### Features & Specifications:

- Uprights are powder coated steel.
- Upright thickness is 20mm (0.79").
- Features proprietary "Hidden Track System" with 1-1/4" (32mm) adjustment increments.
- Has 1 connection point to wall at top of upright.
- Each upright comes with 2 adjustable leveling feet that must be installed, front and back, prior to attachment to the wall.
- Leveling feet provide up to 1-1/4" of adjustment.
- Leveling feet are finish matched to upright finish selected (white, gold, or graphite).
- Wall attachment brackets, shipped with Upright, are color matched to upright color (white, gold, or graphite).
- Uprights are 1-1/4" off the wall once installed to provide clearance for base moldings.
- Minimum ceiling clearance for upright installation is 90".
- Uprights Comply with the following standards:
  - California Proposition 65
  - CARB Phase II
- Country of Origin: China

### Notes:

- Uprights come in single or triple pack options.
- Touchup paint is available and ordered separately, reference Table of Contents on page 2.

### Included in the box:

- 1x Installation Instructions
- 1x Installation Template

Each Upright includes (1 or 3 Uprights based on box quantity ordered).

- 2x Leveling Feet color matched to upright
- 1x Wall Attachment Bracket color matched to upright
- 2x Screw (Phillips head)
- 2x Easy Anchor (Phillips head)
- 2x Machine Screw (Allen head)
- 1x Allen Wrench

## 3 Bin Cabinet

Description	Actual Height (mm)	Nominal Depth	Actual Depth (mm)	Nominal Width	Actual Width (mm)	Finish Options	Pack Qty.	Part Number
3 Bin Cabinet	27.16" (690mm)	20"	18.82" (478.03mm)	24"	23.19" (589.03mm)	Perry Street White/White	1 Pack	403.00006.00015.00
	27.16" (690mm)	20"	18.82" (478.03mm)	24"	23.19" (589.03mm)	Bedford Grey/Graphite	1 Pack	403.00006.00016.00

20" Deep x 24" Wide  
(Uprights separately specified and ordered and do not come with the cabinet)

### Features & Specifications:

- Cabinet wood components are 18mm (0.71in) thick 2 sided TFL with wood grain pattern embossing.
- Cabinet wood components have 2mm thick PVC edge banding on all 4 sides.
- Lower wood cabinet has 3 metal mesh baskets on slides without soft close feature.
- Metal mesh bins are powder coated steel.
- Cabinets comply with the following standards:
  - CARB 2 Phase II Compliant
  - California Proposition 65
  - Comparable to a M2 Particle Board Standard
- Country of Origin: China

### Notes:

- 3 Bin Cabinet comes flat packed and requires assembly.
- 3 Bin Cabinet is installed on uprights that are separately ordered, reference Table of Contents on page 2.
- 3 Bin Cabinet is installed to uprights with separately ordered shelf brackets (2 sets needed), reference Table of Contents on page 2.
- IN CAD: When Cabinets are added to a design, brackets for mounting to uprights will be included and not separately selected. They will show as a separate line item on parts list. Uprights ARE selected and added to design in CAD separately.
- Crayons and touchup paint are available and ordered separately, reference Table of Contents on page 2.

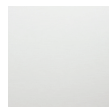

### Included in the box:

- 1x Installation Instructions
- 1x Mesh Drawer Guide Rail (Left)
- 1x Mesh Drawer Guide Rail (Right)
- 2x Cabinet Partition
- 1x Basic Shelf
- 1x Cabinet Bottom
- 3x Mesh Drawer
- 18x Screw (Phillips head)
- 4x Machine Screws Allen Head
- 4x Metal Dowel
- 6x Guide Wheel
- 1x Allen Wrench
- 6x Guide Support

						Bedford Grey/Gold	1 Pack	403.00004.00000.00
						Bedford Grey/Graphite	1 Pack	403.00005.00000.00

14" Deep x 24" Wide  
(Uprights separately specified and ordered and do not come with the cabinet)

### Features & Specifications

- Cabinet wood components are 18mm (0.71in) thick 2 sided TFL with wood grain pattern embossing.
- Cabinet wood components have 2mm thick PVC edge banding on all 4 sides.
- Cabinet has 3 interior adjustable shelves (21.57" x 52.20 x 18.03").
- Cabinets comply with the following standards:
  - CARB 2 Phase II Compliant
  - California Proposition 65
  - Comparable to a M2 Particle Board Standard.
- Door frame is color matched to cabinet with wood grain texture.
- Mesh insert is powder coated steel.
- Cabinet with Mesh Door includes door handle. Installation is required.
- Door comes with 2 slow close hinges in nickel finish.
- Country of Origin: China

### Notes:

- Cabinet with Mesh Door comes flat packed and requires assembly.
- Cabinet with Mesh Door installed on uprights that are separately ordered, reference Table of Contents on page 2.
- Cabinet with Mesh Door are mounted to uprights with separately ordered shelf brackets (1 set needed), reference Table of Contents on page 2.
- IN CAD: When Cabinets are added to a design, brackets for mounting to uprights will be included and not separately selected. They will show as a separate line item on parts list. Uprights are selected and added to design in CAD separately.
- Crayons and touchup paint are available and ordered separately, reference Table of Contents on page 2.

### Included in the box:

- 1x Installation Instructions
- 1x Handle
- 1x Mesh Door
- 2x Cabinet Partition
- 1x Cabinet Backing
- 1x Cabinet Bottom
- 1x Basic Shelf
- 3x Adjustable Shelf

Drawer/Door Pull

### Features & Specifications:

- Made of aluminum.
- Screws are zinc plated.
- Gold and graphite drawer/door pulls are powder coated. Aluminum is matte aluminum with no finish.
- Used with the following systems:
  - 3 Drawer Cabinet
  - 3 Drawer File Cabinet
  - 2 Drawer Cabinet
  - Media
  - Desktop with Drawer
- Country of Origin: China

### Notes:

- Touchup paint is available and ordered separately, reference Table of Contents on page 2.

### Included in the box:

- 1 or 3 drawer/door pulls based on box quantity ordered
- 2x screws per quantity ordered

Reference the Installation Manual for detailed images.

### Finish options:

## Parts

### Correction Crayons and Touch Up Paint

The following correction crayons can be used for the Everyday System™ wood colors:

- Perry Street White Woodgrain, use Lago White Item #585
- Bedford Grey Woodgrain, use Tesoro Ash Item #444

Correction crayons can be ordered from Cleland and Fisher

### Touch Up Paint

The following paint can be used for the Everyday System™ metal colors:

- Gold metal
- Graphite metal
- White metal

Touch up paint can be ordered from Touch Up Solutions

## Parts

### Care and Cleaning

To clean the board, the following can be used:

- Warm wet cloth
- Mr. Clean Magic Clean Eraser
- Greenworks

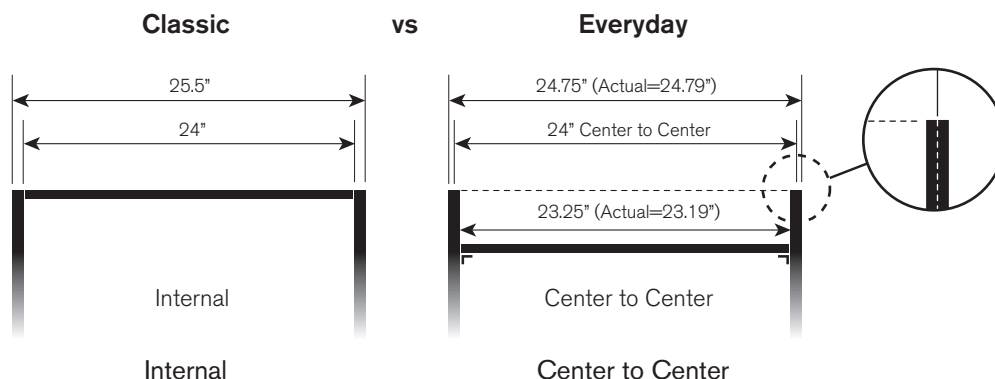

To clean the metal, the following can be used:

- Warm wet cloth
- Greenworks

Make sure all products used on the board and metal are ammonia and bleach free and do not contain any harsh chemicals.

# Designing with Everyday

## Understanding Dimensions

**Actual Dimension:** An exact number in metric or imperial value that is precise to real world material dimensions.

**Nominal Dimension:** The Actual Dimension that is rounded up or down for ease of communication.

For The Everyday System™ the Nominal Dimension is rounded to the nearest 1/4" (0.25").

### Metal Upright Specifications:

Actual width of an Upright = 0.79" (20mm)

Nominal width of an Upright = 3/4"

**Note:** The Width of the Metal Upright pertains to the front facing dimension.

- In Classic, measurement is in internal dimensions. For example, 24" in classic means 24" internal PLUS partitions.
- In Everyday, 24" is referring to center to center on the metal partitions. In the above example, 24.75" is the OVERALL dimension. 24" is the center to center dimension and 23.19"\* is the internal dimension.
- \* There is a 0.02" tolerance on Actual shelving widths to support the fit of the part between the metal uprights.

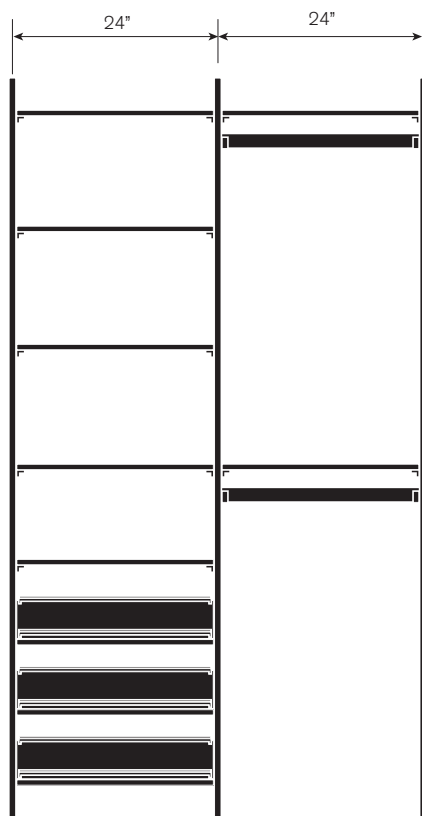

Center to Center	Internal (actual)	Internal (nominal)
16"	15.16"	15 1/4"
24"	23.19"	23 1/4"
30"	29.17"	29 1/4"
48"	47.20"	47 1/4"

- These actual dimensions need to be considered when measuring client inventory.

## Designing with Everyday

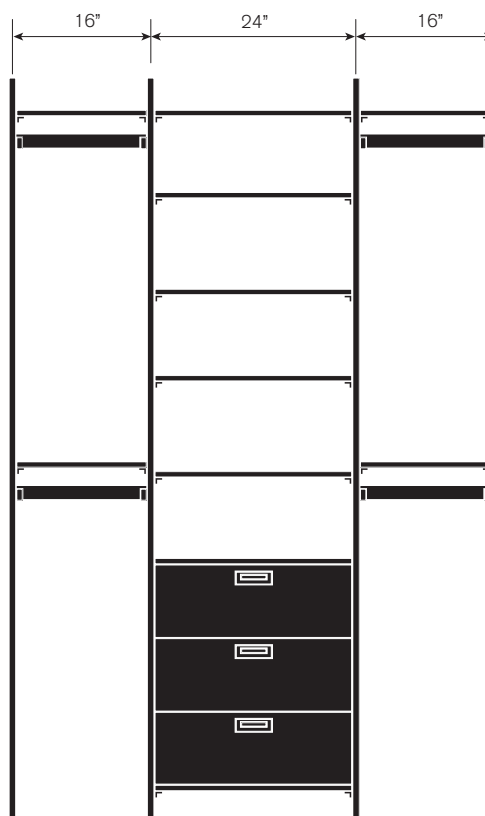

### Calculating Overall System Widths

To calculate overall width of an Everyday System with more than one component, add up all of the Center to Center whole numbers (as designated in CAD) and add .75" to the overall number.

**48.75"**

Overall width:  
 $24" + 24" + .75" = 48.75"$

**56.75"**

Overall width:  
 $16" + 24" + 16" + .75" = 56.75"$

It's simplified when you understand that the outer most Metal Uprights equate to 1/2 of an Upright each after the center to center dimensions are totaled together. This leaves the equivalent of one Metal Upright (.75" nominal) remaining to be added for the overall width of the system – no matter how many continuous components of the same depth are on a wall.

# Designing with Everyday

## General Design Considerations:

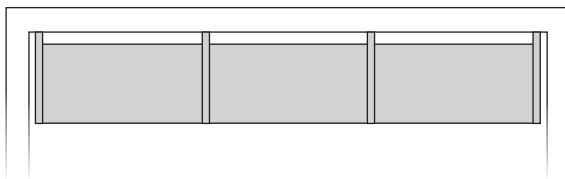

### Everyday Specific Design Considerations:

- Measuring useable wall space – same practices as we measure for Classic systems
- Base molding – always a consideration. If present, be sure to accurately represent this obstruction in ClosetCADPro
- Height – one height option (reference page 9 for more details)
- Depth – 2 depth options (reference page 10 for more details)
- Working PRIMARILY in standard component widths of – 16", 24", 30" (48" for media and office)
- Fill the gap (last resort for Closet spaces with limited Hanging or Basic Shelving only. Limitations must be clearly explained to the client)

## Design Considerations:

### Considerations on selling with gaps:

- The system is floor mounted - there will always be gaps – this is not wall to wall. Be aware of base molding on return walls as The Everyday System™ will sit inside the base width-wise. The Metal Upright will clear the base on the back wall less than 1.25"
- Some gaps will be larger than others. Centering system with a 6" or smaller gap when wall to wall is a good guideline
- Consider using another standard width component to reduce or exaggerate a gap for additional storage needs
- Be creative in providing California Closet hook solutions (ie., hook cleats or Maddox) to make best use of gaps in spaces such as Pantries and Closets

### Considerations on designing with Fill the Gap:

- In some limited cases – we have provided you with an option to “fill the gap” by cutting pieces on site at installation. It will be expensive & labor intensive. Due to part limitations, Closets are the only room supported. (no Media/Office/Pantry)
- Can apply option in ClosetCADPro when a gap is between 1" to 15.5" near a wall.
- Option to apply “to Wall” or “to Upright”)
  - To Wall (wall bracket mount) – only supports hanging pole & basic shelf parts
  - To Upright – only supports hanging pole & basic shelf parts
- Wall Bracket Mounts removes adjustability of parts and DNA of the modular system changes.
- Edge banding will be removed from cut side of shelf
- Component can no longer be modified for adding parts or reconfiguration by customer
