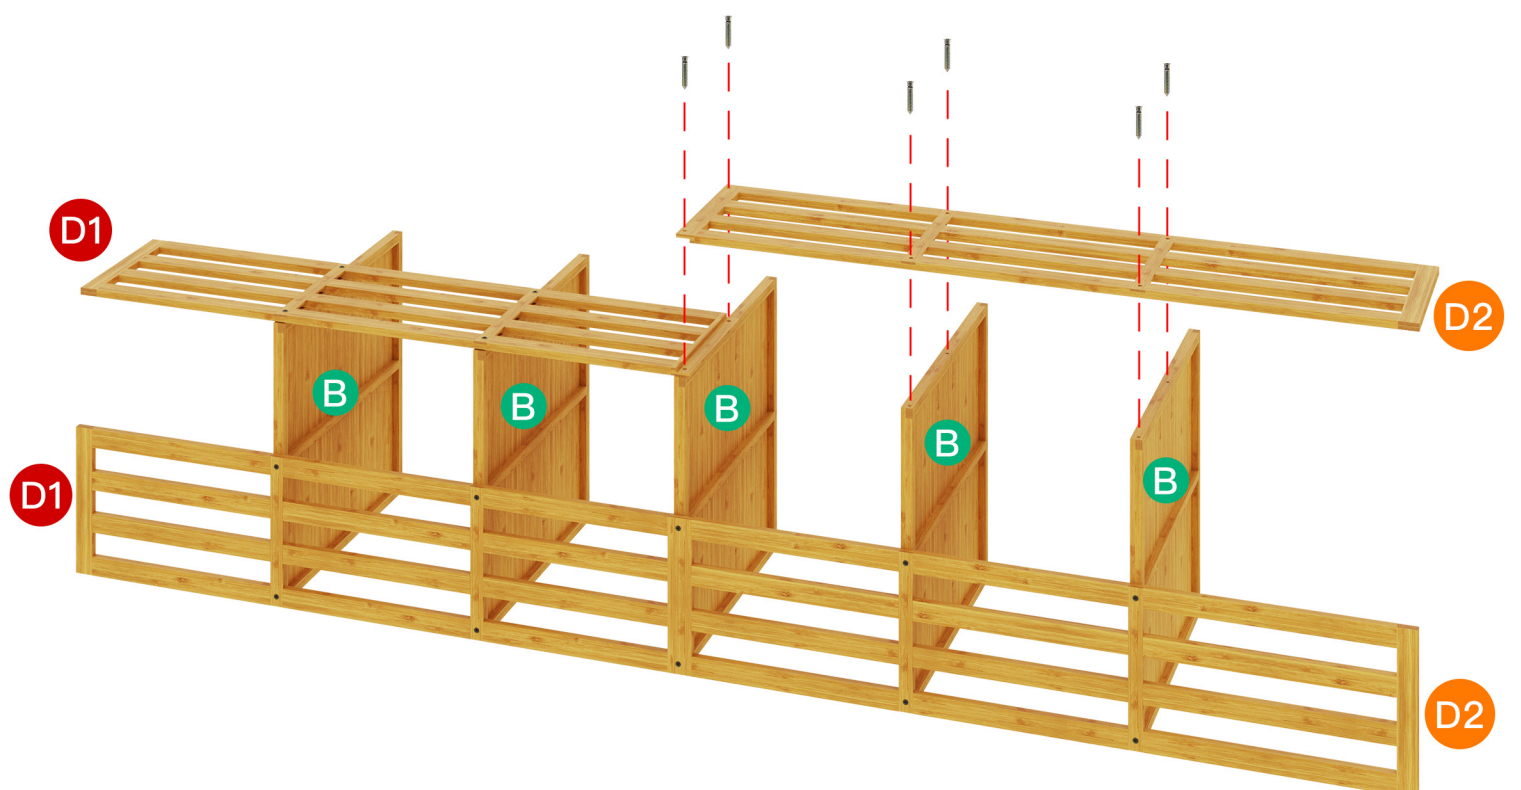

Step 4

Attach the Upper Side Panels (D1) to the other side of the Shelf Panels (B) using 5 × 25 mm Screws (H) and the L-Shaped Hex Key (J). → Before tightening, make sure the side edge with three extra small holes for Shelf Divider Rods (E) is facing inward.

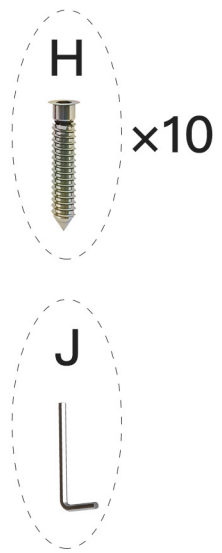

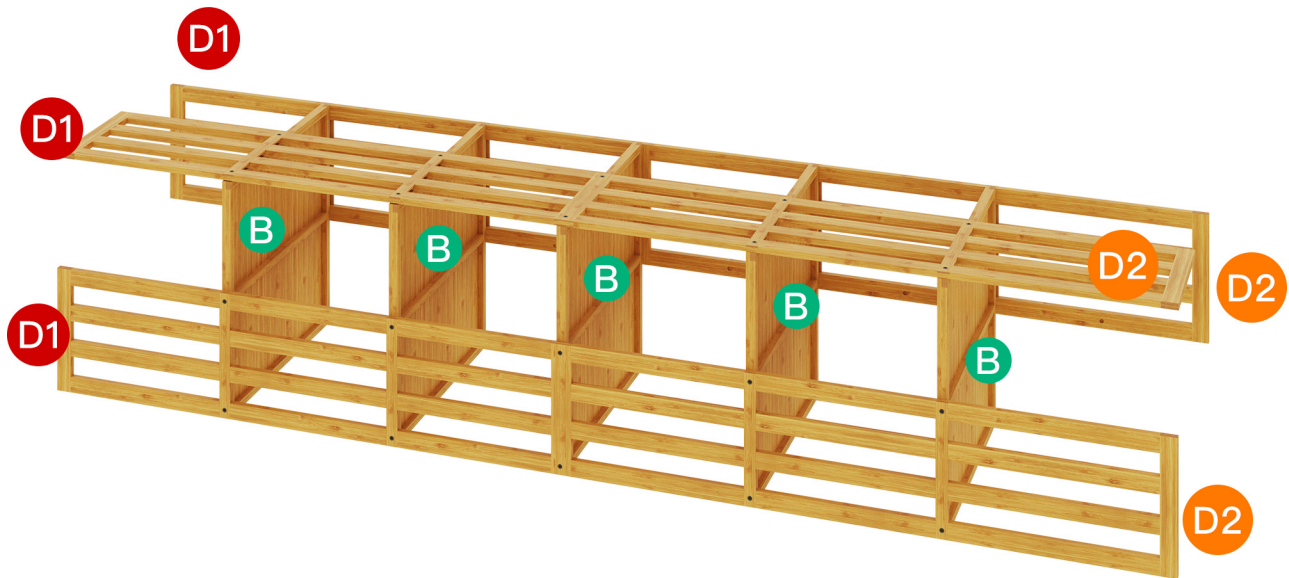

Step 5

Attach the Lower Side Panels (D2) to the other side of the Shelf Panels (B) using 5 × 25 mm Screws (H) and the L-Shaped Hex Key (J). → Before tightening, make sure the side edge with three extra small holes for Shelf Divider Rods (E) is facing inward.

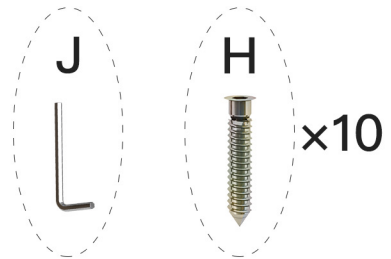

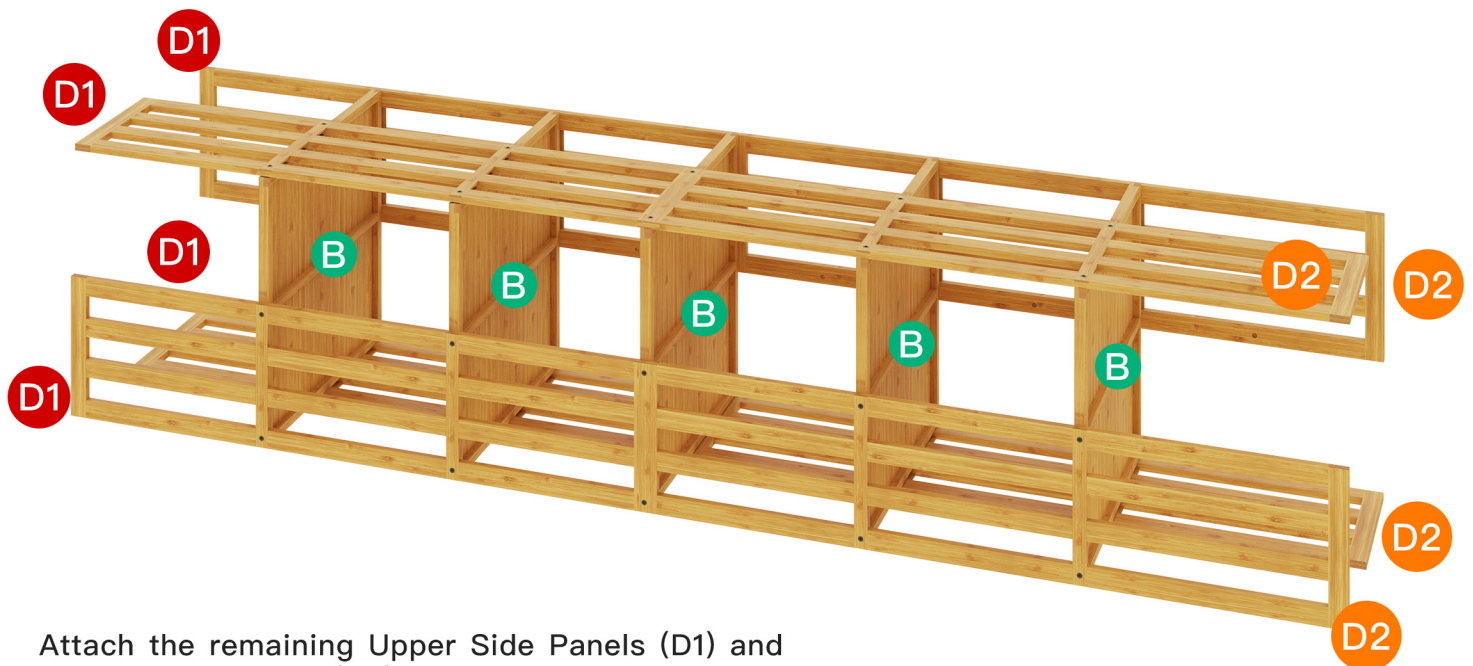

Step 6

Repeat Steps 4–5 to attach the remaining Upper Side Panels (D1) and Lower Side Panels (D2) to the third side of the assembly.

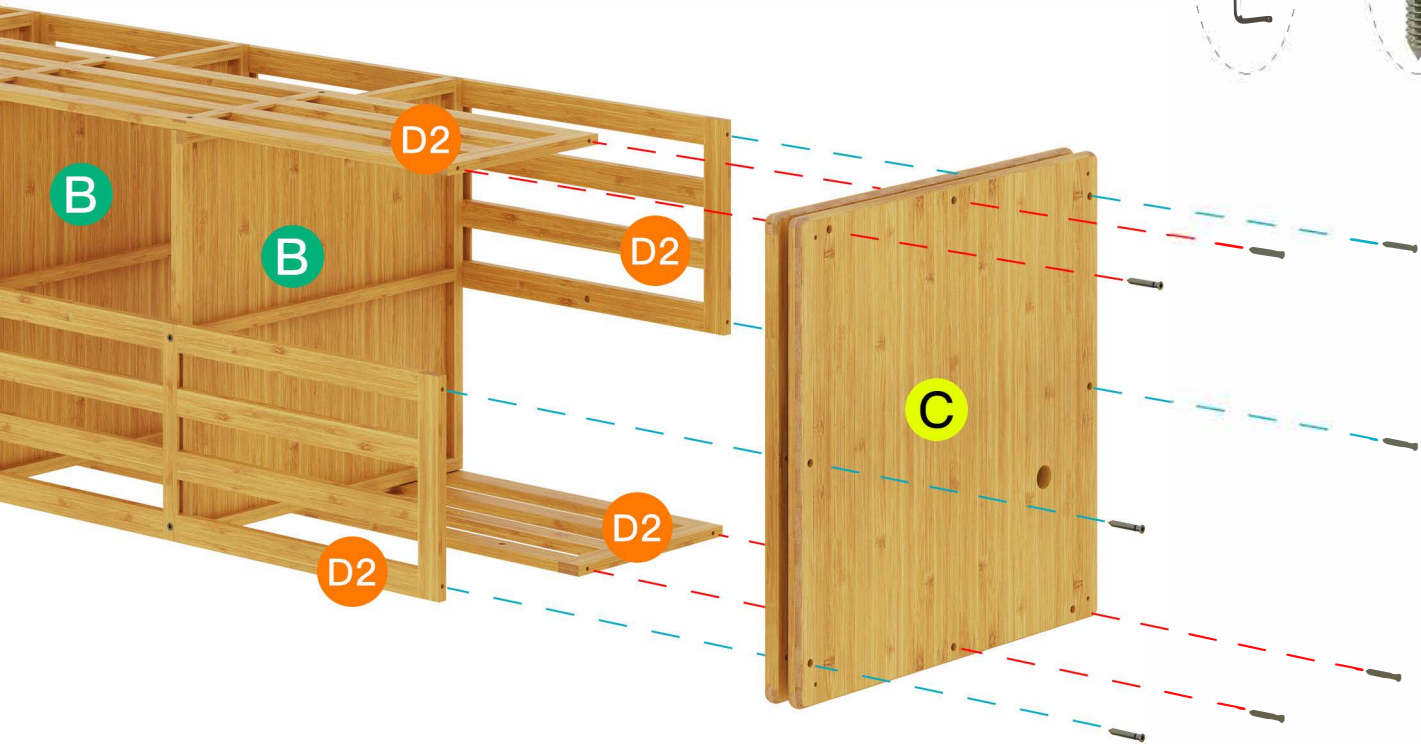

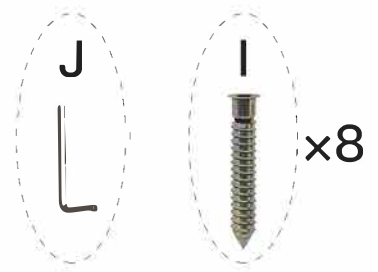

Step 7

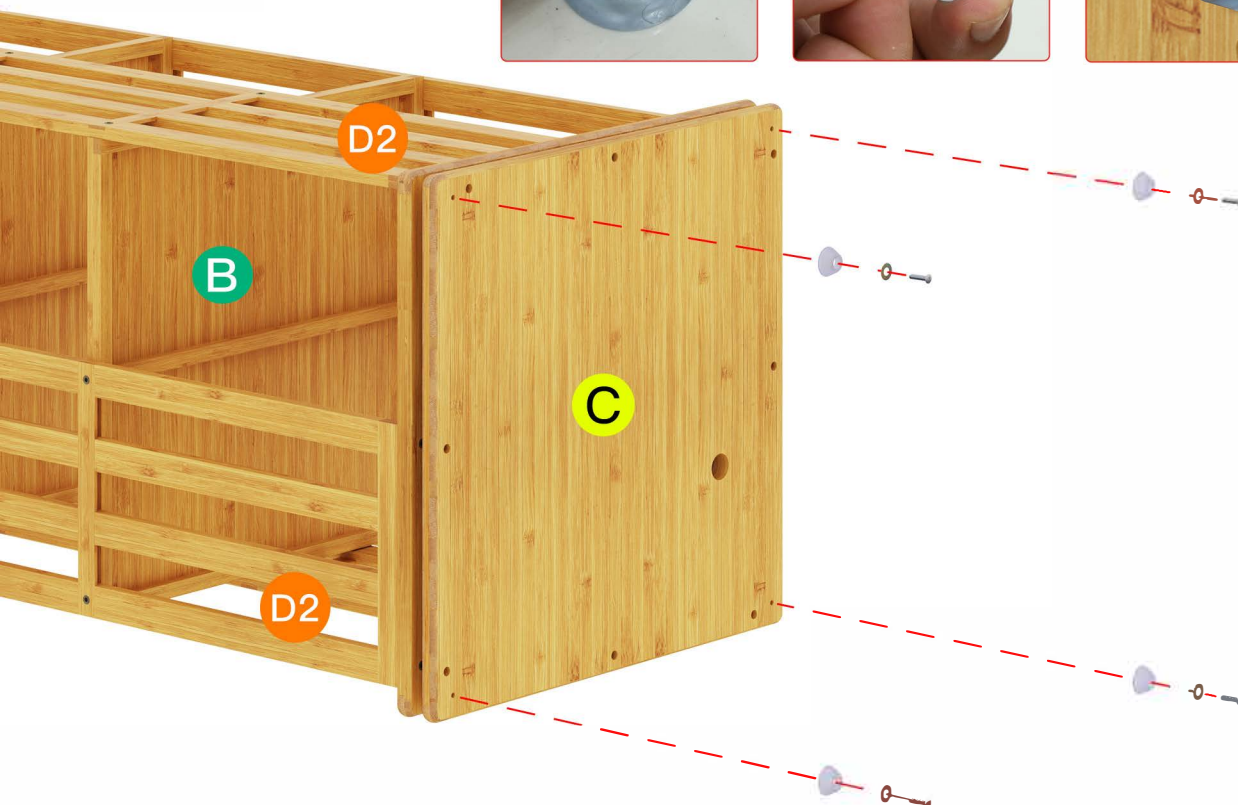

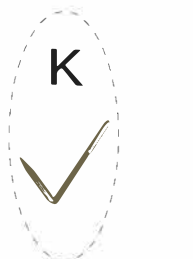

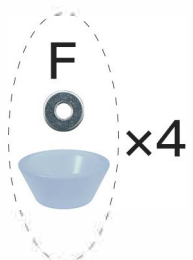

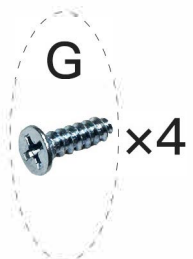

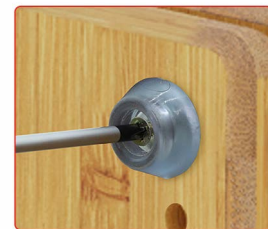

Attach the remaining Upper Side Panels (D1) and Lower Side Panels (D2) to the fourth side of the assembly to complete the frame.

Step 8

Attach the Rotating Base Panel (C) to the Lower Side Panels (D2). → Align the eight screw holes on the Rotating Base Panel (C) with the holes on the Lower Side Panels (D2), then secure with 5 × 30 mm Screws (I) using the L-Shaped Hex Key (J).

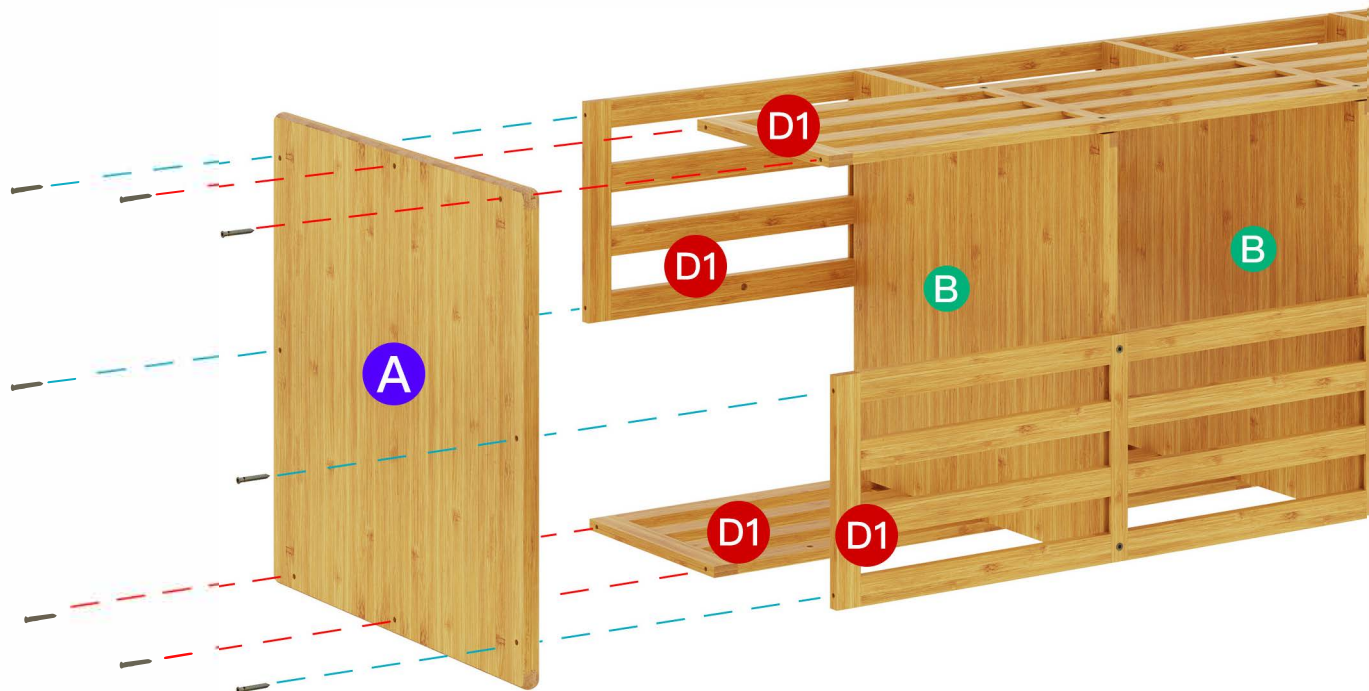

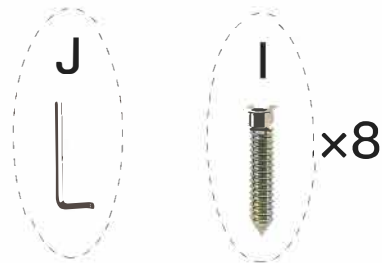

Step 9

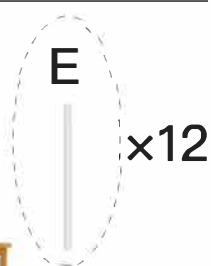

Attach the Foot Pad & Washer Set (F) to the underside of the Rotating Base Panel (C). → Align the foot pads with the small pilot holes on the bottom of the Rotating Base Panel (C) and fasten them directly with Small Screws (G) using L-Shaped Phillips Driver (K).

Step 10

Attach the Top Panel (A) using 5 × 30 mm Screws (I) with L-Shaped Hex Key (J). → Make sure the screw holes on the Top Panel (A) are aligned with the frame before tightening. → If the holes do not align, flip the Top Panel (A) and try again.

Step 11

Step 12

Assembly is complete.

Stand the assembled organizer upright. → Install two Shelf Divider Rods (E) on each shelf level by inserting them into the pre-drilled holes on the inside of the Upper Side Panels (D1) and Lower Side Panels (D2). → Install the rods one at a time. Slightly bend each rod to form an X shape. → No tools required.
