

Installation Instructions

Parts List

			
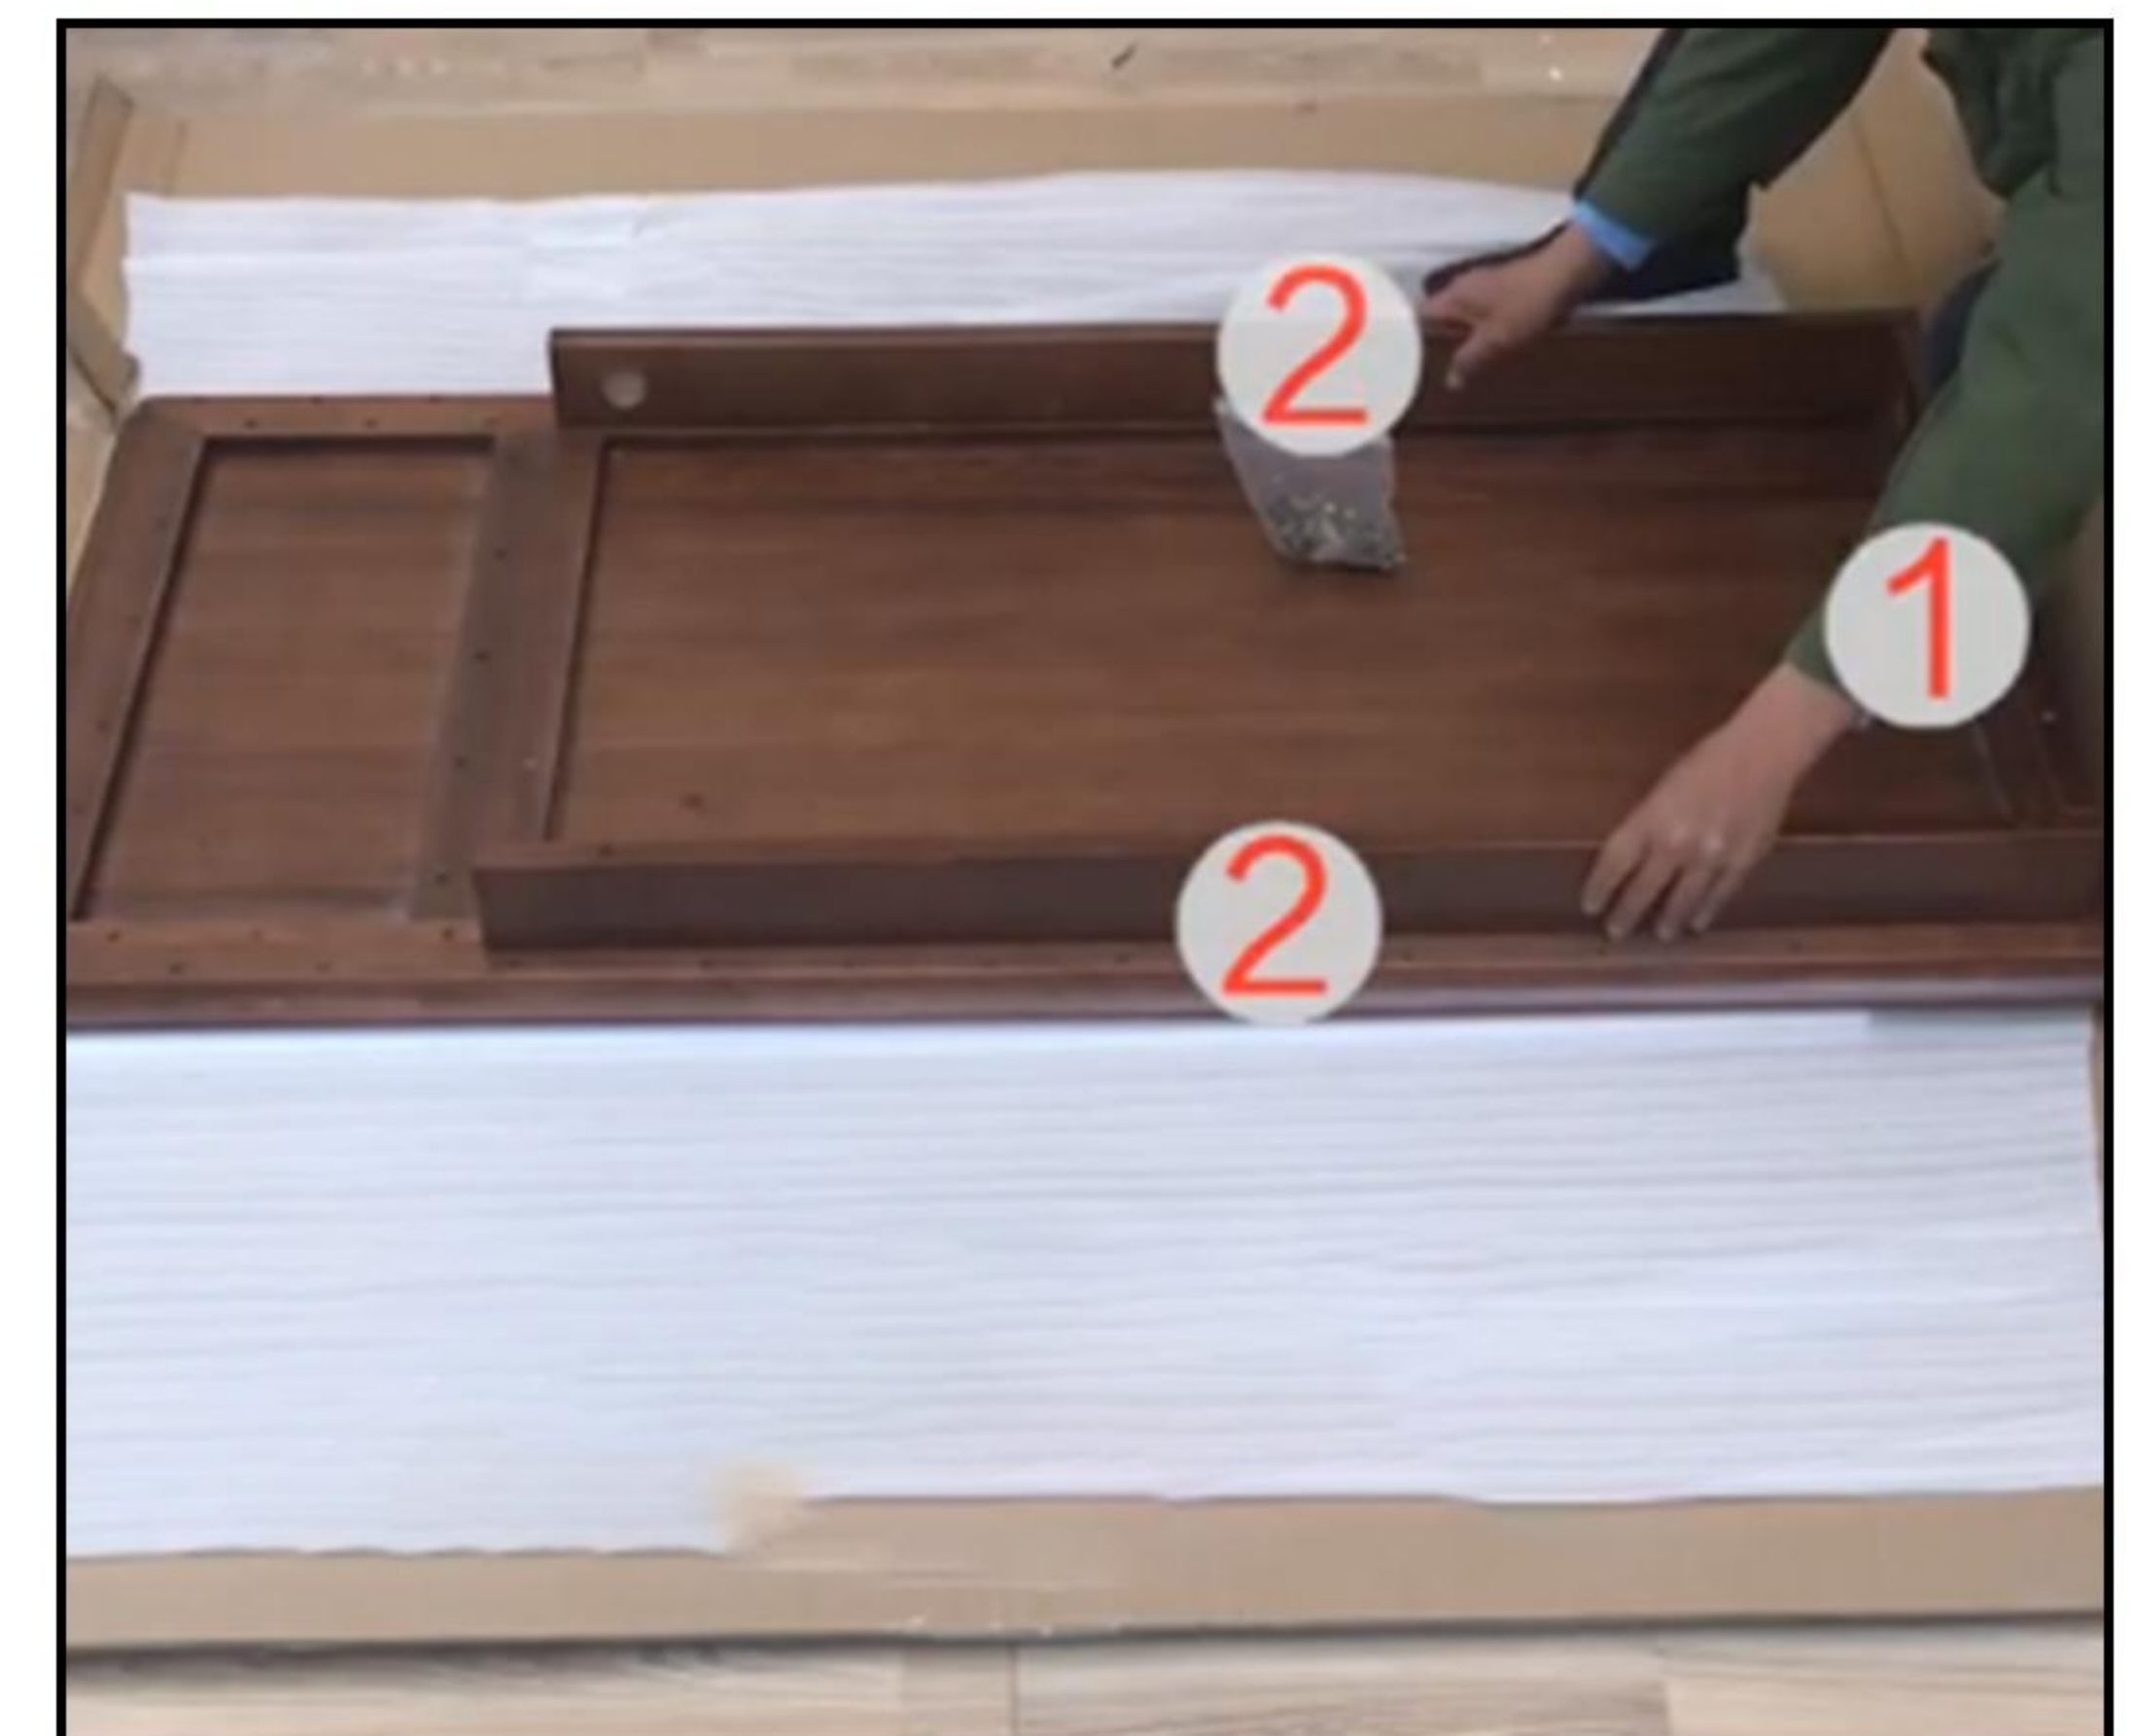

Tabletop	Long Crossbar×2	Short Crossbar×2	Table Legs×2
			
Cabinet	Connecting Rods ×2	Hardware Pack	

Step 1: Attach the Table LegsParts List

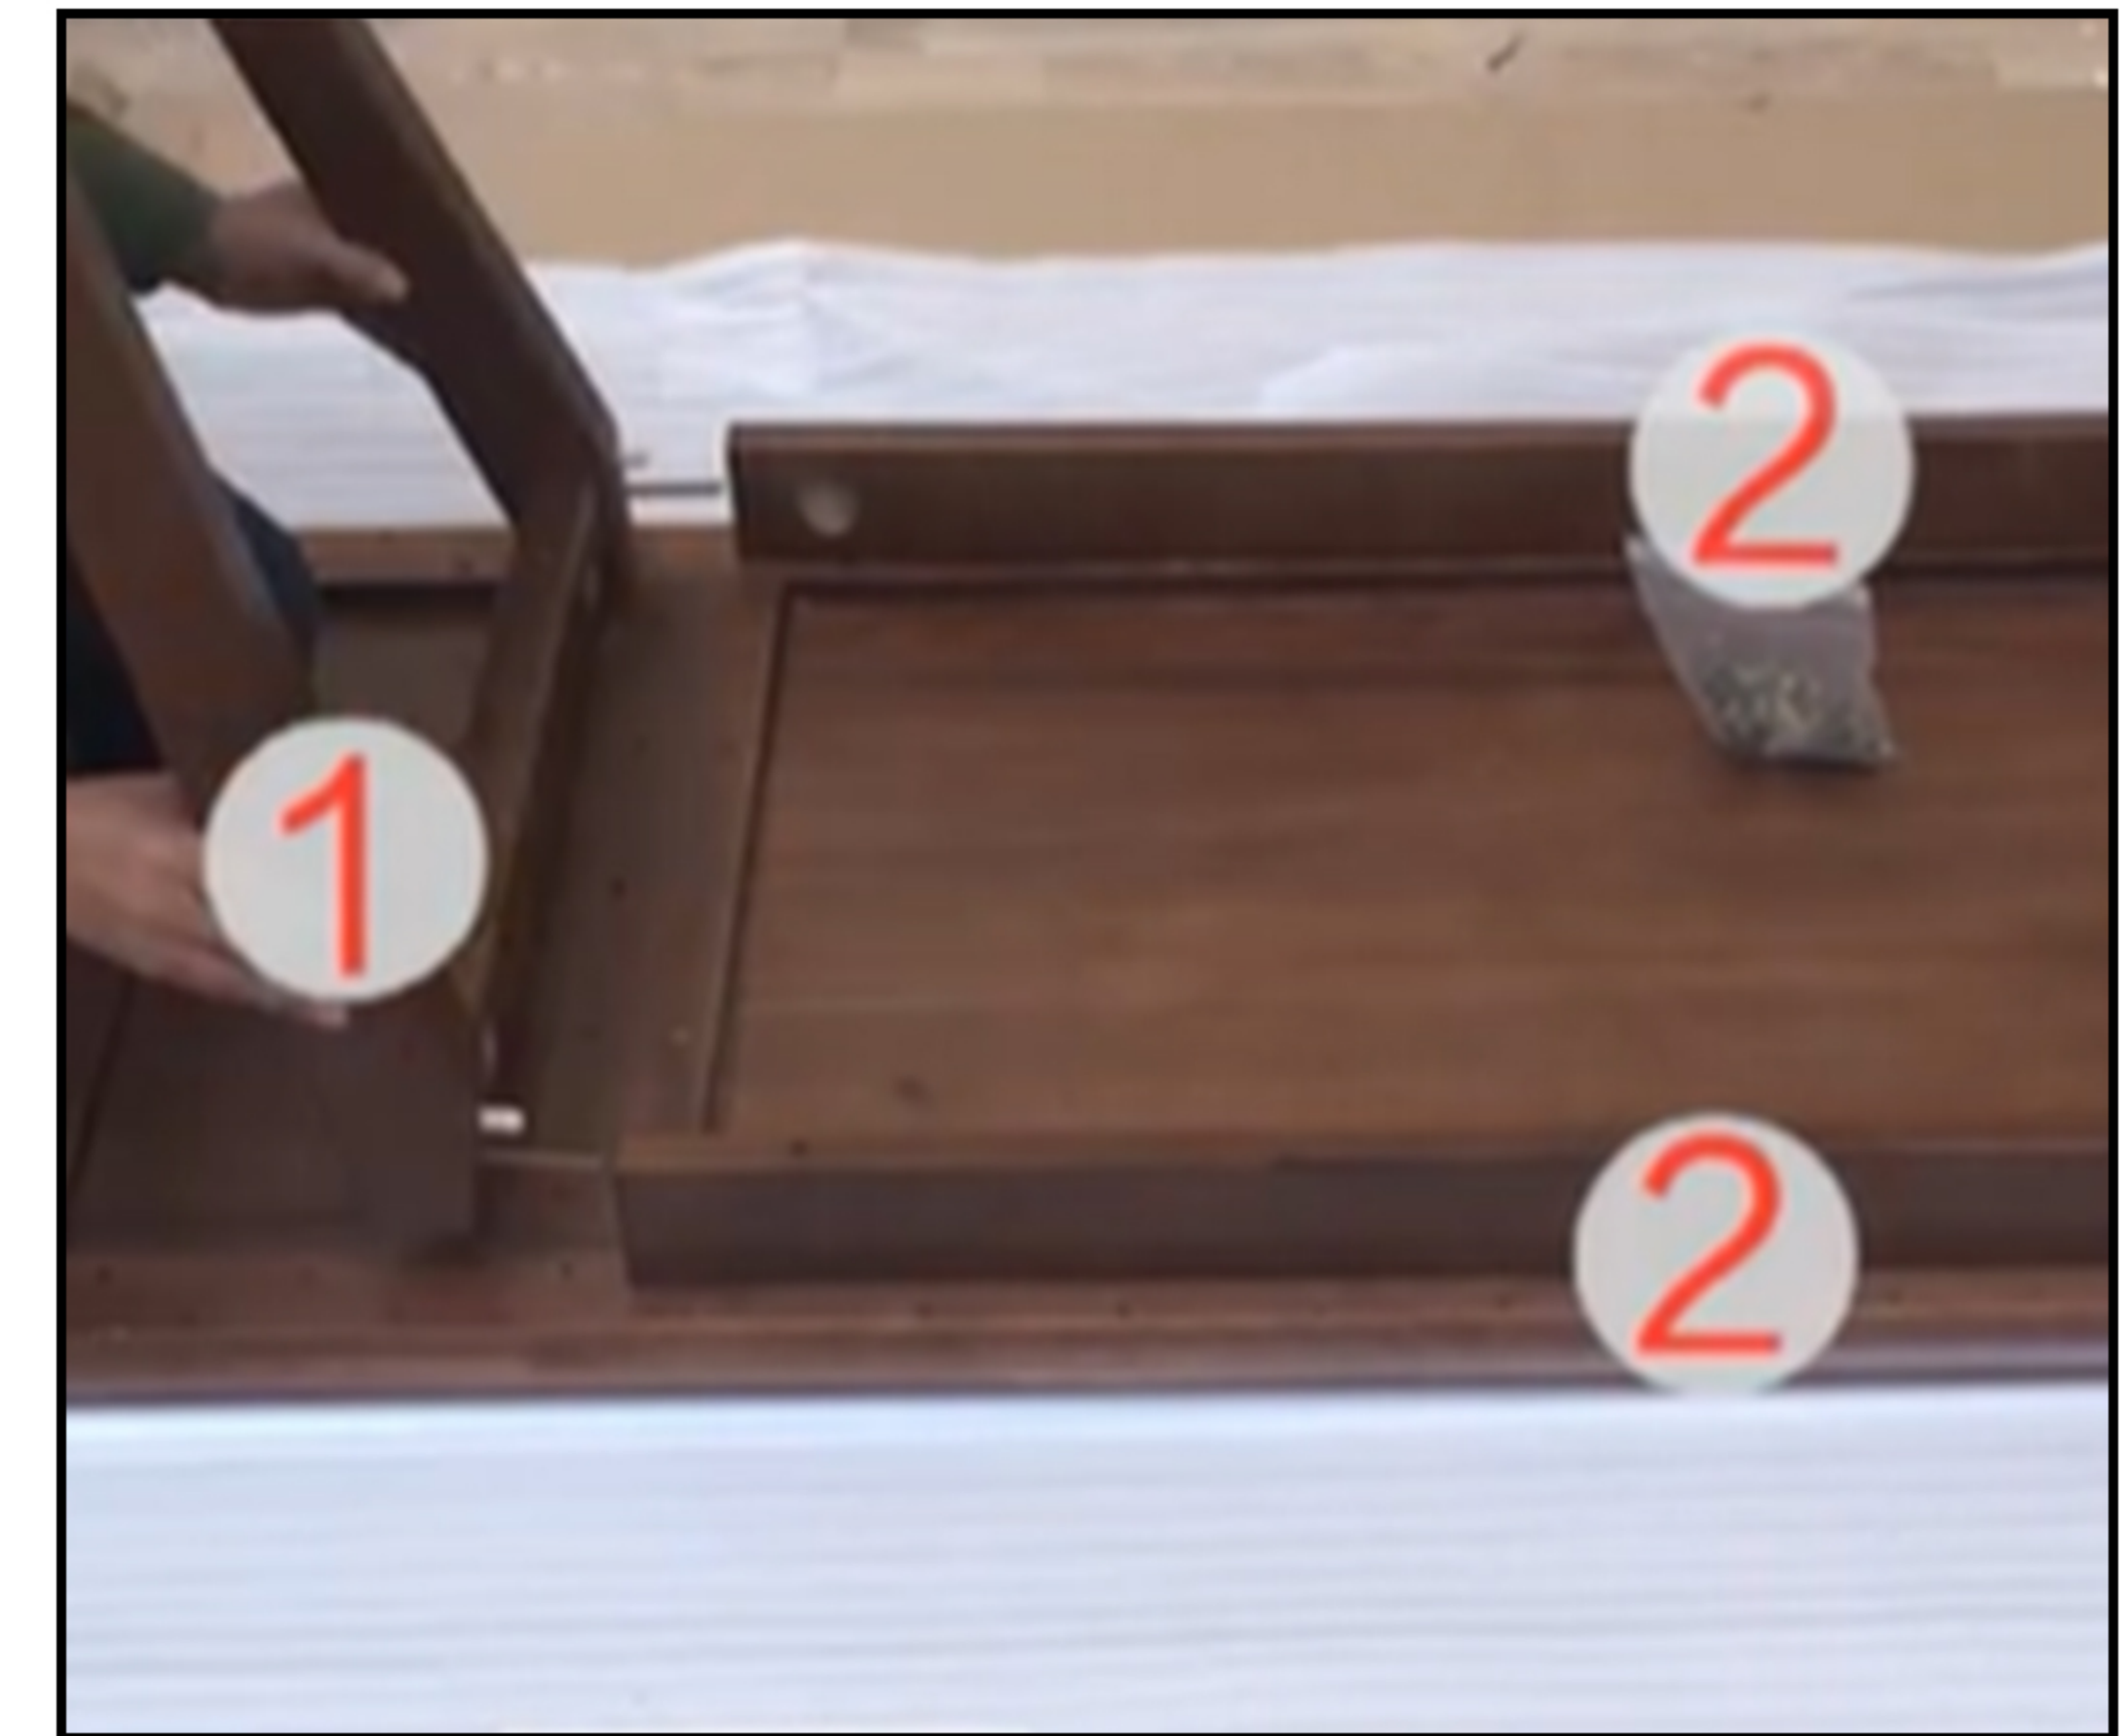

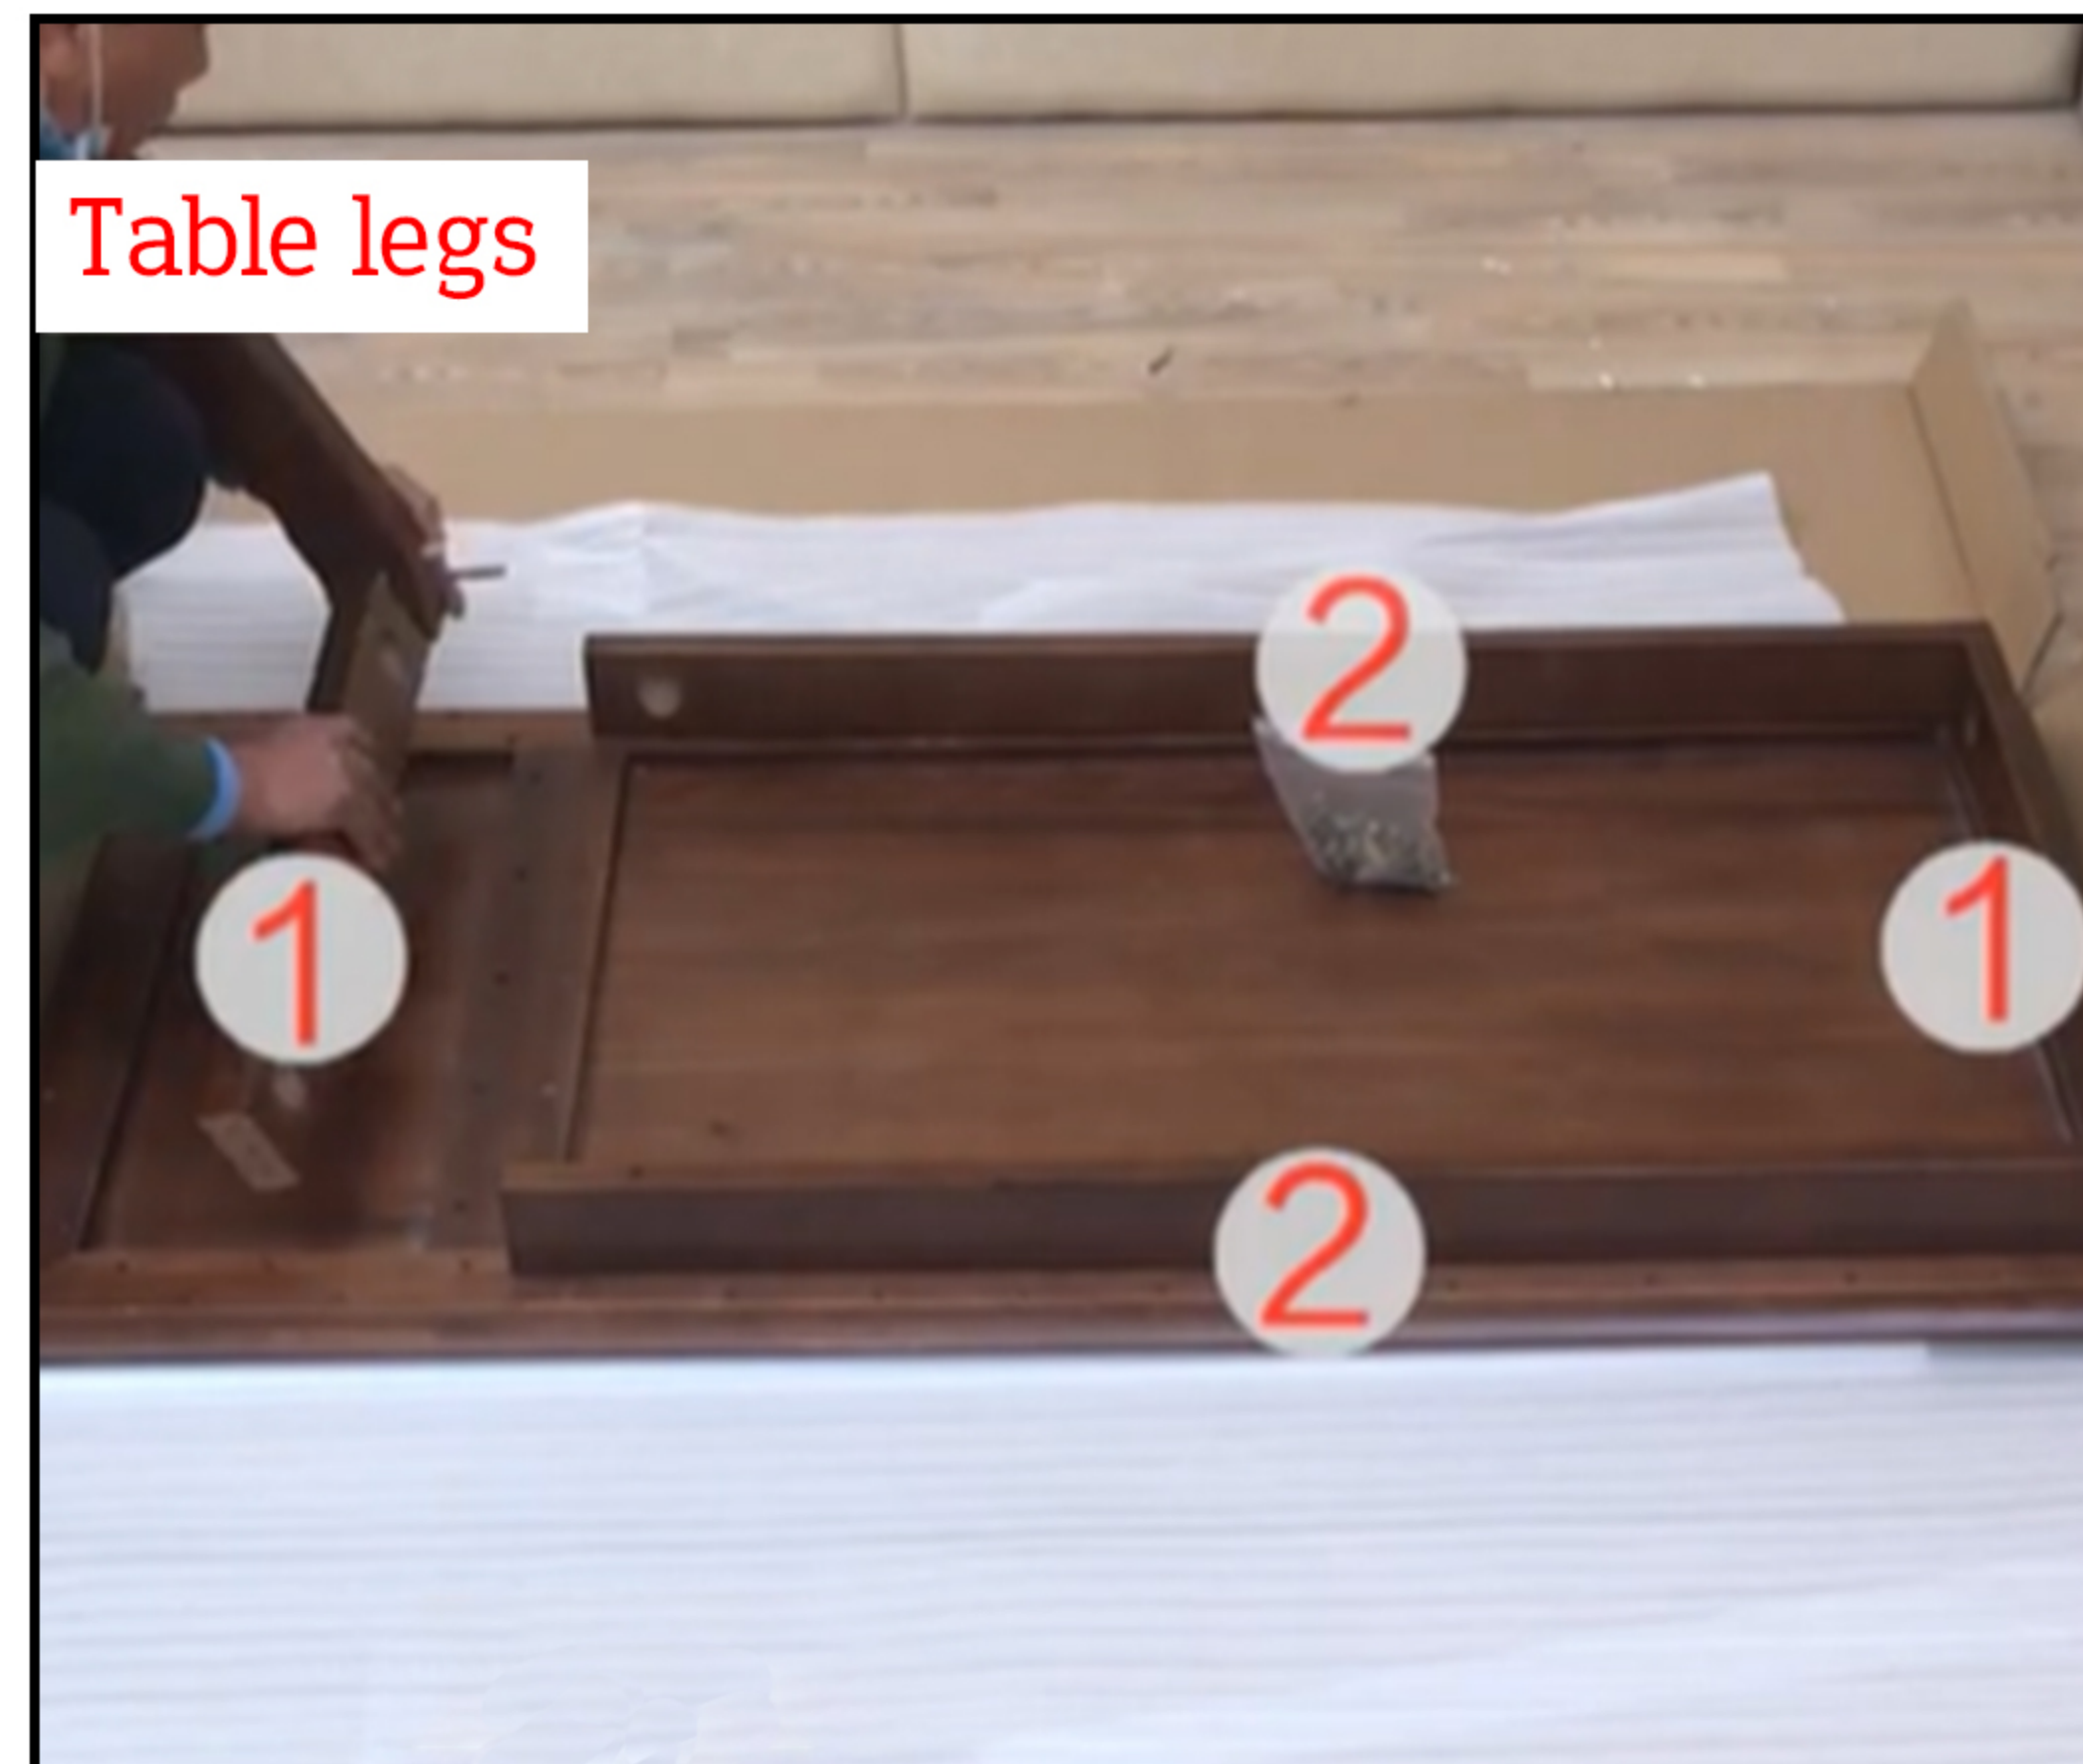

1. Secure the long crossbar and short crossbar to the table legs at the corresponding holes with screws and wooden plugs.

2. Place two long crossbars and one short crossbar aligned with the back holes of the tabletop.

3.Align and secure the short crossbar with two table legs first, then align and fasten to the long crossbar holes.

4.Insert the screw lock into the groove and tighten it.

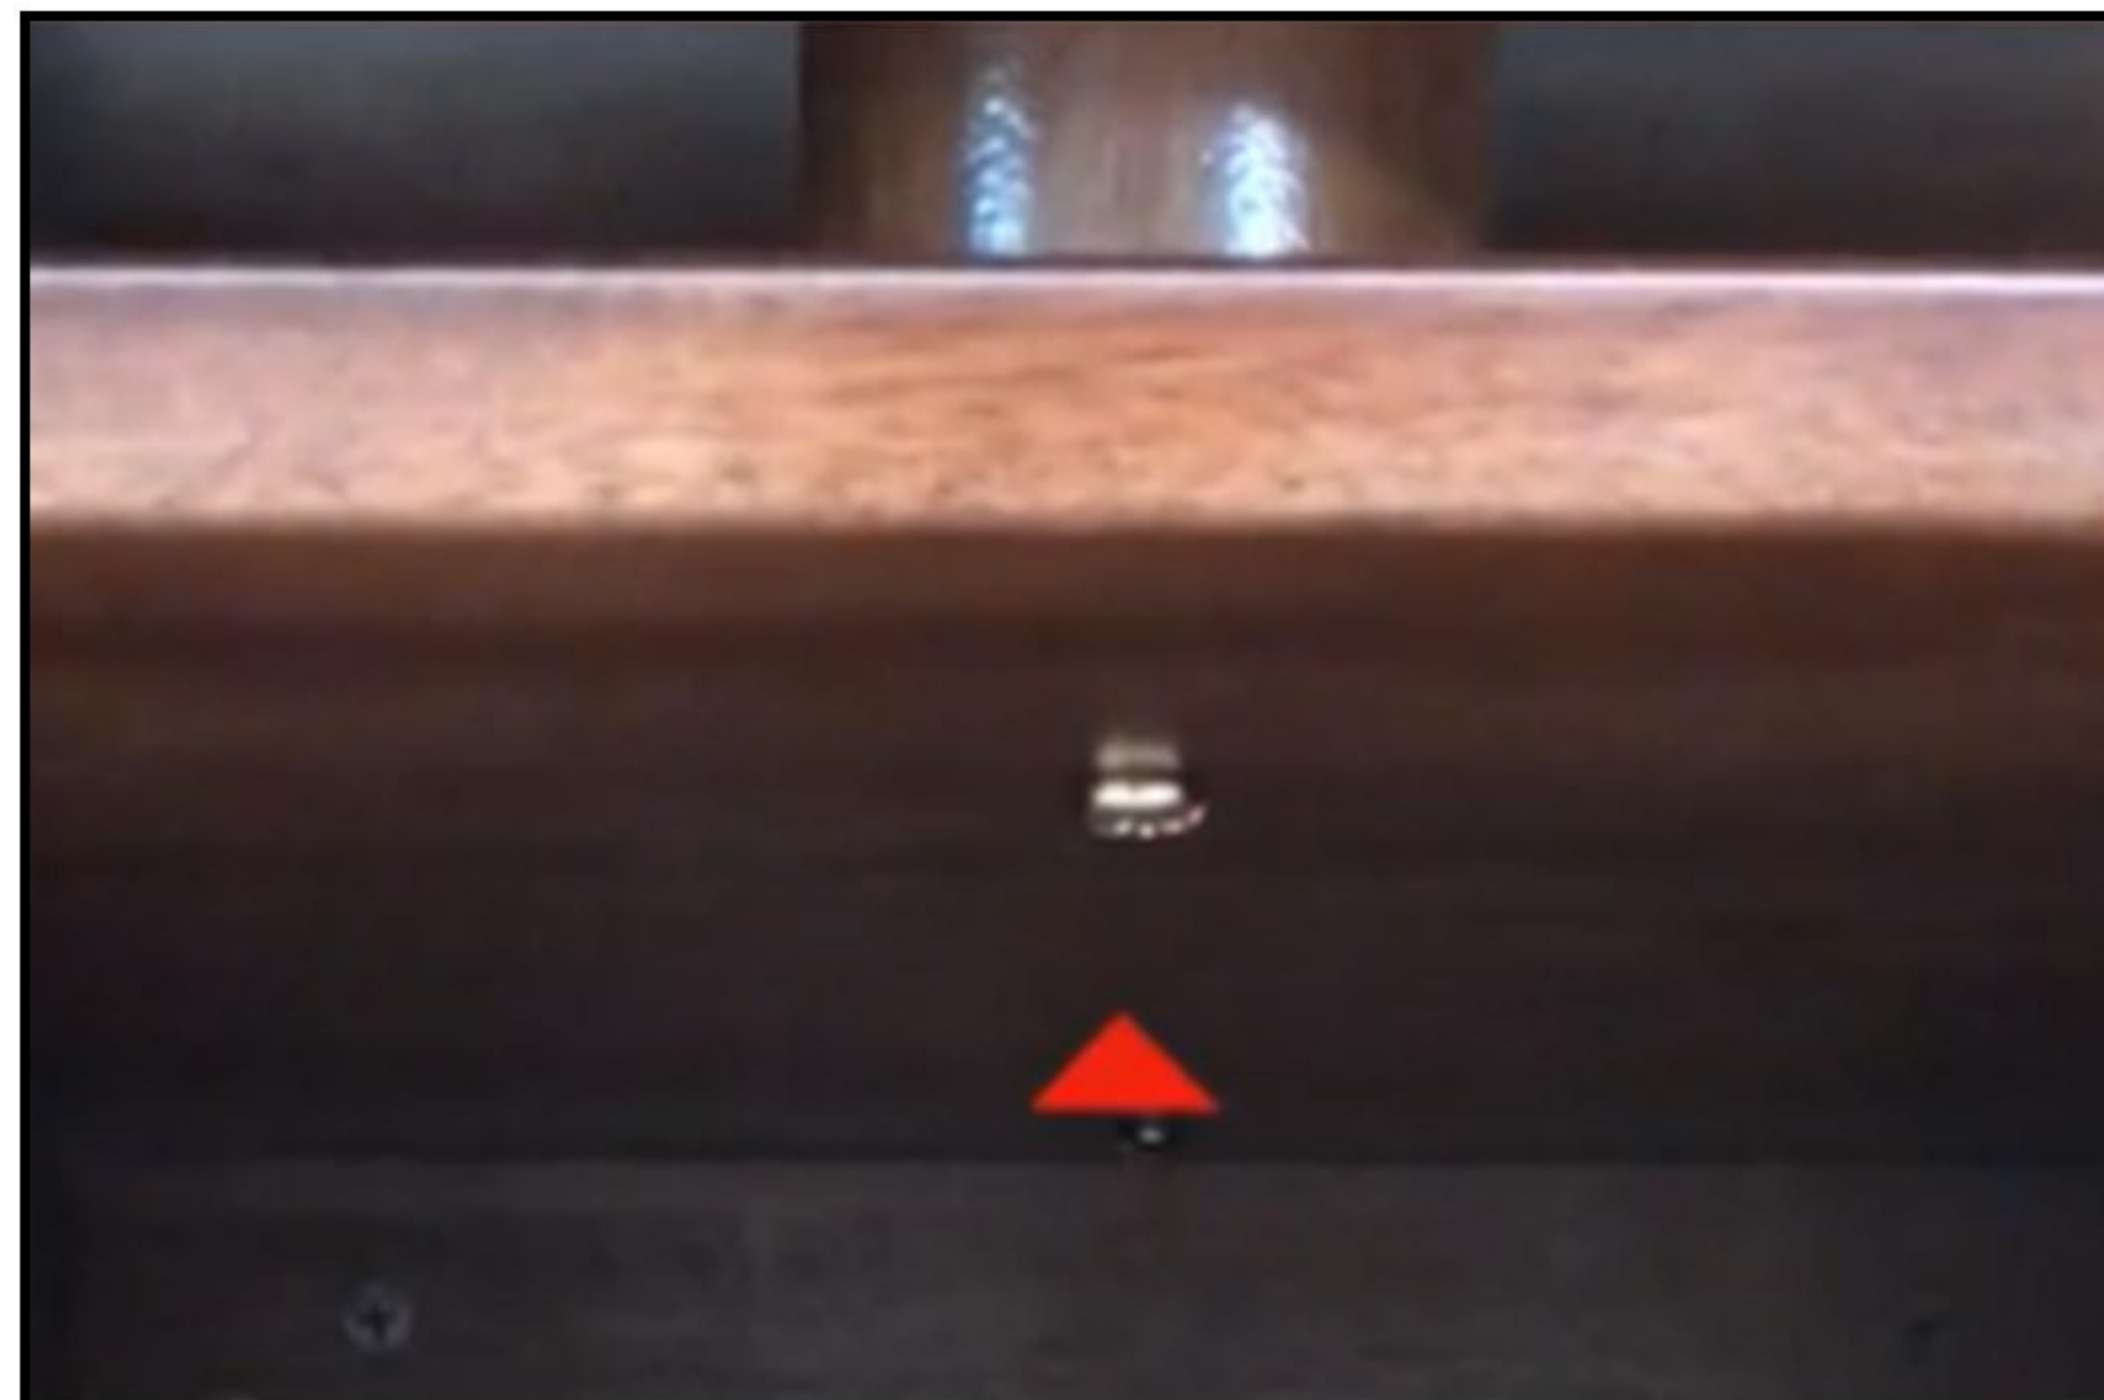

5. After securing, insert screws into the bottom holes of the short crossbar and long crossbar, then tighten.

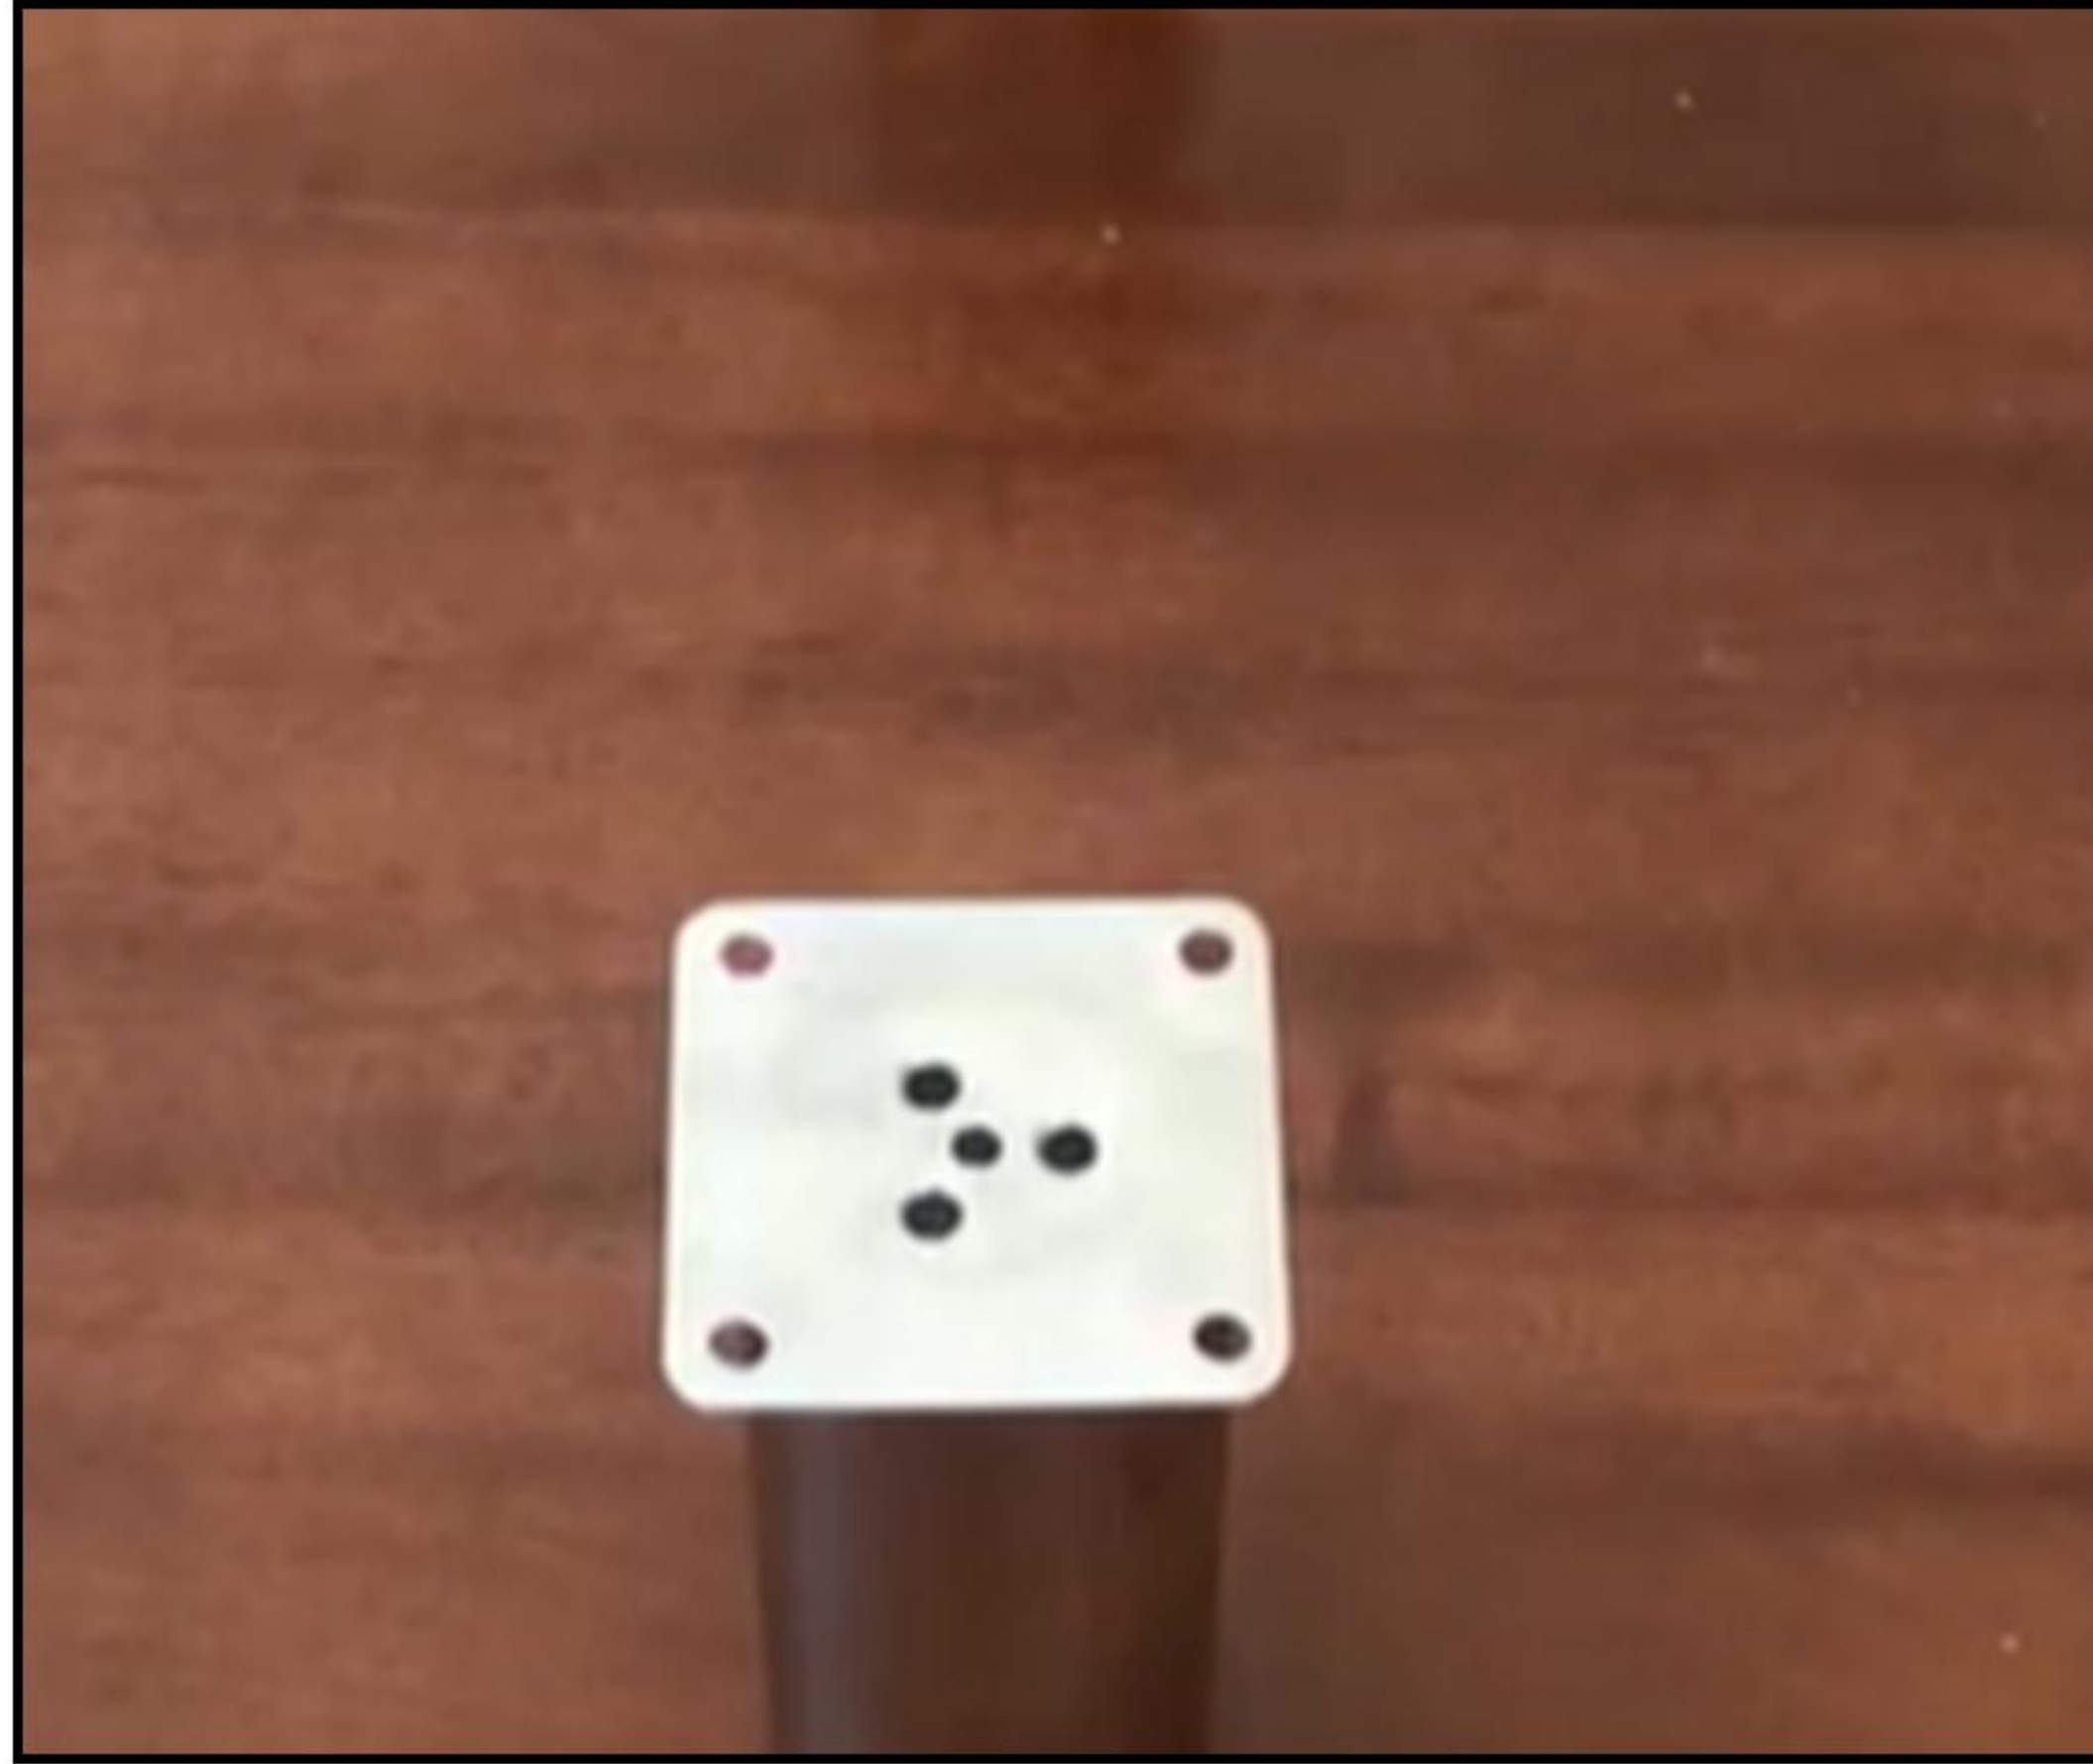

Step 2: Install the Cabinet

1. Remove the first drawer of the cabinet, take out the connecting rods, align them with the holes on top of the cabinet and secure with screws.

2. Place the gasket on top of the connecting rods and secure the middle hole of the gasket with 4 screws.

3. Place the tabletop aligned above the connecting rods, then secure the gasket and tabletop with screws from bottom to top.
