ASSEMBLY INSTRUCTIONS - Fitting Tap to Sink Unit

For all cabinets with a sink and tap follow these instructions

Remove the rear, top panel four screw to gain access to the cabinet, install the water tap & replace panel.

For cabinets with a fridge, the fridge will need to be removed prior to connection to other modular cabinets

Remove the four screws at the back of the cabinet securing the fridge into the cabinet. From the front slide the fridge forward out of the cabinet taking care to support fully as lowered onto a firm level surface. Feed the power cable back through the cabinet to release it.

Follow connection steps to connect the fridge cabinet to the other cabinet, then follow in reverse the instructions to install the fridge back into the cabinet.

It is advised that a qualified electrical install any power supply to the fridge and it is protected by a circuit breaker.

ASSEMBLY INSTRUCTIONS – Connecting Cabinets

Sera modular cabinets can be arranged in a format to suit an individual preferred layout or be set in a design plan to create the perfect outdoor kitchen.

Below is an overall guide as to how to connect cabinet the ranges of cabinets together.

Connecting double cabinets, example shows the sink and fridge cabinet with the fridge removed ready for connecting.

Add high strength bonding glue to each side panel and fix to the cabinet side using four screws.

ASSEMBLY INSTRUCTIONS – Levelling Cabinets

During installation or once all cabinets are joined together, they can be easily levelled front to back and side to side using the four adjustable feet.

Connecting the 45 degrees corner unit.

Connecting the 90 degrees corner unit.

Connecting the sear station cabinet

Cleaning and Care

Stainless steel surfaces: Stainless steel can rust if not maintain correctly. To maintain appearance, wash using a mild detergent and warm soapy water and wipe dry with a soft nonabrasive cloth after each use. Use stainless steel protection such as WD-40 on the surface to avoid rust. In areas exposed to high levels of salt air such as costal regions, rust can be a persistent problem even on Stainless Steel. Wash the surfaces regularly and use a heavy duty cover and protector spray when not in use.

Enamel & painted surfaces: Wipe away excess deposits and wash with warm soapy water using a soft, clean cloth.

Granite surfaces: Wash with warm soapy water. Wipe dry with a soft cloth we recommend a microfiber cloth

Steel surfaces: Such as magnetic catches can **rust as they are not coated**, it is advised to regularly coat these with a protection spray such as WD-40. If you have any rust on these parts wipe clean, sand with a high-grade sandpaper and coat in WD-40.

LIMITED WARRANTY

The VESTIVIUM Warranty is effective from date of purchase and is limited to the repair or replacement of parts at no charge which prove to be defective as a result of a manufacturing defect under normal domestic use. There is no warranty for commercial use of VESTIVIUM Appliances

This warranty is extended only to the original purchaser as indicated on the order placed and delivered and applies only to products sold at retail and only when used in the country where purchased. (Different types of gas used in different countries require appropriate valves, orifices, and regulators.)

WHAT IS COVERED

COMPONENT	Years
STAINLESS STEEL CABINET	5 Years
STAINLESS STEEL COOK BOX	2 Years
STAINLESS STEEL COOKING GRIDS	5 Years
INFRA-RED SEAR BURNER (EXCLUDING SCREEN)	1 Year
REMAINING PARTS & PAINT	1 Year

WHAT IS NOT COVERED

Any failures or operating difficulties due to accident, abuse, misuse, alteration, misapplication, vandalism, improper installation or improper maintenance or service, or failure to perform normal and routine maintenance, including but not limited to damage caused by insects within the burner tubes, as set out in the owner's manual.

Deterioration or damage due to misuse, severe weather conditions such as hail, hurricanes, earthquakes or tornadoes, discoloration due to exposure to chemicals either directly or in the atmosphere. Coastal regions where exposure to salt air can cause rusting.

Removal or re-installation costs. Shipping or transportation costs

Labor costs for installation and repair.

Cost of service calls.

Liability for indirect, or consequential damages.

BURNER

The life of VESTIVIUM burners (made of stainless steel) depends almost entirely on proper use cleaning, and , maintenance. This warranty does not cover failure due to improper use and maintenance.

STAINLESS COOKING GRIDS

VESTIVIUM cooking grids are not warranted against chipping or rusting due to mishandling. If some rust appears, remove the rust with a scrub pad and coat the grid with cooking oil.

We keep upgrading and optimizing product structures and details. Hence slight inconsistencies between the manual and real goods may exist. Please take your received product as standard. Do not hesitate to consult us with any concerns.
