Product Name :Solid Wood Double-Layer Single Rod Garment Rack

Step 1:

(Assemble as shown in figure)

Secure the Lower Side Panel (3) to the Base Plate (8) using the Straight Repair Screw (9).

(Assemble as shown in figure)

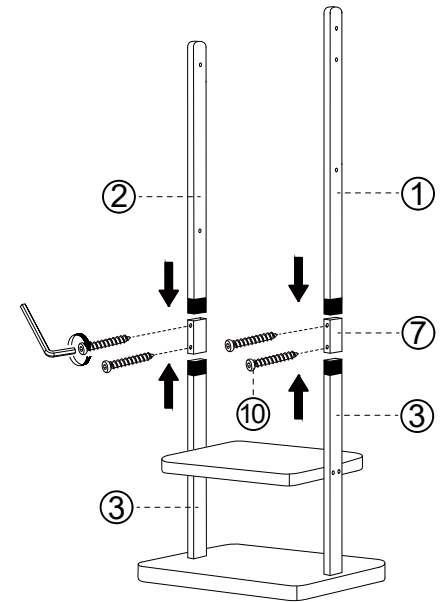

Secure the Lower Side Panel (3) to the Shelf Board (5) using the Straight Repair Screw (9).

Step 2:

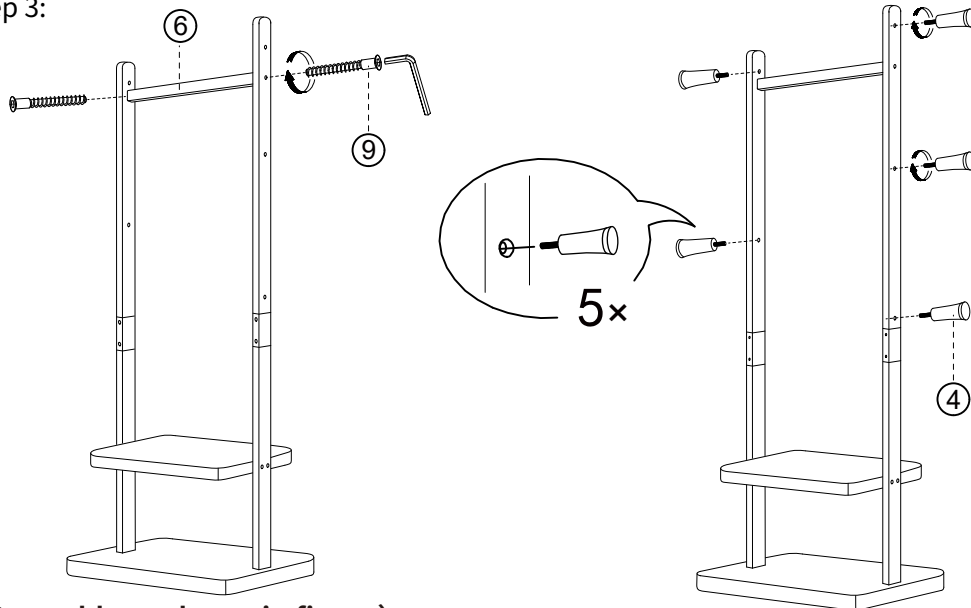

Note: If the Upper/Lower Side Panels (1, 2, 3) fit too tightly with the Metal Sleeve (7), first slide the Metal Sleeve (7) onto the tenons of the Upper/Lower Side Panels separately. Then, firmly grip the Upper Side Panel (1, 2) and press downward with both hands until all tenons are fully inserted into the Metal Sleeve (7).

(Assemble as shown in figure)

Connect the Upper/Lower Side Panels (1, 2, 3) using the Metal Sleeve (7), then fasten the Metal Sleeve Screw (10) into the corresponding holes of the Metal Sleeve (7).

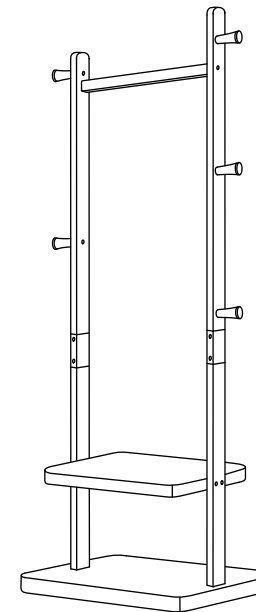

Step 3:

(Assemble as shown in figure)

Secure the Clothing Rod (6) to the Upper Long Side Panel (1) and Upper Short Side Panel (2) using the Straight Repair Screw (9). Screw the Hanging Post (4) onto the Upper Long Side Panel (1) and Upper Short Side Panel (2).

Step 4:

Installation Finalized!
